American Railroad Journal.

Saturday, March 20, 1875.

Financial and Commercial Affairs.

Notwithstanding the activity in the speculative line at the Stock and Gold Boards, Money has been in quite liberal supply to the leading borrowers on call at 3@4 per cent; while in the way of discounts, a good demand has been noted for the best grades of commercial paper, of short date, within the range of 5@7 per cent per annum. The reports in the commercial line, relative to the revival of trade for the Spring season, have been more encouraging, and our merchants generally speak more hopefully. The city banks, in their last weekly exhibit, show a gain of over 1½ millions in the legal tender item, with a loss of nearly 6½ millions of specie, and nearly 6½ millions of deposits. The loan and discount average was reduced over four millions, and the item of circulation also cut down slightly. The U. S. Sub Treasury lost nearly 1½ millions of currency, while gaining but slightly in the item of coin, as the result of the week's operations. The changes in the City bank averages, especially in the specie form, were due, in good part, to the manipulations of the Gold market, by the operators for a rise, as the large outstanding short interest. The City banks last week augmented their reserve of legal tender notes $1,188,000, and reduced their deposit item $6,609,700 while also diminishing their specie average $6,229,200. They report a decrease of $4,059,980 in the loans and discounts, and a decrease of $181,100 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $47,541,353, against $48,963,581, the preceding week; and a coin board of $49,698,102, against $49,562,567, on the previous return. The City bank exchanges in currency during the week, were $507,842,347, or a daily average of $84,640,391. The customs revenue of the port, during the week, was $2,232,000. The City banks reported their average of gold last week at $7,075,900, and their greenback average at $51,342,900. Their deposits stood at $223,501,200. The loan item was $288,446,000. The circulation was $22,229,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $2,543,500.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is $380,714,900. The National bank circulation is now $349,260,000.

The U. S. Treasury balances on Tuesday were as follows: Currency, $7,951,163; special deposit of legal tenders for redemption of certificates of deposit, $47,040,000; coin, (including $22.181,300 in coin certificates,) $76,571,038.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,228,855.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 81 millions.

In Gold, business has been quite brisk, and the market has been practically under the control of the operators for a rise. The short interest has been further augmented, and the price has been variable yet, on the whole, advancing. The export call for specie has been very moderate. The drain for customs has been fair, but particularly urgent. The new call for Five Twenty Bonds has thus far made no very serious impression on the general market. The disbursements of coin thus far by the Treasury Department, in redemption of bonds, under the last call has been thus far quite light. The extremes of the week have been 114⅞@116½, closing on Wednesday at 116⅜@116½ as against 115¼ on Wednesday of the preceding week. The specie outflow last week was $664,270. The imports of specie at this port since Jan. 1, have been $2,688,332 against $1,096,463 same time last year. The customs demand for Gold last week averaged $372,000 a day. Foreign Exchange has been again depressed and completely unsettled through the speculative manipulations of the Gold market. The demand has been light. Bankers' sixty day bills on London closed on Wednesday at $4 77@$4 79; sight bills on London at 4 81@$4 83 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,127,006.

Government Securities have been in more general demand, and quoted stronger in price. The offerings of bonds have been on a limited scale.

U. S sixes of 1881 closed on Wednesday of this week at 120¾@121; U. S. Five-Twenties of 1862, at 117; U. S. Five-Twenties of 1864 at 118@118¼; U. S. Five-Twenties of 1865 119¾@119⅞; U. S. Five-Twenties of 1865 consolidated, 118⅞@119; U. S. Five-Twenties of 1867, 119¾@120; U. S. Five-Twenties of 1868, 119¼@120; U. S. Ten-forties at 114⅜@114⅝; U. S. Fives of 1881, (Funding Loan) 115¼@115¾; Six per cent. currency Sixes from 119¼@119½.

The Secretary of the Treasury has decided to return to the old method of redeeming mutilated United States currency, under which a deduction was made proportioned to the portion of the notes missing. The change will take effect on the 1st proximo.

General business has been brisker in most lines, since our last. Breadstuffs have been in much better demand, with Flour, Wheat, Corn, Rye, and Barley quoted higher. Cotton closed tamely and in favor of buyers. Provisions have been more freely dealt in; hog products have been quoted dearer; Beef, steady; Butter, much lower; Cheese, also a trifle cheaper. Tobacco, Petroleum, Naval Stores, Hides, Oils, Seeds, and Fruit have been less sought after. Metals have been less freely inquired for, American Pig Iron has been quoted firm. Scotch Pig steady. Included in the sales have been about 900 tons American Pig, and 500 tons Wrought Scrap at quoted rates. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $37@$38; No. 1 American Pig at $28; No. 2 do. at $25 50@$26 50; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $30@$35. Wrought Scrap, $35. Hardware, Dry Goods, and Boots and Shoes, have been in fair request. Ocean freights, fairly active and quoted toward the close firmer.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

TREASURY OF THE ERIE RAILWAY CO.,
NEW YORK, March 15, 1875.

NOTICE.

THE APRIL COUPONS OF THE 4TH MORTgage Bonds New-York and Erie Railroad, and 7 per cent Convertible Gold Bonds Erie Railway Co., will be paid on and after the 1st prox., at the office of the undersigned, corner of West and Duane Streets, City.

W. P. SHEARMAN,
Treasurer.

OFFICE OF THE FIRST MORTGAGE MONTCLAIR RAILWAY BONDHOLDERS,
No. 152 Broadway, New York.

OVER $1,000,000 OF BONDS HAVING ALREADY been deposited, outstanding bondholders are requested to deposit their bonds at once with the New York State Loan and Trust Company, No. 50 Wall St., New York, in order to take part in a meeting soon to be called to pass upon a plan of reorganization.

MARCUS L. WARD,
ABRAM S. HEWITT, } Trustees.

OFFICE OF THE ATLANTIC AND PACIFIC TELEGRAPH COMPANY,
NEW YORK, March 15, 1875.

NOTICE.

IN ORDER TO SECURE THE PROPER DISTRIbution of the remaining Capital Stock of this company, the transfer books will be closed on the 20th instant, and reopened April 1, 1875. By order of the Executive Committee.

ALFRED NELSON,
Secretary and Treasurer.

Chief Engineer's Office, U. S. Navy Yard,
WASHINGTON, November 18, 1874.

Comm. Thos. H. Patterson, U. S. N., Commandant:

SIR:—In obedience to your order of October 5th, 1874, to carefully test the EMPIRE PORTABLE FORGE, I have the honor to submit the following report:

* * * * * * This is a very excellent and convenient forge. It works easy and with but little noise, and the power being applied with a lever, it can be worked without interfering with the manipulation of the fire.

I can recommend it as a very useful tool for work on ship board or shop use.

Very respectfully, your obedient servant,
[SIGNED] EDWIN FITHIAN,
Chief Engineer, U. S. N.

Hatch & Foote,

Important Discovery.

The Baltimore Sun of March 13th says that "during the past two days there have been interesting exhibitions at the machine works of Messrs. Denmead & Co., in this city, of a most important process in the working of steel; that is, the burning and restoring and the welding of steel by Beazell's patent. By no known process heretofore has steel been perfectly welded or restored when destroyed, yet the theories and practice in this regard appear to be overthrown by the exhibition made at the shops of Denmead & Co., where intelligent parties of gentlemen have been called by the agent of the patentee to witness the process of the best steel being utterly destroyed by burning, and then again perfectly welded or fused and made, in one instance, into a cold chisel, which was then used immediately to cut the bar of steel from which it had been made. Experts upon the spot appeared to be quite astonished and pretty well satisfied with the results. Steel generally is destroyed by burning to a white heat, and is unfit for use afterwards. Any process by which it can be reworked must be of great value, bringing the material of worn articles and scraps into use again. The important discovery in this patent is the use of a flux in reworking the metal consisting of caustic soda. It was stated that the patent right had already been sold for New England."

Petherick Mining Co.

The annual meeting of the stockholders of this company was held in Boston on the 16th inst. The report of the Treasurer showed that the product of the mine for the past year was 194,878 lbs. of mineral, which yielded 84 5-10ths per cent. of pure copper. Estimating the amount left over at the mine at 19 cents per lb. the value of the product was $85,287. The agent reported that the rocks had yielded better the past year than ever before, that the mine had paid expenses in the month of December, the rock yielding one and eight-tenths per cent. of mineral, and the latter 84 5-100ths of pure metal. The following Directors were chosen for the ensuing year by a vote of upwards of 18,000 shares: Geo. E. Wilder, John C. Watson, Horatio Bigelow, H. W. Nelson, C. F. Eschweiler of Michigan.

☞ The Reading and Lehigh Railroad, recently leased by the Philadelphia and Reading Railroad Company for 99 years, is to be known hereafter as the "Berks and Lehigh Branch" of the Philadelphia and Reading Railroad. It extends from one mile below the City of Reading to near Slatington, Lehigh County, a distance of 44½ miles, and was originally built to give the Wilmington and Reading Road an outlet in the Lehigh Valley. For some time past the railroad struggled along under many disadvantages, and finally defaulted the interest on its mortgage bonds. The Philadelphia and Reading Railroad Co. has now exclusive control of it, and possesses a direct communication with the coal mines of the Lehigh Valley.

☞ The bill for the extension of the Farmingdale and Squan Village Railroad from Squan by way of Ocean Beach and Ocean Grove to Long Branch, has passed both houses of the New Jersey legislature, and received the signature of the Governor.

Pittsburg, Cincinnati and St. Louis Railway.

At the annual meeting of the stockholders of this company, held in Steubenville, Ohio, on the 16th inst., the following gentlemen were elected directors for the ensuing year: Thomas A. Scott, George B. Roberts, Josiah Bacon, Wistar Morris, Strickland Kneass, Henry H. Houston, Thomas L. Jewett, J. N. McCullough, William Thaw, Robert Sherrard, Jr., D. S. Gray, George H. Adams, and Alfred Gaither.

The board was organized by electing Thomas A. Scott President and W. H. Barnes Secretary.

The annual report shows that the net earnings of the main line from Pittsburg to Columbus were $891,297. A preamble and resolution were unanimously adopted, declaring the income of the road insufficient to pay the interest on the second mortgage bonds, and principal, $5,000,000, due April 1, 1875, and that income bonds to the amount of $10,000,000, secured by mortgage, and running fifty years, from April 1, be issued for the purpose of retiring the second mortgage bonds and accrued interest; and also to increase the facilities of the company for transacting business.

☞ The Maryland Court of Appeals has rendered its decision in the case affecting the time allowed the Baltimore and Drum Point Railroad to finish its road. By the third section of chapter 389; acts of 1874, the company was limited to five years from January 1, 1870. It was ascertained that the bill passed both houses, as five years from January 1, 1875, and that the error was made by the clerk who copied the bill after it had been passed. The court therefore decided that the charter of the road was not vacated, and that the act of 1874 stood, save the third section thereof, which was null and void.

☞ The Supreme Court of North Carolina has decided the case involving the validity of the lease of the North Carolina railroad to the Richmond and Danville Railroad Company. Judge Settle delivered the opinion, declaring the lease to be valid, and affirming the right of the Richmond and Danville Railroad Company to change the gauge of the North Carolina railroad between Greensboro' and Charlotte.

☞ At the recent monthly meeting of the Maryland Institute at Baltimore, Md., the Committee on new inventions reported favorably upon a combined hose bridge and car-replacer, which is the invention of Samuel O'Laughlin, carpenter, of that city. The hose bridge is arched and hinged, and when not in use can be folded together and placed at the front of the car, where a "hood" is put over it and a seat for the driver is thus provided. A flange is attached which, when the bridge is fastened to the track in a certain position, will force a car back which has left the track.

☞ Riehle Brothers, Proprietors of the Philadelphia Scale and Testing Machine Works, have recently furnished the Cambria Iron Co., Johnstown, Penn., with a Testing Machine of 15,000 lbs. capacity for testing the tensile and crushing strains of iron, &c., of almost any length.

☞ The Wellston and Lincoln Narrow Gauge Railroad company, of Jackson county, Ohio, with a capital stock of $100,000, has been incorporated by Harvey Wells and others.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

Chicago, Danville and Vincennes Railroad.

Messrs. Wm. R. Fosdick, James D. Fish and Jas. W. Elwell, Trustees of the mortgage indebtedness of the Chicago, Danville and Vincennes Railroad Company, have addressed a statement in circular form to the bondholders, under date March 3, 1875, in which they inform them of the perilous condition of their property in consequence of action recently had in Illinois and Indiana, by which the road, on *ex parte* proceedings, has been placed in the hands of a Receiver inimical to their interests, which action, it is believed, if not forthwith reversed, will be disastrous to them. The Trustees then proceed to say:

"Immediately upon the occurrence of this unprecedented, and, as we are advised, illegal action, the President of the road, Wm. D. Judson, Esq., who at the time was in Chicago, in the discharge of his duties, sent a telegram to this city, requesting the early presence in that city of the Trustees of the Bondholders, or one of them, to look after their interest of the trust, in this unexpected exigency of the company's affairs.

"The undersigned N. R. Fosdick, was requested to respond to that summons, and, accordingly took the first train for Chicago, reaching that city on Friday last, 26th ult. His investigation of the situation, and his report thereof to the undersigned, his co-Trustees, are of such an alarming character, that we feel that we should be derelict in the discharge of our duties as Trustees if we failed in placing before you at once, the facts of this most iniquitous and unparalleled outrage upon your rights.

"We, therefore, request that you immediately call at the office of the company, and hear Mr. Fosdick's report of these transactions, and the measures he has taken for the protection of your interests, and if his action is approved, for authority to take such further action as future developments, and the protection of your interest, may render necessary. We suggest that there is no time to lose in the adoption of measures for an organized resistance to the unlawful proceedings referred to, which, if not, reversed at once, will, in our opinion, be destructive of your interests and property."

From information obtained at the office of the company, it appears that the statements put forth in connection with the first announcement that receivers had been appointed were greatly untrue, and were put in circulation to palliate the outrage

of moving for the appointment of receivers, and seizing the road under process in the suit; and that the bill sworn to by Mr. Field is brought upon a small amount of bonds—eleven in number—the principal and interest of which was tendered in court, and refused. The road, it is stated, was built by a contract company, (J. E. Young & Co.,) who put more than $1,000,000 of their own money into it before they placed a single bond on the market. With this amount they completed 38 miles. The statement that the completed road is only 138 miles long is erroneous. The Engineer's official report shows 162 miles of completed track. From the fact that the directors have succeeded in funding $3,000,000 out of $4,000,000 of the coupons, which assented coupons the trustee has in his possession, it would seem that the receiver process is hasty and untenable.

The debt of the company outside of the mortgages is placed at $845,000—a large portion of which is secured by mortgage bonds which the company own. The first mortgage bonds out amount to $3,700,000, and the second mortgage bonds to $170,000. The rest of the $5,000,000 is owned by the company. The chattel mortgage of $1,000,000, it appears, was made mainly to secure the bondholders, as under the Illinois laws all railroad machinery and rolling stock are personal property and liable to judgment debts.

Bills for supplies and pay-rolls it is admitted are overdue, but that is the case with many of the western railroads and is no unusual circumstance. So in regard to the bills for machinery and tools of the Danville shops. The amount of the certificates of indebtedness, which are issued in respect to the overdue coupons, is $360,000, exclusive of which it is estimated that the entire debt of the road is a little over four and a half millions.

The trustees have commenced suit in the United States Court to take the road out of the hands of the Receivers.

Messrs. W. D. Judson and Amos Tenney, president and treasurer of the Railroad company, have addressed a statement to the bondholders giving much information in regard to the matter. This statement is given below in full:

To the Bondholders of the Chicago, Danville and Vincennes Railroad Company.

The entire road, equipment and property of this company having been placed in the hands of Receivers by the Will County Circuit Court of Illinois, or an *ex parte* application, without any notice whatever to the company, the bill filed in the case being filled with willfully corrupt, malicious and false representations, and evidently drawn for the purpose of imposing an outrage and fraud upon the Court; our first duty is to urge you to resort to all lawful means to rescue the property from its perilous position, and place it in the hands of your trustees, or others on whom you can rely, to preserve it from ruin.

The bill filed in the case was sworn to by one C. R. Field, of the late firm of Field, King & Co., of Chicago, against whom the Railroad Company has a judgment for $5,216, 26, confirmed by the Supreme Court, the claim being for money loaned. A suit is also pending by the company against the same firm for over $10,000, being for the avails of township bonds entrusted to them for sale, but which were appropriated to their own use.

We state these facts in explanation of the *animus* of the party whose affidavit is affixed to the bill of complaint.

In brief reply to some of the scurrilous allegations in the bill, and the numerous publications through the public prints, and otherwise put forth by this Mr. Field, who, we have reason to believe, is to some extent the pliant tool of others, we have to say:

That the general fact that the company has been laboring under serious financial embarrassments since the panic of 1873, is well known to you all. We have earnestly striven with all the means in our power to sustain it, and in so doing have assumed large personal liabilities.

The construction contract referred to, we believe to have been desirable, advantageous and provident for the company, and similar in its general features to those, in respect to nineteen twentieths of the roads, built and in operation in the Western States. It has proved, however, to have been seriously unprofitable to the parties concerned, *i. e*, the contractors, J. E. Young & Co.

It is true that the general manager of the railroad company did issue a large amount of paper in the company's name, for the accommodation of parties having no connection whatever with the company. The fact first came to our knowledge early in Nov., 1873, in the midst of the panic of that year. We were advised by able counsel that it was not a legal obligation of the railroad company, and in the exercise of our best judgment, and with the view of protecting the credit of the corporation, and in that critical period *saving its creditors from the consequences of serious disaster*, we sought to have the paper retired as far as practicable, and to obtain indemnity against the rest. Over three fifths of the amount has been provided for by the party who issued the paper from his own individual property, and cancelled, and, we believe, ample security has been furnished for a large portion, if not all of the remainder.

The Indiana Division of the road, so far as completed, was constructed by the railroad company itself, no general contract having been made in regard to it. The work proved to be far more serious, difficult and expensive than was originally contemplated. The panic occurred when a large portion of the materials which had been purchased and paid for were on hand, but from the impossibility of obtaining the necessary means to proceed with the work, they have, so far as not required for the railroad company's use, been sold, and the proceeds applied in payment of the railroad company's liabilities. It has been extended into the heart of the coal fields, and the fact that more than one half of the tonnage of the whole road the past year consisted of coal, has fully demonstrated its value. It will be a serious blow to the whole property if the two divisions are ever segregated.

The reputed credit to Young & Co., the contractors, is largely overstated, and when correctly ascertained, we believe will be found to be equitable and just. It is not even alleged, however, that one dollar has ever been received by them on account of it, either in money, securities of any kind, or the railroad company's common stock. It is a novel proposition that the existence of a credit (instead of *debit*) balance furnishes *prima facie* ground for such scurrilous accusations.

In any event, this account, or any other floating liability, does not in any sense impair or affect the prior liens of the bondholders of any class.

The allegation in regard to the endorsement of bonds of the Indiana Coal Company is deliberately false; it is connected with the transfer to the railroad company of coal cars of the full value of the bonds, and is explained on the company books.

We call your special attention to the fact, (probably not hitherto known to many of you,) that the C., D. & V. R. R. Co. invested about $80,000 in aid of the construction of the Cincinnati, Lafayette and Chicago Railroad, under a contract for the perpetual mutual interchange of business, which, if carried out in good faith by the other company, would have been of great value and advantage to your road. The contract having been wholly disregarded and repudiated by the C., La F. and C. Co., we employed counsel, and instituted legal proceedings for the recovery of the money invested and damages—some $400,000 in all.

The case was heard before the Circuit Court of Newton County, Indiana, October term, 1874. Defendant demurred to the bill of complaint. The court overruled the demurrer, sustained the validity of the contract, and set a day for the further hearing of the case at the March term of the present year.

The counsel who acted *for our company* in these proceedings now comes forth as the *leading counsel against our company*, in the ex pate application which has now resulted in placing our road in the hands of receivers.

We also invite your special attention to the following extracts from the order of the court appointing receivers for our road, prepared by the counsel referred to:

"And the said receivers are further authorized to proceed by suit or otherwise, and in such manner and at such times as they may deem most expedient, to collect all and singular the notes, accounts, credits and choses in action of every kind, which may now be justly due and owing to said railroad company, and also to prosecute all suits now pending in behalf of said company, and if the said receivers shall in any case deem it expedient to effect a compromise with any debtor of said corporation, they shall have full power so to do, reporting their actions to the court for its confirmation."

"And the Chicago, Danville and Vincennes Railroad Company, and each and every of its officers, agents, &c., &c., * * * * * * * are still further restrained from interfering in any manner in the conduct of the prosecution or defence of any suit, action or legal proceeding now pending or hereafter to be brought by or against the said Chicago, Danville and Vincennes Railroad Company."

Further present comment in reference to this most extraordinary state of facts, seems to be unnecessary.

In conclusion, we solemnly and unqualifiedly declare, that every rail, engine, car, and every other item or thing purchased for the company's use, has been turned over to it without any additional charge by way of commission or otherwise, as the original bills in the possession of the company will abundantly verify. Nor have we ever made any charge, or received any compensation for services from the day the company was chartered, to the present hour. Nor has a single dollar, either in securities or money, been appropriated from the company's funds, for our personal uses; directly the contrary being the fact, to a very large amount.

After the bondholders have obtained possession of the company's property through its lawful trustees, we invite the most thorough examination of all our transactions with the company. We urge, also, that you take measures to ascertain who the real parties are who have been instrumental in causing this sudden and damaging assault upon your property and rights—not alone the more conspicuous actors in the front, but others who stand behind, and who hope to profit by the company's ruin.

On this latter point, our counsel are now in possession of most important evidence.

When you have ascertained all the facts, we ask you to judge between us and our accusers.

We have no fears of the result.

W. D. JUDSON,
AMOS TENNEY.

New York, March 8th, 1875.

☞ Articles of incorporation of the San Bernardino Railroad Company were filed with the Secretary of State of California on the 3d inst. This company was organized for the purpose of constructing and maintaining a railroad running from the town of San Bernardino to the station on the line of the Southern Pacific Railroad nearest to said town, a distance of about four miles. Capital, $125,000, in shares of $50 each. Directors—Wm. A. Conn, J. W. Satterwhite, James Stewart, F. R. Brunn and W. S. Tittle. The principal place of business will be in San Bernardino.

☞ The Pittsburg Dispatch says the Pennsylvania Railroad Company propose a radical change in the shape of their sixty seven pound and sixty pound steel rails. A section of the proposed rail presents a head with a decidedly angular appearance, nearly flat on the crown, with sides presenting a large and corresponding surface to the wheel flange, and with its weight of metal greatly increased, which (the weight per yard remaining the same) necessarily reduces the area of the neck and flange or base. The width of the flange, moreover, is increased. The changes conform pretty nearly to those adopted by the Erie Railway Company.

THE WHARTON

Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

COSTS LESS

Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

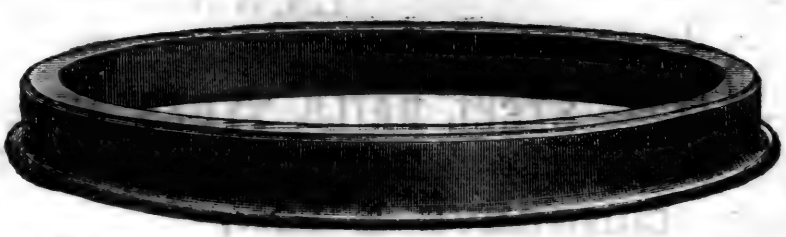
Quincy Mining Co.

At the annual meeting of the stockholders of this company held in Boston on the 3d inst., the annual report of the directors was submitted and accepted.

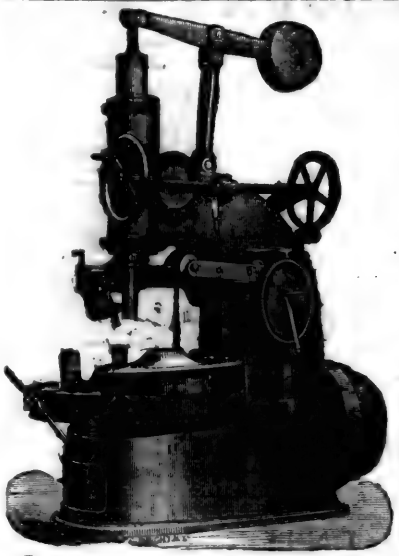
The report showed the products to have been 3,621,405 pounds, for which estimating the copper on hand in New York at 21¼ cents and that left over at the mine at 19 cents, makes the gross earnings $656,083 16. The expenses are $461,088 54, leaving as profit over all expenditures, $19,994 62. To this is added interest $4432 20 and sales of real estate in Hancock $3865 09, giving as earnings for the year $203,291 21. Deduct for copper delivered Holmes & Lissberger bankrupts $28,820, giving as result of the year's business $174,471 91.

The statement of assets and liabilities from last report showed balance on hand Jan. 1, 1874, $473,572 44; add earnings of 1874, $174,471 91; total, $648,044 35; less dividend Feb. 20, 1874, $160,000; making balance of assets Jan. 1, 1875, $488,044 35. A dividend of $8 per share on $160,000, payable Feb. 15, has been declared from the earnings of the past year. The report of the agent on the mine says:



It is very gratifying to be able to chronicle the handsome results of the past year. The unprecedented productiveness of the mine for 1874, reveals the fact, that hitherto her wealth has been but partially brought to light; and demonstrates in a clear and undoubted manner, the fallacy of the theory that increasing depth would be marked by a corresponding decrease in the value of our lode.

The following gentlemen were elected Directors for the ensuing year: Thomas Follason, F. B. Wallace, S. Henry Perkins, Henry S. Repley, A. J. Corey.



On motion it was voted that the offices of the company be transferred to New York, and after a vote of thanks to the officers of the retiring board, and especially to the retiring President for his successful efforts during the past year, the meeting adjourned *sine die*.

☞ A mine of asbestos of a very fine quality exists in the neighborhood of Eureka North, Sierra county, Cal.

New York, Saturday, March 27, 1875.

Northern Pacific Railroad.

A numerously attended meeting of the bondholders of the Northern Pacific Railroad Company was held in this city on the 18th inst. The meeting was addressed by Gen. G. W. Cass, President of the company. He said that the Northern Pacific Railroad Company had earned the following lands: From the Northern Pacific Junction to Moorhead, 228½ miles, at 20 sections, or 12,800 acres to the mile, making 2,928,000 acres, less one-half, the title of which is withheld until Lake Superior is reached, leaving 1,464,000 acres; from Moorhead to Bismarck, in Dakota, 198 miles, at 40 sections, or 25,600 acres to the mile, making 5,068,000 acres, and the Pacific Division, from Kalama to Tacoma, 105 miles, at 40 sections, or 25,600 acres to the mile, making 2,688,000 acres—showing as a total that the company is entitled to patents for 9,220,000 acres of land, while the total number of acres of granted lands accruing to the 531½ miles of road was 10,684,000. To satisfy the company's grant in Minnesota there are within the 20 mile limit odd number sections not otherwise appropriated or claimed amounting to 869,000 acres. Within the indemnity limits of 20 miles further there are 875,000 acres available. The total area in Minnesota available now for the grant are 1,744,700 acres, being an excess of 280,700 acres over the company's present requirements in that State. The award of the St. Vincent contested lands to the company would add about 799,000 acres to the available area in Minnesota, still lacking some 384,400 acres of satisfying the company's total grant in Minnesota. In Dakota, there will be, he said, no deficiency. The Government has patented to the company 685,960.73 acres, wholly in Minnesota. Patents for the remainder of the earned lands are delayed by two causes: first, the Government surveys are not completed; second, an act of Congress requires the company to pay the cost of surveys before the patents are issued. The company denies the legality of this requirement, and has no funds with which to meet it, if valid. About one-third of the company's land in Dakota is now surveyed. The cost of procuring the certified lists of lands from the local United States land offices, preparatory to applying for patents, is 1¼ cents per acre. An approximate estimate of the cost of Government surveys is: 10 cents per acre for timber lands, and 8 cents per acre for prairie land. The total cost of surveying the company's earned grant will be probably about $700,000. The total sales of land to March 1, 1875, are as follows: In Minnesota and Dakota, 310,389.79 acres at $5 87 per acre, making $1,669,815 47; in Washington Territory, 35,148.09 acres at $8 56 per acre, making $300,887 56, the aggregated total being 345,537.88 acres at the average price of $5 70 per acre, realizing $1,970,703 03. The total receipts from land sales to the present date have been $1,858,698, consisting mainly of the following items: In first mortgage bonds, which have been received and cancelled, $1,261,570; in land warrant interest bonds, since cancelled, $116,194 11; in accrued interest on bonds, $51,803 61; in premiums allowed on bonds, $134,708; in bills receivable, settler's contracts on credit sales, part of which will be forfeited to the company and most of the remainder settled with the bonds, $112,065 03. Of the sales in Minnesota and Dakota, 41,673 acres were of timber land, and the remainder, or 268,716 acres, of agricultural land. Of the farm lands sold, one-half have been purchased by actual settlers and others especially for cultivation.

There have been issued of first mortgage 7 3 10 gold bonds, $31,696,270, of which had been surrendered by the Land Department for lands sold $1,254,970, leaving a balance outstanding of $30,441,300. Of the 7 3-10 bonds issued as collateral for floating debt, mostly in 1875, there have been pledged $1,780,300, at the rate of 25 to 40 cents on the dollar. The interest on land warrants, bonds, and scrip given in funding of coupons amounts to $848,185 55, less $115,552 78, the amount surrendered in payment for land sales, leaving a balance outstanding of $732,632 77. The floating debt is $634,758 38, but of this amount $150,000 is arranged for settlement in a few days, and of the remainder $250,000 is due to the directors for money advanced to finish the Pacific section after the failure of Jay Cooke & Co. in 1873. This leaves only $284,758 38 due outside of the company as a floating debt, which he thought was a better showing than any other railroad company could make. The earnings of the road have been as follows: On the Minnesota and Dakota division, $544,426 78; less expenses, $460,006 23—leaving the net earnings $84,420 55. On the Pacific division the earnings have been $102,394 79; less expenses, $62,759 19—leaving the net earnings, $39,635 60; making the total net earnings for the two divisions, $124,056 15. The capital stock issued to March 10, 1875, in shares of 100 each, have been 254,976 shares, making the gross amount of $25,497,600.

The following resolution was adopted:

Whereas, the Board of Directors of the Northern Pacific Railroad Company express confidence, confirmed by time and investigation, in the great merits and final success of the Northern Pacific Railroad in the most extended meaning of these words; and

Whereas, The said Board has reported to this meeting that, in their judgment, the earnest and efficient aid and support of the bondholders is essential to the early resumption of the work of construction, and that, with such aid and support as the bondholders can wisely and safely give, it is possible to proceed with the work of construction at an early day; therefore

Resolved, That the chairman of the meeting appoint a committee of seven to confer with the directors of the Northern Pacific Railroad Company in regard to its management, and the present and future interests of the bondholders, and that they report at some future meeting.

Eastern (Mass.) Railroad.

The Directors respectfully submit to the Stockholders their annual report for the year ending November 30, 1874.

The tables subjoined contain a statement of the receipts and expenditures of the road and its branches and connecting roads operated by it for the year, and a comparison of the same, with those of the preceding year.

The Directors also annex to their report statements showing certain changes which have been made in the system of keeping the various accounts, of which a summary has been presented in the previous annual reports, with a view to giving a more clear and correct statement of the actual condition of the corporation.

The earnings and expenses for the years ending November 30th, 1873 and 1874, are shown in the following table.

RECEIPTS.

	1873.	1874.
Passengers	$1,778,909 52	$1,757,848 67
Freight	1,027,785 28	1,068,781 88

Balance, surplus income Dec. 1, 1874		$252,327 41

Upon the foregoing statement it appears that the gross earnings show an increase over 1873, of $116 200 12 and the net earnings are increased by $485,645 50. The operating expenses have been 64¾ per cent. of the gross earnings. These results are especially gratifying, as business of all kinds during the past year has been much depressed, and the receipts of railroads generally throughout the country has been seriously diminished.

Great efforts have been made during the past year by the directors and officers, to reduce the expenses of operating the road, in all departments, and the results are shown in the increase of net earnings over previous years. This has been done without impairing the safety and efficiency of the road in any respect; on the contrary, the road bed, track, engines and cars, are in better order now than ever before; 1,357 tons of new iron rails, and 24 miles of steel rails have been put in the track, and 12 miles of rails have been repaired and relaid, 81,431 new sleepers have been laid, and a large amount of ballast has been used at places where needed. 4,927 lineal feet of bridging have been built including a new drawbridge over the Mystic River, and a new iron bridge 606 feet long, over the Saco River, at Biddeford, to replace the wooden bridge destroyed by fire. Seven miles of new side tracks have been added to those already existing. The extension of the Conway Road to the junction of the Portland and Ogdensburg Railroad, has been completed. The Portsmouth and Dover Road was opened for business February 9th 1874.

We now operate 284 miles of road, of which 40 are double track, and 244 are single track. Sixty five miles are laid with steel rails, principally between Boston and Portsmouth.

The equipment of the road has received its full share of attention, and all such repairs and additions as the business of the road required have been made. Both engines and cars are in as good order and in many respects in better order now than at any previous period for several years.

Fifteen miles of new fence have been built during the past year.

The new freight house and freight tracks at Charlestown were brought into use October 1st; the freight house is 1,192 feet long, by 30 feet wide, built of brick, with slated roof; it is divided into sections of about 300 feet each, by brick partitions with iron doors; Hall's sprinkling apparatus has been introduced, thus rendering the whole buildings practically fire proof. Every convenience for the prompt and economical handling of freight has been introduced, and it is believed that no better freight depot is possessed by any railroad in the City of Boston. The outlay for this improvement has been large, but the advantages of the location are so great, that it will be appreciated by the patrons of the road and add largely to the revenue in the future. The land and wharves at East Boston, your directors think, will be needed for business seeking ocean shipment. With the opening of the Portland and Ogdensburg Railroad line, through to Montreal, which will undoubtedly take place during the present year, we expect to receive from that line, by way of North Conway, large amounts of freight which can be better accommodated at East Boston than at any other point.

The contract for a division of the business at competing points with the Boston and Maine Railroad which was announced at the last annual meeting, was, after some delay, executed in April, and went into effect the first day of May. It has worked satisfactorily to both parties, and tended to check the profitless competition which had before existed. It is to be hoped that further stipulations may be made with the Boston and Maine Railroad, so as to include all business for which the Eastern and Boston and Maine compete, and to this the efforts of your directors have been steadily directed, with a fair prospect of success.

The passenger trains have been run with promptness, and no accident to them has occurred involving loss of life or limb, during the year. The other trains have been run with success, and with the exception of two accidents to freight trains, no disaster has occurred.

The contract between this corporation and the Maine Central Railroad Company, presented to the stockholders at their last annual meeting, and ratified by them, having proved unsatisfactory to that corporation was annulled in December last, and on the first day of January, 1875, a new agreement was entered into, abrogating all previously existing contracts with that road, and placing the two corporations, as it is believed, in fair business relations with each other, under which an amicable and mutually profitable connection is confidently expected for the future.

The directors are aware that this report is submitted to a body of stockholders, many of whom may well be disheartened at their failure to receive dividends, and at the great depreciation in the market value of their securities.

They do not propose to go into any extended consideration of the causes which have led to these temporary results.

They think it proper however, to remind the stockholders, that since the Revere disaster the condition of the property in their charge has been widely and radically changed, so that the road has been, in fact, in a transition state from which it is just now emerging.

As indicating somewhat the nature and extent of the change referred to, they would state, that during the period named, the entire superstructure of the road, from Boston to Portland has been substantially rebuilt; that the equipment of the road has been doubled; that the Miller Platform, the Westinghouse Brake, the Electric Telegraph system for managing trains, and other appliances for increased safety and convenience in operating the road have been introduced; that connection with the Portland and Ogdensburg route has been established through the construction of the Great Falls and Conway Railroad; and the road has been in every respect put into condition for doing, as a first class railroad, the largely increased traffic which your directors have endeavored to promote. Especially with this view it has been found necessary to incur large expenditures in providing terminal facilities for freight; and our investment at Charlestown exceeding a million of dollars has successfully and permanently, as we believe, supplied this great need. The stockholders will note that it is only for the last two months embraced in our report that the freight tracks and depot at Charlestown have been in use.

During the two months a net gain of almost one hundred thousand dollars has been made in the operation of the road over the two corresponding months of the previous year, no inconsiderable part of which is to be attributed to the advantage derived from these new facilities for freight; and this gain may serve as an indication of the improvement which the directors confidently expect in the net results of another year and in years to come. A considerably smaller percentage of increase in the net receipts for an entire year than is shown for the period above named, would put the road upon a dividend paying basis.

JOHN WOOLDREDGE, President.

CONSTRUCTION ACCOUNT.

During the year there has been charged to construction for sundry items, including a portion of the purchase of Charlestown land, land on Causeway street Boston, balance of construction account of the Portland, Saco and Portsmouth Railroad, beyond its capital stock, now assumed by this company, cost of the Swampscot Branch, and for items transferred from the property and equipment accounts, the sum of $3,865,472 75.

which has been distributed to—

Engine houses and turn tables	$84,740 49
Shops, machinery and tools	331,C09 36
Graduation and masonry	216,765 02
Wooden and iron bridges	296,751 11
Superstructure, steel and iron rails	752,829 69
Station buildings and fixtures	150,942 75
Land, land damages and fences	1,369 076 55
Engineering and general expenses	163,357 78

The present cost of permanent way is $11,906,000 02.

To the account of equipment or rolling stock, there has been charged for

Locomotive engines	$138,169 91
Passenger cars	74,479 03
Freight cars	16,472 43

and the amount of $328,443 49 has been transferred from this, to the construction account, being for shops, machinery and tools, included in the account in the last annual report.

The cost of equipment is now $2,343,064 27.

PROPERTY ACCOUNT.

In the property account, changes have been made by transferring to the proper accounts those items heretofore included in this, and being needed for the use of the road, could not be considered as saleable property. The principal changes are steel and iron rails $57,780 36. Land in Charlestown, $510,435 78, coal, wood and iron on hand, for daily use of the road, $266,436 45.

The cost of the property included in said account is $2,541,008 33, and consists of land in Charlestown and Lynn, stocks in connecting roads, Pullman Palace Car Co.'s stock, bonds and bills receivable.

In the capital or shares of the road, no change has been made and it remains the same as last year, $4,997,600 00.

The bonded debt has been increased by the issue of the balance of 600,000 pounds sterling, negotiated by Messrs. Baring Bro's & Co., in London		$2,397,900 00
and by sale of bonds due in 1887	55,000 00	
and decreased by retiring bonds held in Europe	880,000 00	
Bonds in the U. S., due Aug. 1, 1874	750,000 00	

The amount of bonds is now $5,788,800 00, of which $1,854,400 bear interest at the rate of 6 per cent. currency; $959,000 bear interest at the rate of 7 per cent. currency; $2,919,900 bear interest at the rate of 6 per cent. sterling.

NOTES PAYABLE.

The whole amount of notes outstanding is $5,696,900 of which the greater portion are coupon notes on ten years, the rate of interest being, $173,000 @ 6 per cent; 5,523,900 @ at 7 per cent.

INTEREST ACCOUNT.

Interest is charged with amount paid on bonds and notes		$748,088 28
Rent of Portland, Saco and Portsmouth Railroad	150,000 00	
Rent of Portsmouth and Dover Railroad	21,000 00	
Rent of Wolfeboro Railroad	5,820 00	
Rent of Newburyport City Railroad	6,000 00	
In all		$930,908 28
And credited with amount received on notes and bonds sold	$7,468 72	
Charged to P., G. F. and C. R. R. for advances	44,007 65	
Charged to Wolfeboro Railroad, for advances	22,113 23	
Charged to lands in Charlestown	77,895 79	
Charged to notes, bonds and bills receivable	53,875 21	
Advance on sales of exchange	44,000 00	
		248,860 60
Balance to income of road		$682,017 68

JOHN B. PARKER, Treasurer.

The Coal Trade.

The tonnage of the leading coal carrying companies for the week ending on the 13th inst. is stated by the Philadelphia *Ledger* at 251,316 tons, and for the year to that date to 3,025,999 tons, against 3,722,967 tons, showing a net decrease of about 700,000 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 56,160 tons, and for the year 478,220 tons, of which 390,027 was coal and 88,191 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. The *Ledger* adds:

We last week in our coal article alluded to the fact that those who profit from mining and transporting anthracite coal should take care that the market they are now creating for bituminous coal, by failing to supply the market fully with anthracite, did not continue beyond the immediate present. Those who are now forced to the use of bituminous coal are compelled to alter their bars, and when the alterations are made they may discover such advantages in the convenience of supply or economy in use as will induce them to continue permanently the soft coal. Already the Pennsylvania Railroad Company, with an eye ever open to increased business for its road, has given notice of a special assignment of cars to the bituminous regions and a reduction of twenty five cnts per ton for all semi bituminous coal transferred at their Greenwich wharves to sea-going vessels destined to ports east of New York or south of the Capes. This is looking for a market abroad for its soft coal, while here at home we are informed that the Clyde line of steamers, which consume annually some 30,000 tons, are being so altered as to adapt them to the burning of the lower priced and softer coals, and that one of our city ice boats, which has never used anything but anthracite, is undergoing the same kind of alterations for the same purpose. We hear of like changes from hard to soft fuel by manufacturers and other large consumers in various directions, so that it behooves those interested in the anthracite coal trade, miners, operators and carriers, to have a care that they do not aid in building up a rival for at least a part of their trade, and that will be longer in the regaining than it was in the losing.

Suits against the Pacific Railroads.

WASHINGTON, March 28. The Attorney General has given instructions to the proper District Attorneys to institute suits against several of the Pacific Railroads for amounts certified by the Secretary of the Treasury to be due the Government for five per centum of their respective net earnings, provided for by the act of July 1, 1862, or by any other act or acts in relation to the respective railroad companies. The following are the railroad companies against which suits will be immediately instituted, with the amounts for which the suits are brought—Central Branch Union Pacific, $47,197 39; Sioux City and Pacific Railroad, $21,101 42; Union Pacific Railroad, $1,040,056 29; Kansas Pacific Railroad, $308,880 18. The following are the points at which the suits will be brought: Kansas Pacific Railroad in the State of Kansas; Union Pacific Railroad at Boston; Sioux City Railroad in Iowa; Central Branch Railroad in Kansas.

☞ A case involving the validity of the Westinghouse brake patents, as well as the more recent patents of the Gardner and Ranson Air Brake Company, is to be tried at Cleveland, Ohio, in April. One of the leading elements of the Gardner and Ranson brake is the double acting brake cylinder, by means of which the engineer is enabled, by the application of compressed air to either side of the piston, to release the brake from the wheels instantly, whether the same be only partially applied for the purpose of slacking the train, or applied with full force for the purpose of stopping; and the question to be determined is whether this feature is not an infringement of the Westinghouse patents.

Northern Central Railway.

At a general meeting of the stockholders of the Northern Central Railway Company, held in Baltimore on the 25th ult., the following report of the Board of Directors was presented and appended resolutions adopted:

OFFICE NORTHERN CENTRAL RAILWAY CO.,
BALTIMORE, February 25, 1875.

To the Stockholders of the Northern Central Railway Company:

Your Directors submit the following report of the operations of the company for the year ending December 31, 1874.

The revenue of your Main Line, with its leased and controlled roads, was as follows:

From passengers		$864,618 64
" freight		3,360,217 98
" express		84,095 80
" mails		53,465 00
" miscellaneous		314,103 03
Total		$4,676,500 45

And the expenses were:

Conducting transp.	$1,074,930 84	
Motive power	927,745 06	
Maintenance of cars	981,234 56	
Maintenance of way	810,980 55	
General expenses	88 662 94	
		3,883,553 95
Leaving as net earnings		$1,292,946 50

In comparison with the year 1873, there was a decrease in gross earnings of $854,865 14, equal to 7 per cent; and a decrease in the operating expenses of $387,881 29, equal to 10.3 per cent.

The increase in the net earnings was $33,016 15, or 2.6 per cent.

In the expenses for the maintenance of way is included the cost of steel rails, purchased at an increased price over that of iron of $40,000.

The operating expenses were 72.4 per cent of the gross earnings, which, in comparison with 1873, shows a reduction of 2.5 per cent.

In addition to the net earnings, as above stated, of		$1,292,946 50
There was received from dividend and interest		59,682 00
And from the Pennsylvania Railroad Company, one half of the losses under the leases of the lines north of Williamsport, during the year, amounting to		109,880 61
Total		$1,462,459 11

—which was applied as follows:

Interest on funded debt	$580,000 00	
Inter'st on income bonds	210,000 00	
Interest and discounts	101,850 17	
Gold premium	25,694 93	
State tax on capital st'k	13,601 47	
State tax on loans	1,974 24	
Rental Shamokin Valley & Pottsville Railroad,	52,167 00	
Rental Elmira and Williamsport Railroad	165,000 00	
Rental Elmira, Jefferson and Canandaigua R.R.	25,000 00	
		1,175,287 81
		$287,171 30
Out of which was paid dividend No. 30, of 3½ per cent July 31st		204,466 50
Balance net income for 1874		$82,704 80

The sources from revenue in the various lines of the company for 1874, with comparison for 1873, are shown in the following tables:

	Main Line.	Elmira Div.	Canand. Div.	Chem. Div.	Shamo. Div.	Inc.	Total.
Receipts from Freight	$2,161,692 13	$449,818 31	$265,821 16	$190,989 05	$291,897 33		$3,360,217 98
Passengers	553,506 78	148,425 91	70,646 02	67,173 49	29,866 44		864,618 64
Express matter	54,703 78	12,245 44	11,528 18	5,378 45	240 00		84,095 80
Mails	28,140 00	13,650 00	6,975 00	3,300 00	1,400 00		53,465 00
Miscellaneous	307,887 37	8,864 21	994 08	494 45	862 92		314,103 03
Total	$3,105,930 01	$633,003 87	$355,964 44	$267,335 44	$324,266 69		$4,676,500 45
Same period last year	2,230,722 87	698,202 53	449,577 58	302,375 50	350,487 11		5,031,365 59

General expenses	74,248 36	1,437 90	861 74	495 11	11,616 58		88,662 94
Decrease in Expenses in Conducting transp	$124,792 86	$75,198 66	$93,613 14	$35,040 06	$26,220 42		$354,865 14
Motive power	$647,123 29	$181,692 08	$115,468 28	$60 421 65	$70,295 54	$660 46	$1,074,980 84
Maintenance of cars	544,064 91	157,037 88	117,641 90	63 872 41	45,128 01		927,745 06
Total	$2,107,597 23	$527,700 54	$370,155 67	$191,708 77	$186,361 74	$660 46	$3,388,553 96
Same period last year	2,299,421 05	659,820 15	423,389 02	203,103 73	185,701 29		8,771,435 24
Decrease	$191,823 82	$132,119 61	$53,233 35	$11,394 96	Inc. $660 46		$382,881 28

The total number of passengers carried was as follows:

	1874.	1873.
Northern Central Railway	865,680	813,561
Green Spring Branch	7,441	.....
Shamokin Railroad	68,425	47,865
Elmira Railroad	124,733	115,890
Chemung Railroad	177,021	118,026
Canandaigua Railroad	103,701	84,980
Total	1,347,001	1,180,322

PASSENGERS ONE MILE.

	1874.	1873.
Northern Central Railway	19,444,830	20,122,124
Green Spring Branch	38,388	.....
Shamokin Railroad	845,734	614,825
Elmira Railroad	4,608,480	4,664,463
Chemung Railroad	2,469,656	1,934,816
Canandaigua Railroad	2,451,483	2,127,802
Total	29,858,571	29,464,035

The amount received for the carriage of—

Passengers in 1874	$864,618 64
Passengers in 1873	897,149 32
Decrease in 1874	$32,530 68

It will be noticed that the number of passengers carried was increased on each line of the company aggregating 166,679; and that the earnings for the same were decreased $32,530 68. This is accounted for by the decrease in the average distance traveled by each passenger, which was, in 1874, 22.2 miles, and in 1873, 25 miles.

The number of tons of freight moved was as follows:

	1874.	1873.
Northern Central Railway	2,284,695	2,169,217
Green Spring Branch	19,784	.....
Shamokin Railroad	706,071	760,805
Elmira Railroad	469,021	523,286
Chemung Railroad	978,628	1,153,207
Canandaigua Railroad	752,442	928,018
Total	5,210,591	5,534,033

TONS ONE MILE.

	1874.	1873.
Northern Central Railway	135,928,995	130,587,674
Green Spring Branch	124,533	.....
Shamokin Railroad	13,448,848	15,169,119
Elmira Railroad	30,963,426	34,484 273
Chemung Railroad	18,233,268	21,537,851
Canandaigua Railroad	18,251,462	24,260,650
Total	216,980,532	226,039,567

Showing a decrease in the tonnage mileage of 2.8 per cent.

The earnings per mile of road were as follows:

Northern Central Railway, 138 miles	$22,450 02
Baltimore Division, 91 miles	21,175 58
Susquehanna Division 47 miles	24 917 54
Shamokin Division 28 miles	11,580 95
Elmira Division 78 miles	7,987 23
Chemung Division 18 miles	14,851 96
Canandaigua Division, 47 miles	7,573 71

The tonnage of the Main Line of the Northern Central Railway was increased 135,212 tons, with a decrease in earnings of $42,575 18. On the Shamokin Road, decrease in tonnage, 54,234; decrease in earnings, $28,575 81. On Elmira Division, decrease in tonnage, 54,265; with decrease in earnings, $67,954 74. On Chemung Road, decreased tonnage, 174,579; decreased earnings, $49,129 58. On Canandaigua Road, decrease in tonnage, 175,576; with decreased earnings of $97,268 60.

The total number of tons and tonnage mileage, and the revenue derived from the same on all lines of the company, were:

	Tons.	Money.	Tons 1 mile.	Rate p. ton per m.
1874.	5,210,591	$3,360,217 98	216,980,532	1.549
1873.	5,534,033	3,645,751 92	226,039,567	1.613
Dec..	323,442	$285,533 94	9,059,035	0.064

The coal tonnage of the Northern Central Railway in 1873 was 795,449 tons, and in 1874, 762,023 tons. There was a decrease in the trade going on to the Pennsylvania Railroad, at Marysville and Dauphin, of 88,700 tons. There was an increase of 14,376 tons to points on the Cumberland Valley Road. The total tonnage to Baltimore was 193,179 tons, a reduction of 9,834 tons in 1874.

The coal tonnage of the Shamokin Branch in 1874 was 601,988 tons, in 1873, 655,354 tons, showing a decrease of 53,366 tons.

The coal tonnage of the Elmira and Williamsport Railway in 1874 was 278,418 tons, and in 1873, 323,807 tons, a decrease of 45,389 tons, the bulk of this decrease was from the McIntyre mines, near Ralston, which in 1873 shipped 128,947 tons against 92,803 tons in 1874, a reduction of 36,144 tons. In the northward bound anthracite trade there was a reduction of 9,282 tons.

The coal tonnage of the Chemung Road was reduced from 906,393 tons in 1873, to 744,176 in 1874, a total reduction of 162,217 tons. Of this reduction, the tonnage from the Blossburg coal region decreased from 600,475 tons in 1873 to 493,558 in 1874, a loss of 106,917 tons, and the anthracite coal trade from this company's lines and from the Lehigh Valley Road was reduced 55,300 tons.

On the Canandaigua Road the coal tonnage of 1873 was 717,781 tons, in 1874, 550,682 tons, a reduction of 167,099 tons. Of this loss 121,680 was in the through tonnage, and the balance in shipments from Coal Point.

It will be noticed that the reduction in the tonnage moved was almost entirely in coal, and was caused by the general prostration of the industrial pursuits of the country.

MOTIVE POWER.

The locomotive equipment of the company is as follows:

On Baltimore Division	65
On Susquehanna and Shamokin Division	38
On Elmira Division	49
	152

The following tables exhibit the passenger and freight car equipment owned by the company, and the number of cars in actual service:

PASSENGER EQUIPMENT.

	Total owned Jan. 1, 1875.	In shops rebuilding.	In service.
Passenger cars	69	4	65
Baggage cars	22	2	20
Express cars	16	..	16
Postal cars	4	..	4
Total	111	6	105

FREIGHT EQUIPMENT.

8 wheel box cars	995	51	944
8 wheel gondola cars	544	34	510
8 wheel stock cars	51	5	46
8 wheel box and stock cars	101	1	100
8 wheel stone cars	38	..	38
8 wheel coal cars	2,364	13	2,351
4 wheel coal cars	1,878	159	1,719
4 wheel lime cars	185	4	181
6 wheel M. of W.	8	1	7
8 wheel tool cars	11	..	11
Freight cabin cars	76	..	76
Main. of way cars	4	1	3
Total	6,255	269	5,986

A marked improvement was made in the condition of the locomotive and car equipment during the year, and with the exception of the four-wheel coal cars, the motive power and rolling stock is now in very good working order. The four wheeled coal cars of the old class having been found to be ill adapted to the traffic, and their maintenance proving very costly, it has been thought best not to incur any further expenses in perpetuating them. They have, therefore, as they became worn out, been taken out of service, with a view to replacing them with eight wheeled coal cars of the standard pattern.

MAINTENANCE OF WAY.

The following is a statement of the track material used during the year:

	Tons steel rails.	Tons iron rails.	Pairs splices.	Lbs. spikes.	Number cross-ties.
Baltimore Div.	507	3,045	9,639	49,498	58,413
Green Spring Branch	301	1,056	7 550		4,187
Susq. Div	350	1,610	6,514	32,227	36,050
Shamokin Div.	..	670	2,887	22,150	19,662
Elmira and Canandaigua Div.	..	3,291	8,291	95,756	92,976
Total	857	8,917	28,387	207,181	211,288

The good condition of the track on the main line from Baltimore to Sunbury has not only been fully maintained throughout the year, but a decided improvement has been made, that part of your line now being in excellent order. The track on the Shamokin, and Elmira and Canandaigua Division was not at the commencement of the year in as good condition as could have been desired, special attention was therefore given to its improvement, and it is now in much better order than for a number of years past. It has been deemed a necessity for the economical maintenance of the track in the future, that steel instead of iron rails should be used for renewals. During 1874 about one thousand tons of steel rails were laid on the Baltimore and Susquehanna Divisions, and in providing for the repairs for the current year, steel rails have been contracted for, for all renewals on the Main Line, and for two-thirds of the renewals on the Elmira and Canandaigua Divisions. These rails will be of American manufac-

ture, and were contracted for on the most favorable terms.

In July this company resumed possession of the Green Spring Branch, extending from Relay to a connection with the Western Maryland Railroad near Owing's Mill, a distance of 8¼ miles; this branch it is proposed to extend to Owing's Mill, requiring about one mile of new track. The right of way is controlled by the company. This line was built and owned by this company and transferred to the Western Maryland Railroad many years since, when that company commenced the construction of its line through the upper counties of Maryland. In the contract with that company the privilege of repossession was reserved to this company, should the Western Maryland Railroad reach the city of Baltimore by any other line than that of the Northern Central Road. In 1873 the Western Maryland Railroad completed an independent line to the city, when negotiations were opened under the original contract which resulted in the repossession of the property in July last. Since that date a portion of the line has been reconstructed, and the remainder, with the extension to Owing's Mill, will be put in good condition during the year 1875.

Mr. J. D. Cameron, who for many years past has been the President of the Northern Central Railway Company, resigned his position December 7, 1874, and also the Directors associated with him, with a view of enabling the stockholders of the company to make such reorganization as they might deem proper—all of which is fully set forth in the communication addressed by Mr. Cameron and the retiring Board to the stockholders, stating the reasons for their action, and the results attained from their administration of the company's service. That communication will be printed in connection with this annual report, and furnished for the information of the stockholders. The present management take pleasure in stating that the property and assets of the company were found in good condition, and as set forth in their report for the year.

A new plan of organization and by-laws for conducting the business of the company was adopted by your Board, to take effect January 1, 1875, by means of which it is hoped that favorable results, both as to efficiency and economy in the working of your line, will be obtained.

The want of a suitable building with fire proof vaults for the general offices of the company has long been felt, and your Board do not consider it wise to postpone its erection. They have selected a site on the property owned by the company at Calvert Station, and are now having plans and estimates prepared.

The injurious effects on your traffic caused by the want of proper terminal facilities, both for the general city trade and for that seeking a tide-water outlet at the city of Baltimore, have long been experienced. In the year 1873 the Union Railroad Company of Baltimore, under the auspices of the Canton Company of Baltimore, completed a line of road extending from the Northern Central Railway to tide-water at Canton, and your directors have secured by contract the right of trackage over the line to tide-water for 99 years, and have leased two tracts of land, one located on what is known as the Susquehanna Wharf, with a front of 700 feet, and other on the Patapsco, below the Lazaretto, comprising in all some 70 acres.

Recognizing the importance of providing adequate facilities for the traffic of your line, your Board have given careful consideration to the subject, and have decided that the following improvements should at once be commenced, and pushed to completion as rapidly as possible, in order to make them available during the latter part of the current year, viz.: A grain elevator at Canton, with a storage capacity of 500,000 bushels and a total transfer capacity of seven to ten millions of bushels per annum; a warehouse for rolling freight at Canton, 500 feet by 60, and a coal wharf and trestle at Canton, 600 feet long and 60 feet wide, over which 500,000 tons per annum can be transferred.

The estimate cost of these improvements, and of the completion of the car shops at Mt. Vernon, together with certain needed extension of the sidings at that point, is as follows:

Elevator at Canton, with sidings connected therewith	$275,000 00
Coal Wharf at Canton, with sidings connected therewith	125,000 00
Warehouse for rolling freight at Canton	75,000 00
Real estate and improvements for city traffic	125,000 00
New building for general office	50,000 00
Completion of car shops at Mt Vernon and extension of sidings	40,000 00
	$690,000 00

In pursuance of the authority given at the general meeting of stockholders, held April 9, 1874, a consolidated mortgage of $10,000 000, bearing six per cent interest per annum, was duly created and executed May 26, 1874. Under the provisions of this mortgage it is provided that $6,000,000 shall be reserved and held to take up the outstanding obligations under the prior mortgages of the company, leaving $4,000,000 applicable for its present and future wants. Of this amount $2,000,000 have been sold through the house of Drexel & Co., of Philadelphia, realizing 86 per cent net, clear of all commissions, and the proceeds received were applied to the payments of the then existing debts of the company.

In order to meet the construction expenditures necessary during the current year for terminal facilities and to place the company in funds to retire its floating debt, it is proposed to ask the stockholders to give authority to sell one million dollars of the reserved consolidated general mortgage bonds, and also to give the board a further authority to sell the real estate not required for railway purposes, and so many of the assets of the company as, in the judgment of the board, can be sold without detriment to the interests of the shareholders. Resolutions for this purpose are appended to this report and are respectfully submitted to the shareholders for their approval. The adoption of this course will enable the company to pay off during the year its floating debt, and will place it in condition to meet promptly all its liabilities, and to purchase its supplies and materials on a cash basis. These results attained, the board have great confidence in the future value of your property.

It will be observed from the statistics and exhibit made from the books of the company that a dividend of three and a half per cent was made in July last, and a balance left of net income of $82,704 80, which is equivalent to about one and a half per cent additional, showing that the line, notwithstanding the depressed condition of its traffic has earned about five per cent upon its capital stock. With the completion of the terminal facilities so much needed at Baltimore and a moderate revival of the business of the country, it is believed that the net results can be materially improved upon.

Every effort will be made on the part of the management to place the company in such condition that it will be able to pay a regular dividend upon its stock at the earliest day possible.

Within the past few weeks severe competition for through traffic has been inaugurated by the Baltimore and Ohio Railroad Company, perhaps with the view of deterring this company from proceeding with its proposed terminal facilities at the city of Baltimore. It will not have that effect. The policy of destroying the best interests of the shareholders of the roads, without ultimate advantage to the public who patronize them, must produce such results as will in due time secure the adoption of a wiser and more conservative course, and thus correct the evil referred to.

The substance of the Treasurer's balance sheets is given in this report; but the full detailed statements and the report of the Auditor, will be published with this report for the information of the shareholders.

The traffic of the several lines has been moved during the past year with regularity and despatch, with a gratifying freedom from accidents. Great credit is due to the officers, agents, and employees of the company, connected with the various portions of the line, for the economy practised, and the efficient manner in which the property of the company has been managed in the several departments.

All of which is respectfully submitted.

By order of the Board.

THOMAS A. SCOTT, President.

The following resolutions appended to the report, were adopted:

Resolved, That in order to carry out the suggestions of the foregoing report in respect to the increase of terminal facilities, and for other uses and purposes of the company, the President and Board of Directors be requested to call a meeting of the stockholders, in accordance with law, to authorize the said President and Board of Directors to issue one million dollars, of the two million dollars yet remaining unissued, of the Ten Million Consolidated General Mortgage Loan of the company.

Resolved, That the President and Board of Directors be, and they are hereby authorized from time to time, when in their judgment it may seem for the best interests of the company, to grant, bargain, sell, and convey, or exchange in fee simple, or for any less estate, any and all such real estate belonging to this company, and wherever situate, and not needful for its uses and purposes, at public or private sale, either wholly for cash or partly upon bond and mortgage, and without any liability upon the part of any purchaser or purchasers to see to the application of the purchase money, the proceeds of such sale or sales to be applied as provided in said Consolidated General Mortgage.

Resolved, That the President and Board of Directors be also authorized to sell and transfer such portions of the capital stock and bonds of other companies now in the possession of the company, as in their judgment may be sold without detriment to the future interests of the company.

Resolved, That the proceeds from the sale of the consolidated general mortgage bonds, and of the real estate, and of the other assets of the company hereinbefore authorized, be applied first to the payment of expenditures for terminal facilities, and second to the payment of the existing floating debt of the company.

OFFICERS OF THE COMPANY FOR 1875-6.

President.—THOMAS A. SCOTT.

Vice President.—A. J. CASSATT.

Directors.—A. J. Cassatt, Wayne MacVeagh, J. C. Bullitt, J. N. Hutchinson, S. M. Felton, Wistar Morris, H. P. Borie, M. B. Sellers, M. B. Greensfelder, R. Oppenheimer, George Small, S. M. Shoemaker.

Secretary.—ROBERT S. HOLLINS.

Assistant Secretary.—STEPHEN W. WHITE.

Treasurer.—JOHN S. LIEB.

Auditor.—JOHN CROWE.

Gen'l Counsel.—WAYNE MACVEAGH.

Gen'l Manager.—FRANK THOMSON.

☞ The Grass Valley Union says that work on the Nevada County Narrow Gauge Railway is progressing most favorably. The contractors, Knox & Turton, are putting on all the men that room can be found for, and every man is expected to do full work. The grading is of course progressing rapidly. The surveying party, under the direction of Engineer Kidder, are near Barker's ranch and getting along well.

☞ General Ewing, of Lancaster, Ohio, has been elected President of the Atlantic and Lake Erie Railway Company.

American Railroad Journal.

Saturday, March 27, 1875.

Financial and Commercial Affairs.

Wall street affairs have been of less exciting interest, since our last—the Gold speculation having been less active and less buoyant; the Stock Exchange dealings on a restricted scale, and variable as to values; and the Money market comparatively tame and easy as to rates, with a stronger bank exhibit. In the commercial line, some increase of trade in produce and merchandise has been noted, with a somewhat firmer range as to prices. In the way of foreign exchange, the movements have been moderate, on a steadier basis as to quotations. The inquiry for Money has been less urgent on speculative account The more prominent borrowers have had their wants amply provided for on the basis of 2¼@4, generally at 3@3½ per cent on call. The better grades of commercial paper have been in good request, within the range of 5½@7 per cent per annum. Grocery paper has been in less favor, owing to the recent suspensions in the trade. The city banks have strengthened their position materially, as to reserves, during the week. On the last weekly statement, the legal tender average was $788,900, and the specie item, $192,000 higher than on the preceding weekly exhibit. The loan and discount average was reduced nearly six millions, and the item of deposits, also cut down more than five millions. A slight increase of circulation was reported. The currency reserve of the Sub Treasury was diminished $1,338,443; and the specie balance, augmented $1,867,462. The City banks last week enlarged their reserve of legal tender notes $788,900, and reduced their deposit item $5,081,000 while increasing their specie average $192,900. They report a decrease of $5,987,900 in the loans and discounts, and an addition of $2,900 to their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $46,207,913, against $47,-541,353, the preceding week; and a coin board of $51,565,585, against $49,698,102, on the previous return. The City bank exchanges in currency during the week, were $125,078,450, or a daily average of $70,846,408. The customs revenue of the port, during the week, was $1,710,000. The City banks reported their average of gold last week at $7,268,800, and their greenback average at $52,131,800. Their deposits stood at $218,-419,300. The loan item was $283,358,100. The circulation was $22,231,900.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $4,795,-775.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,-676. The outstanding amount of legal tender notes is $380,714,900. The National bank circulation is now $349,462,861.

The U. S. Treasury balances on Tuesday were as follows: Currency, $6,500,000; special deposit of legal tenders for redemption of certificates of deposit, $48,150,000; coin, (including $23,330,000 in coin certificates,) $80,100,000.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,960,911.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 82½ millions.

The specie shipments from San Francisco, Jan. 1, to March 11th, were $9,092,306, against $3,417,-820 same time last year. The shipments from San Francisco (overland) to New York, during the week ending March 11, were $1,275,943, of which $1,225,801 were in Gold coin. This large shipment of coin for New York is represented as being altogether irregular, and indicative of the exigencies of Gold dealers who have connections at San Francisco. The San Francisco banks were compelled to transfer $1,000,000 coin back from New York for the use of their customers, and stop selling telegraphic transfers.

Gold has been less active in the open market. The supply has been in excess of the urgent requirements of the market, and less generally controlled by the Street operators for a rise. The demand for custom house purposes was moderate, and the export drain light. Both the Sub Treasury, and the City banks added handsomely to their specie hoard. The market closed tamely. The extremes of the week have been 115½@116⅝, closing on Wednesday at 115½ as against 116½ on Wednesday of the preceding week. The specie outflow last week was $826,991. The imports of specie at this port since Jan. 1, have been $3,149,818 against $1,107,341 same time last year. The customs demand for Gold last week averaged $285,000 a day. Foreign Exchange has been in moderate demand, closing more firmly. Bankers' sixty day bills on London closed on Wednesday at $4 79@$4 80½; sight bills on London at 4 83½@$4 84½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,104,679.

Government Securities have been fairly active. The investment demand has been good for most issues, other than the called bonds. Prices varied slightly—closing firmly. In State and Railway bonds, business has been on a moderate scale, with values quoted generally steadier. Dealings at the Stock Board in Railway and Miscellaneous share property have been comparatively liberal, the market closing generally stronger.

U. S sixes of 1881 closed on Wednesday of this week at 120⅞@121⅛; U. S. Five-Twenties of 1862, at 117¼@117½; U. S. Five-Twenties of 1864 at 118@118¼; U. S. Five-Twenties of 1865 119⅞@120; U. S. Five-Twenties of 1865 consolidated, 119⅛@119¼; U. S. Five-Twenties of 1867, 119⅞@120⅛; U. S. Five-Twenties of 1868, 119⅞@120⅛; U. S. Ten-forties at 115@115¼; U. S. Fives of 1881, (Funding Loan) 115⅜@115½; Six per cent. currency Sixes from 119@119¼.

Trade in Produce and Merchandise is gradually increasing in volume, though the weather is yet a serious difficulty, in the way of revival. Breadstuffs, Cotton and Provisions are higher as a rule, on more liberal transactions. Groceries are in moderate demand, with Coffee and Teas quoted lower; Sugars, firmer; and Molasses, strong in price. Hides, Leather, Tobacco, Hemp, and wool have been rather sparingly purchased at variable figures. Petroleum, Seeds, Hay, Straw, Naval Stores, Tallow, Stearine, and Boots and Shoes have been in fair request at generally steadier rates. The Dry Goods, and Hardware interests have shown less animation. The Metal trade has been generally tame. The most important business in Iron has been the further sale of 10,000 tons American Rails on p. t. Most kinds of Iron have been held quite confidently; Scotch Pig notably so, in view of the rise in freights from Glasgow. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $37@$38; No. 1 American Pig at $28; No. 2 do. at $25 50@$26 50; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $30@$35. Wrought Scrap, $35@$36. Ocean freights closed with rather more firmness, on a somewhat better inquiry for accommodation.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

OFFICE CENTRAL PACIFIC RAILROAD COMPANY,
Nos. 9 NASSAU AND 11 PINE ST.,
NEW-YORK, March 20, 1875.

THE BOARD OF DIRECTORS OF THE Central Pacific Railroad Company have declared a dividend of SIX PER CENT., GOLD, payable at the above office on and after April 1, 1875, on presentation and surrender of Dividend Warrants No. 3.

C. P. HUNTINGTON, Vice President.

PHILADELPHIA AND READING RAILROAD CO.,
OFFICE No. 227 SOUTH 4TH ST.,
PHILADELPHIA, March 17, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THE COMPANY will be closed on the 31st instant, and reopened on Monday, April 12, next. A quarterly dividend of TWO AND A HALF PER CENT. has been declared on the preferred and common stock, clear of all taxes, payable in cash, on and after the 26th of April next, to the holders thereof as they shall stand registered on the books of the company at the close of business on the 31st inst.

All dividends payable at this office, where blank orders for dividends can be obtained.

Stockholders A to L will collect at desk No. 1, and those from M to Z at desk No. 2.

S. BRADFORD, Treasurer.

THE COUPONS OF THE FIRST MORTGAGE BONDS of the CENTRAL PACIFIC RAILROAD COMPANY (SAN JOAQUIN VALLEY BRANCH), due April 1, 1875, will be paid at the office of FISK & HATCH, No. 5 Nassau street. The coupons of the CENTRAL PACIFIC RAILROAD COMPANY LAND BONDS, due April 1, 1875, will be paid at the office of the Company, No. 9 Nassau and 11 Pine streets, New York. C. P. HUNTINGTON, Vice-President.

TREASURY OF THE ERIE RAILWAY CO.,
NEW YORK, March 15, 1875.

NOTICE.

THE APRIL COUPONS OF THE 4TH MORTgage Bonds New York and Erie Railroad, and 7 per cent Convertible Gold Bonds Erie Railway Co., will be paid on and after the 1st prox., at the office of the undersigned, corner of West and Duane Streets, City.

W. P. SHEARMAN, Treasurer.

☞ The Southern Pacific Railroad will be completed to Whitewater, twenty miles east of San Gorgonio Pass, about 100 miles from Los Angeles, this season.

Dividends and Interest.

The Philadelphia and Reading Railroad Company has declared its usual quarterly dividend of two and a half per cent, on the preferred and common stock, clear of all taxes, payable in cash on and after the 26th of April next, to the holders thereof as they shall stand registered on the books of the company at the close of business on the 31st inst.

The regular quarterly dividend of the United New Jersey Railroad and Canal Co. (two and one half per cent) will be paid at the office of the Pennsylvania Railroad Company on and after the 10th of April.

The Board of Directors of the Central Pacific Railroad Company have declared a dividend of six per cent, gold, payable at the office of the company No. 9 Nassau St., N. Y., on and after the 1st of April.

The Chicago, Rock Island and Pacific Railroad Company have declared a dividend of four per cent, payable on the 27th of April.

The Dubuque and Sioux City Railroad Company a dividend of two and a half per cent, payable at the office of M. K. Jesup, Paton & Co., 52 William St., on the 15th of April.

The Panama Railroad Company will pay its usual quarterly dividend of 3 per cent on April 15.

The semi annual interest on the Land Bonds of the Central Pacific Railroad Company due April 1, 1875, will be paid in gold at the office of the company No. 9 Nassau st., New York.

The semi-annual interest due April 1, 1875, on the First Mortgage Bonds of the Central Pacific Railroad Company (San Joaquin Valley Branch) will be paid in coin at the office of Fisk & Hatch, No. 5 Nassau st.

☞ The contract for the superstructure of the proposed railroad bridge across the Delaware river, near Yardleyville, Penna., on the line of the new road between Philadelphia and New York, now in course of construction by the North Pennsylvania and the Delaware and Bound Brook Railroad Companies, has been awarded to Messrs. J. H. Cofrode & Co., of Philadelphia, for $253,000. The bridge is to be of wrought iron, and is to be for double track, and will consist of fifteen spans, varying in length from 60 to 200 feet.

☞ At the annual election for directors of the Pennsylvania Railroad Company, held in Philadelphia on the 23d inst., the following gentlemen were chosen: Thomas A. Scott, Josiah Bacon, Wistar Morris, John M. Kennedy, Alex. J. Derbyshire, Samuel M. Felton, Alexander Biddle, N. Parker Shortridge, Henry M. Phillips, John Scott, Pittsburg.

☞ The Santa Cruz Narrow Gauge Railroad will run from the Santa Cruz line to Pigeon Point; from Pigeon Point to Pescadero; thence to San Gregorio, thence to Spanishtown, and thence by the shortest practicable route to San Francisco. It will tap a section of country rich in agriculture, dairy produce and lumber.

☞ The Boston, Clinton and Fitchburg Railroad has recently closed a contract for several hundred tons of steel rails, to be delivered about May 1. This company intends to lay steel rails on its main line in future.

☞ The plans now under consideration for the proposed new railroad to Woburn, Mass., are to use the tracks of the Boston and Maine road and the Medford Branch to Medford Centre, which will be the starting point of the new track. From that point it crosses Main street west of the Town House, passes under High street, and strikes the old Stoneham Branch, where the road is graded for nearly three miles, passing through the central portion of the town of Winchester and east of the North Woburn Meeting House, and finally entering again upon the Boston and Maine road. The length to be constructed would be seven and at half miles, and its estimated cost will not exceed $400,000.

☞ Articles of incorporation of the San Benito Railroad Company were filed in the office of the Secretary of State of California on the 12th inst. This company was organized for the purpose of constructing and maintaining a railroad within the counties of San Benito and Monterey, running from Hollister to Millard's Landing, Monterey county, and also to connect with the Santa Cruz Railroad and with the Monterey and Salinas Valley Railroad. The estimated length of the proposed road is about 33 miles. Capital, $500,000, in shares of $100 each; Directors—Thomas Flint, H. W. Cothran, Uriah Wood, Thomas McMahon, Thomas S. Hawkins, A. P. Boyd, J. D. Fowler; the principal place of business will be in Hollister.

☞ The Richford (Vt.) Sentinel says the Connecticut and Passumpsic Rivers Railroad Company have leased the South Eastern Railroad for one year. They intend to make a thorough line of it. The Boston, Concord and Montreal Railroad Company, by a contract with the Passumpsic, are partners in the lease though not named in it, on account of a New Hampshire law preventing a railroad in that State leasing a road outside of the State. There is a talk that the Northern will also join in the contract, but arrangements are not yet completed.

☞ In consequence of the recent decision of the Supreme Court of North Carolina, giving validity to the lease of the North Carolina Railroad to the Richmond and Danville Railroad Company, the latter company have been actively at work, night and day, changing the gauge of their road between Greensboro' and Charlotte, N. C. When completed, trains will be run through by air line from Atlanta to Richmond without change.

☞ A letter to the Baltimore Sun dated West River, Md., March 19th, says: "The Annapolis and Elkridge Railroad is about to complete a portion of the Drum Point Railroad far as Mount Zion, the centre of the West river country. About $195,000 is the sum requisite to build the road fifteen miles, as far as the above-named place. The rolling stock of Annapolis and Elkridge Railroad is sufficient without purchasing additional stock to run the cars as far as this point."

☞ The surveys of the Santa Cruz and San Mateo Railroad will be completed in about a week. Six hundred and seventy-two thousand dollars of the stock has already been subscribed. This is a Granger's road, four of the Directors being prominent members of the Patrons of Husbandry of that State.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE.

INTEREST ALLOWED ON DEPOSITS.

FOR SALE.

PROPOSALS ARE INVITED FOR THE PURchase of a Stationary Steam Engine and Boiler, built about 1868 by the C. & A. R. R. Co. Cylinder 26 in. diam. × 27 in. Stroke; Fly Wheel 16 ft. in diam. The engine may be examined at the C. & A. R. R. Shop, near Bordentown, N. J. Address the Purchasing Agent of the Pennsylvania R. R. Co., N. W. Corner 15th and Market Streets, Philadelphia.

☞ A meeting of the stockholders of the Northern Central Railway Company will be held in Baltimore on the 31st inst. for the purpose of authorizing the directors to issue one thousand bonds of one thousand dollars each, secured by the ten million dollars consolidated general mortgage of said company, the proceeds whereof are to be used for the increase of the Terminal Facilities and for the other uses and purposes of the Company.

☞ In the case of Blake, collector, vs. National City Bank of New York, in which the defendant claimed that internal revenue taxes were illegally collected upon dividends declared as payable during the last five months of 1870, the U. S. Supreme Court decided in favor of plaintiff, and the decision below was reversed. This case disposes of two similar cases tried with it.

☞ The Steamship Nova Scotian, which arrived at Baltimore from Liverpool on the 10th inst., had among her cargo 1,428 rails for the Baltimore and Ohio Railroad Company. The company have received 8,412 rails from Liverpool by other steamers of the Baltimore and Liverpool line since the 1st of January.

☞ Congress during its last session passed an act granting the right of way and depot grounds to the Oregon Central Pacific Railroad Company through the public lands of the United States, from Winnemucca, in the State of Nevada, to the Columbia river, via Portland, in the State of Oregon.

West Wisconsin Railway.

The West Wisconsin Railway defaulted their November, 1873, and May and November 1874, interest; being compelled thereto, it is alleged, by the operation of the Potter law, which enormously decreased their receipts. At a meeting of the bondholders held in this city on the 17th inst. a circular was handed around advising that the coupons be funded, and embodying the following statistics as the result of a recent investigation of the company's books:

Since its organization the company has issued $4,000,000 gold first mortgage land grant bonds, of which $3,815,500 are outstanding; $640,000 Southern Extension bonds, of which $370,000 are held as collateral security by floating debt creditors, and $2,500,000 seven per cent. gold consolidated bonds, of which $1,471,000 are held as collateral to the floating debt. The other debts of the company on Jan. 1, 1875, were:

Bills payable		$1,080,921 23
There are collaterals belonging to the company, held for these, as follows:		
Southern extension bonds	$370,000	
Consolidated bonds	1,471,000	
And 200 cars.		
Custom house bond, (with costs of suit,) estimated at		$75,000 00
Amount received from land contracts		133,000 00
Coupons due previous to June, 1874		4,746 94
Taxes on earnings in Wisconsin		29,337 73
Taxes on earnings in Minnesota		462 41
Jacob Humbird and others, secured by a conditional sale of 100 cars, 8 locomotives, and other property		271,627 35
Book accounts, operating balances, and balance due employes and for supplies		231,045 84
Total		$1,826,141 50
Less amount due company from North Wisconsin Railway Company, secured by North Wisconsin Railway bonds		158,615 09
Leaving		$1,667,526 41
To the above must be added the last six months interest due on bonded debt, estimated in currency to be		175,000 00
Balance		$1,842,526 41

The gross earnings, operating expenses, and net earnings each year since the road has been in operation are as follows:

	Gross earnings.	Operating expenses.	Earnings applicable to interest and debt.
1871	$159,664 64	$74,699 11	$84,965 53
1872	403,202 10	259,059 86	144,142 24
1873	869,188 99	591,974 90	277,214 09
1874	884,920 10	697,107 54	187,812 56
Total	$2,316,975 83	$1,622,841 41	$694,134 42

The earnings for the months of January and February of this year were $51,220 84 less than for the same months in 1874, but the diminution is largely attributable to the weather and low price of cerals raised in sections tributary to this road.

At the time the company entered upon the construction of the Southern Extension the Directors changed the line so as to run direct from Warren's (or Snow's) Mills to an intersection with the Milwaukee and St. Paul Railway, at Camp Douglas, abandoned the portion of the road from Warren's Mills to Tomah, (a distance of about ten miles,) removed the track therefrom, and laid the same upon the changed line. At the ensuing session of the Legislature an act was passed requiring the company to relay, operate, and maintain as before the track from Warren's Mills to Tomah, and providing that, if it were not done on or before June 1, 1873, the charter, land grant, franchise &c., should become forfeited and void. The act also directed the Attorney General, if the track was not relaid within the time, to bring an action in the Supreme Court against the company in the nature of a *quo warranto*, to enforce the forfeiture and annul the corporate existence. The action was brought, and the Supreme Court has recently decided that the change in the line and the removal of the track were without warrant of law, a violation of the charter, and a ground for total forfeiture of the franchise. The judgment of forfeiture has not been entered, but must be whenever the Attorney General shall so demand. From such judgment there is no appeal, but the managers of the road believe that the judgment will not be insisted upon by the State, at least for a considerable period, and it is hoped that within a year the company will be able to secure legislation legalizing the change in its line and directing the dismissal of the action.

The report deprecates a foreclosure for the reason that under the peculiar condition of the company's debts the interests of the holders of the three mortgages are separate in law and would require three foreclosures and three receivers. Another reason is that a large number of settlers hold lands purchased under time contracts of 40, 80, and 160 acres each, which have not been released from the lien of the land grant mortgage. The sale of these bonds would cause irreparable mischief. Another is that, under a receiver, the company would lose all the business of the Chicago and Northwestern Railway Company. Another is that the purchasers of the road under foreclosure would lose the benefit of the act exempting the company's lands from taxation until 1884, and this would incur an annual outlay of from $70,000 to $100,000. The plan of funding coupons is recommended as a practical way out of the present difficulties. It is estimated that the funding of nine coupons is necessary to this end; that about $110,000 per annum of the earnings would be required to pay the interest upon the funding bonds, which should mature at the date of maturity of the bonds the coupons of which they fund. With a continuation of its present connections and rigid economy in its operation it is believed the road will earn within the next four years $4,500,000, and that it can be operated for about 62 per cent. of its gross earnings, leaving during the period named $1,710,000 net earning. Of this $440,000 would be applied to the payment of interest upon the funding bonds, leaving $1,270,000, which, with the available securities now held as collateral to the floating debt, will be applicable to the extinguishment of that debt, thus enabling the road thereafter to meet out its earnings the interest upon so much of its bonded debt as shall not meanwhile have been retired by funds derived from the sale of lands.

☞ The Rensselaer Iron Works, are getting out an order for 7,000 tons of steel rails for the Grand Trunk Railway.

The Iron Business.

The advices from the New England, Middle and Western States as to the iron trade are more cheering, and the same, it is stated, is true in Pennsylvania. The demand for steel rails has increased of late, and some mills have large orders on hand. The Chicago and Northwestern road recently made contracts to transport considerable amounts of iron ore from Lake Superior previous to the opening of navigation, which certainly looks like recuperation of the iron business, and in no commodity or interest could the revival start with a better base, or rest on one more likely to encourage other interests. With the demand for iron there naturally follows a demand for the fruits of other industries. It is to be regretted, however, that there should be a hindrance to recurring industry put in the way by laborers themselves. Much satisfaction was felt at the recent announcement from Pittsburg of the prospect of an arbitration of the difficulties between the iron puddlers and masters. It is learned with regret now that the negotiations have failed, the puddlers having taken the responsibility of rejecting the conditions. It is to be regretted that our American workingmen have not been able to find relief in the system of arbitration, as have the English and Irish mill operatives, who set the example last summer of submitting to arbitration, as was also the case at Belfast when the social science convention was in session there.

☞ The Attorney General of the United States has transmitted to the President a copy of his opinion relative to the 3.65 District of Columbia bonds. The Attorney General holds that the United States government is undoubtedly liable for the payment of the annual interest on the bonds, both by the act abolishing the old District government and by the act passed at the last session of Congress, which explicitly committed the United States to the payment of the interest on the bonds. This decision was called out by a question submitted by the commissioners of the sinking fund.

☞ Attorney General Dimmick having been interrogated as to the provision in the charter of the Pennsylvania Railroad Company, directing that dividends "shall be declared in the months of May and November," answers "that the words in the act are only directory, and that the company may make quarterly dividends without violation of its charter." It is probable that after the next May semi-annual dividend the managers of the company will conform to this opinion and thereafter make quarterly dividends, as most of the other large companies do.

☞ Both branches of the North Carolina Legislature have passed a bill intended to prevent the change of gauge of railroads in that State, but it came too late to interfere with the change of gauge of the Richmond and Atlanta Air Line, between Greensboro' and Charlotte, which is already an accomplished fact. The Wilmington Star says the change of gauge between these points "cuts the railroad system of the State completely in two."

☞ The annual meeting of the Allegheny Valley Railroad company will be held in Pittsburg, Pa., on the 18th of April, to hear the report of the Board, elect a Board of Managers for the ensuing year, and act upon such other business as may be brought before them.

☞ Messrs. Lemon & Wing are the contractors for the construction of the narrow-gauge railroad which is to be built between Vaca and Wintersville, Cal.

THE WHARTON

Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line,* stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America,* between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B; water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the **Steam Water Station Company,**

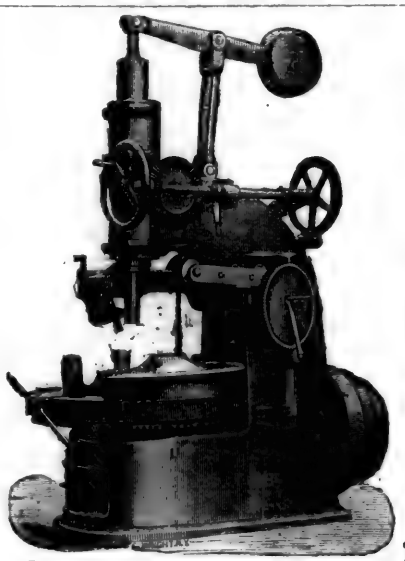
Decision on the Quadruplex Telegraph Case.

The quadruplex telegraph question excites much interest, especially among telegraphers. By the duplex system two messages are transmitted over one wire at the same time in opposite directions, and by the improvement of Edison, known as the quadruplex, four messages are sent over the same wire, its capacity being doubled. The history of the case before the Commissioner of Patents is briefly as follows:



In 1871 Thomas A. Edison, assigned to George Harrington an interest in certain inventions then made, or to be made, in the automatic or fast system of telegraphy. Subsequently, Edison invented certain improvements in duplex telegraphs, and in 1873 he conveyed to George B. Prescott an interest in the latter inventions, and this conveyance or assignment is of record in the Patent Office. By its term the patents for the inventions in duplex telegraphs would issue to Edison and Prescott in 1874, and before the patents to these inventions had issued, Edison filed an application, setting forth that his assignment to Prescott was made under a misapprehension of the force and effect of his previous assignment to Harrington, and praying that the patents might issue to Edison and Harrington. Prescott, on learning these facts, obtained an injunction from the Chancellor of the State of New Jersey, enjoining the Commissioner against such issue, and the case came up before the Commissioner of Patents a month ago, upon the application of Prescott for the issue of the patents to himself and Edison, in accordance with the assignment of 1873. Prescott appeared before the Commissioner by Roscoe Conkling, J. Hubley Ashton and G. P. Lowrey, Edison being represented by John H. B. Latrobe and M. D. Leggett, Ex Commissioner of Patents. The Comsioner of Patents holds that Edison's agreement with Harrington was made before the inventions in question were in existence and his assignment to Prescott after the inventions were completed, hence the legal title is in Edison and Prescott to whom the patents must issue. The Commissioner further holds that he is not called upon to decide the question of the equities in the case, but that the legal title to the patents must be decided so far as the Patent Office is concerned by the facts which are of record in that office.

☞ The first through train over the completed uniform railroad gange left Richmond on the 18th inst. The time for through freight trains by this route is stated to be eighty four hours from Baltimore to Atlanta, Georgia.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, light, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

New York State Canals.

After the exposure of frauds in the repair and management of the canals, it may be accepted as settled that we are to have a change in the manner of repairing and operating them. This is obviously a necessity; and if the contractors who have been robbing the State, could be made to disgorge their plunder, or failing that, could be sent to keep company with Tweed, good citizens would rejoice.

There rises, however, in the foreground, the question "what shall be done with the canal system?" Shall the branch and lateral canals be abandoned by the State; leased or sold to the highest bidders, and let the main line between Lake Erie and the Hudson remain as heretofore? This brings into view the two-fold character of the canal system of the State; as a connecting link between the navigation of the coast and that of the Upper Lakes. Why should the taxes of the State be expended to enable the farmers of Illinois and Wisconsin to ship their breadstuffs cheaper to New York and Liverpool? And on the other hand, why should not the taxes raised from the State be employed in furnishing cheap transportation for the products of our own farmers to market? It may be answered that the passage of the Western produce through the State, contributes in its passage a little toll to the canal, and something to the handlers in New York City; and beside, if it were diverted down the Saint Lawrence the tolls would accrue to a foreign country. There can be no doubt it is for the advantage of the great body of consumers on the east coast that the transit of necessary commodities to the seaboard should be made as easy and cheap as practicable; but in so doing if it is done wholly or in part, out of the proceeds of taxation, it is at the expense of the producers of our own State. What returns does the Genesee farmer, for instance, get for being taxed to admit the wheat and flour grown on the cheap lands of the far west, on equal terms to the New York market? Hence the unwillingness of the western members to vote for severing their relations with the State and throwing their constitutents upon the tender mercies of lessees, while the western farmers' products are carried past them at the bare cost of haulage.

Another question lies back of this again: Shall the main canal be enlarged to the capacity of lake craft, or left as it is? Gov. Tilden is for "an honest seven feet" of water from end to end, which involves a considerable expenditure of money, but is still merely a channel for the ordinary canal boat with a maximum load of 200 tons. This is the present status of New York canals. They are not links connecting two systems of navigation, but merely waterways on which small floating craft can be moved from the vessels of inland waters to those of marine waters. For wheat and corn, where steam elevators can be made to do the loading and unloading, and for lumber they are useful; but for many articles they can never be made to compete successfully with railroads, for the reason that freight once on wheels can be carried to its proper distributing point, and unloaded at but little cost. If the canals of the State were compelled to meet their whole cost and repairs out of the tolls as railroads are, the bulk of them would have to be abandoned. The question arises: why should they not? It is assented that by the enlargement of the dock gates, and the deepening of certain portions the canal will this Spring be brought up, for the first time, to its maximum capacity; and that by the introduction of steam propellers into the boats themselves on the Baxter plan, a greater volume of traffic can be moved over it. The operations for through traffic will therefore be watched this season with uncommon interest. After the results are known legislators will be in better positions to judge of the wisdom of expending fresh sums, on works which the tendency of the past twenty years has been more and more to succumb to railroad competition.

Boston and Mystic Valley Railroad.

An adjourned meeting of the sub-committee of the various town committees interested in the proposed new railroad from Boston to Wilmington by way of Somerville, West Medford, Winchester and Woburn, was held in Boston on the 27th ult. Preliminary steps were taken for the incorporation of the company under the new railroad law with the name of the Boston and Mystic Valley Railroad, and the articles of association adopted decided upon the westerly route through Winchester and Woburn, a distance of a little over fourteen miles. Mr. Henry Blanchard presided at the meeting, and from the remarks made it appears that capitalists are ready to subscribe for the stock. It was decided to proceed at once with the soliciting of subscriptions and the following named gentlemen were selected for incorporators and directors: Stephen Dow, E. W. Hudson, Griffin Place, Woburn; Granville Parks, North Woburn; T. W. Twombly, J. T. Manny, D. N. Skillings, Winchester; Henry Blanchard, A. Thomas Bond, Wilmington; C. N. Barrett, B. S.

Wright, West Medford; Samuel A. Carlton, Samuel D. Sawin, Charles W. Sawyer, George Jaques, Somerville.

Chicago and Alton Railroad.

The earnings of this road for the years ending December 31, 1873 and 1874, were as follows:

	1873.	1874.
From passengers	$1,379,425 71	$1,420,350 42
" freight	3,897,461 76	3,446,880 91
" express	98,851 35	101 069 03
" U. S. mail	77,871 36	109,697 03
" miscellaneous	43,930 59	48,240 64
	$5,497,540 77	$5,126,228 03
Expenses, viz:		
Conducting transp	$999,719 27	$802,693 73
Motive power	907,508 95	799,720 86
Maintenance of way	869,390 29	781,140 35
" cars	345,663 97	243,386 96
Taxes	121,595 63	112,000 00
General expenses	132,376 76	162,409 66
	$3,376,254 87	$2,901,351 06
Net earnings	$2,121,285 90	$2,224,876 97
Add balance to credit of income account, December 31, 1873		284,813 52
Total to be accounted for		$2,509,690 49
Disbursed as follows:		
Interest on funded debt		$503,936 62
Interest on convertible scrip		70,553 00
Payments to sinking funds		91,000 00
Rent paid Joliet & Chicago R.R. Co.		135,892 69
Rent paid St. Louis, Jacksonville and Chicago R. R. Co.		240,000 00
Rent paid Louisiana and Missouri River R. R. Co.		123,473 83
Dividends, March and September, 1874, five per cent each		1,135,080 00
Paid U. S. Government in payment of old internal revenue accounts.		74,509 12
Paid on settlement of old claims on account of freight and other transactions prior to the year 1874		15,351 56
Balance December 31, 1874		119,893 67
Total, as above		$2,509,690 49

The last two items in the foregoing statement of disbursements are not properly chargeable against receipts of 1874, and should not be considered in estimating net results for that year.

The report says:

The extent of the several lines operated during the year is the same as at the close of the preceding year, to wit:

Chicago to Joliet (leased)	38.0
Joliet to East St. Louis (owned by your company)	242.0
Dwight to Washington, with branch to Lacon (owned by your company)	79.8
St. Louis, Jacksonville and Chicago R. R. (leased)	150.6
Roodhouse to Louisiana (owned by your company)	37.6
Louisiana and Missouri River R.R. (leased)	101.1
Total miles	649.1

There is between Chicago and St. Louis 51¼ miles of double track; and on the several lines above stated, 97.6 miles of side track.

The capital stock of the company remains the same as last reported. The following is a statement of the several amounts of capital stock and funded debt of your company at the end of the year:

CAPITAL STOCK.

Preferred shares	$2,425,400
Common shares	8,929,900
	$11,355,300
Seven per cent scrip convertible into common stock Sept. 1, 1875	1,007,900

FUNDED DEBT.

First mortgage sinking fund, 7 per cent bonds, maturing Nov. 1, 1877	$77,000
First mortgage 7 per cent bonds, maturing Jan. 1, 1893	2,383,000
Income bonds, 7 per cent, maturing Jan. 1, 1883	1,087,000
Consolidated 6 per cent sterling bonds, maturing July 1, 1903, £600,000, or, say	2,919,900
St. Louis, Jacksonville and Chicago R. R. bonds, assumed in purchase of road from Roodhouse to Louisiana, first mortgage 7 per cent bonds, maturing April 1, 1894	564,000
Second mortgage 7 per cent bonds, maturing July 1, 1898	188,000
Total amount bonds	$7,218,900
Total stock and bonds	$19,582,100

The lease of the Joliet and Chicago Railway provides that, in addition to taxes and assessments upon the property, your company shall pay 7 per cent dividends on $1,500,000 of stock, and assume the obligation of that company under its 8 per cent mortgage bonds, due in 1882, which, at the time the lease was made, amounted to $500,000.

It was resolved by your company in 1866 that thereafter an annual appropriation of about $55,000 should be made from your revenues and applied to the payment of interest and to a sinking fund for the redemption and cancellation of these bonds. In pursuance of that policy, $28 000 of those bonds were canceled during the year, and the number outstanding and uncanceled has been reduced to $306,000. The payment of this last named sum may be considered an obligation of your company, but it is one for which a full equivalent will be received—the reduction in the amount of rent paid for the use of the property after the redemption of the bonds being equal to 8 per cent on the amount of bonds redeemed. In this respect the obligation of your company (if it may be properly so called) is unlike those before stated, and is therefore not classed with them.

From the fixed annual appropriation of $72,000, applicable to the interest and sinking fund of the first mortgage sinking fund bonds of your company, $63,000 of those bonds were redeemed and canceled during the year. The remainder of $77,000 will be redeemed and canceled in the course of the next eighteen months.

For the information of stockholders who are not fully advised of the liberal expenditures made from time to time, during the last ten years, by your company, for improvements upon its leased lines, the following statement is submitted:

There has been expended upon lines held by your company under perpetual lease for double tracks, side tracks, depots, grounds, buildings, and other permanent improvements, steel rails, and for rolling stock used in operating such lines, (as nearly as the same can be apportioned), and for the bridge over the Mississippi River at Louisiana, the sum of $4,866,010 19.

This sum has been obtained by the sale of your stock and bonds from time to time. In no case has your stock been sold for less than par, and in no case has a sale of your bonds been made for less than 94 per cent of their par value.

If the sum thus expended (which may be assumed to fairly represent your property upon lines held under lease,) be deducted from the aggregate amount of capital stock and funded debt before stated, ($19,582,100), there will remain the sum of $14,716,089 81, represented by, say 360 miles of railway owned by your company, together with repair shops, tools, supplies on hand, personal property, and the assets of your company, of all kinds, except as before stated. If the last named sum be divided by the actual length of railway owned by your company, (taking no account of double tracks, side tracks, etc.) say 360 miles, the result will show $40,878 03 per mile.

Very careful estimates have been made, from which it appears that if the road had been built and the property acquired at prices which have ruled during the last five years, the cost would have exceeded that sum.

The gross receipts from traffic were $371,312 74 or 6¼ per cent less than in 1873, and $30,097 68 less than in 1872.

The net receipts were $103,591 07, or 4.88 per cent more than in 1873, and $345,729 53, or nearly 11 per cent more than in 1872.

The operating expenses of your lines (exclusive of taxes), amount to 54.41 per cent of gross receipts; including taxes, 56.6 per cent.

During the previous year the operating expenses were 59.20 per cent and 61.41 respectively.

The gross receipts from passenger traffic show an increase of nearly 3 per cent over those of 1873.

The average fare paid per passenger was $1 57, being nine cents less than the average of the preceding year.

The number of passengers transported during the year is 964,223, being 74,347 or 8.96 per cent more than during the preceding year. The proportion between through and local passengers being 5.76 per cent of the former to 94 24 per cent of the latter.

The tonnage of freight transported amounts to 2,842,315,787 lbs, being 13.47 per cent less than in 1873.

The proportion between through and local freights being 17.24 per cent of the former to 82.76 per cent of the latter. The proportion of through freight being nearly double that of 1873. The gross receipts from freight traffic were $450,580 85, or 11.56 per cent less than during the preceding year.

The coal traffic of the year, which is included in the foregoing statement, amounted to 404,329,530/2000 tons, being 26.38 per cent less than in 1873.

The whole number of miles run by locomotives during the year is 3,758,915. The cost per mile run, for repairs, wages of engineers and firemen, fuel, oil, waste, cleaning, etc., amounts to 20.80 cents. The cost of the same in 1873 was 21.52 cents.

Average cost per mile per train for passenger and freight trains, $1 00.

Average gross receipts per passenger train per mile run, $1 37. Average gross receipts per freight train per mile run, $1 76.

Amount of coal consumed in operating your lines, 94,185 tons.

The bridge over the Mississippi river at Louisiana was built by your company as sole owner, no other corporation or person having had at any time any pecuniary interest in it. Under these circumstances (although an accurate account has been kept of the number of passengers and tons of freight passing over it) the basis for division of earnings between your road and bridge, in cases of traffic passing over both, has been for convenience and uniformity arbitrarily assumed to correspond with the minimum charges made at other similar bridges over that river.

That mode of keeping the accounts shows that the bridge earned from passenger traffic, $8,949 95. From freight traffic, $48,888 01, or a net profit of 7¼ per cent on its cost.

Had the bridge been credited in all cases what it was fairly entitled to from through rates upon the basis of charges made on other bridges over that river, the result would have shown a larger return. The advantages resulting from the construction of the bridge in promoting traffic are already apparent.

The gross earnings o nthe St. Louis, Jacksonville and Chicago R. R. show an increase of 4.12 per cent; those of the Louisiana Branch about 30 per cent; and those of the Louisiana and Missouri River R. R. 19.86 per cent over those of the preceding year.

These lines are the only ones operated by your company on which increased freight traffic was shown during the year; and the increase was due mainly to the construction of the bridge. The traffic on your lines via Louisiana, in the direction of Kansas City, is steadily increasing, and although still small in amount, it is believed that

with return of general business activity it will assume more satisfactory proportions.

Experience in operating the leased lines during the past year has demonstrated the following results:

The Joliet and Chicago R. R. Company is paid a fixed rental and no separate account of earnings is kept, but the lease is a very advantageous one to your company. The net earnings from the traffic of the St. Louis, Jacksonville and Chicago R. R. result in a profit to your company which is estimated at $155,373 05.

The net earnings of the Louisiana and Missouri River Railroad were less than the amount of rent paid for its use. Computing earnings upon traffic contributed by it to your other lines as an offset, the apparent net loss is estimated at $9,273 83. In 1873 the loss in operating that line was estimated at $51,174 29. With the important modification of the terms of the lease, hereinafter stated, and the increase of traffic already referred to, we hope that this is the last loss in operating that line which will be realized by your company.

By the lease between your company and the Louisiana and Missouri River Railroad Co. dated August 1st, 1870, the latter company agreed to furnish right of way, grading and ties to complete its line from Mexico to Kansas City. As you are aware, that company failed to comply with its contract in this respect, and in consequence thereof, that portion of its line has never been completed. The lease provided that in case any difficulty should thereafter exist between the parties relative to the non fulfillment of any of the covenants or agreements therein contained, the questions of difference should be submitted to the arbitration of two disinterested persons, skilled in the business of conducting and managing railroads, one of whom should be chosen by each of the parties. Your company claimed that it was entitled to compensation by reason of the non fulfillment of the contract on the part of the Louisiana and Missouri River Railroad Co., and the question was submitted to the arbitration of Joseph H. Moore, Esq., chosen by your company, and General A. Anderson, chosen by the Louisiana and Missouri River Railroad Co. The arbitrators met and awarded that the clause in the lease by which your company guaranteed a minimum annual rental should be abrogated, and that from the first of November, 1874, your company should pay as rental thirty five per cent. of the gross earnings of the line between Louisiana and Jefferson City, after deducting taxes; and that such sum as your company might be obliged to pay by reason of its guarantee of the interest on the bonds of the Louisiana and Missouri River Railroad Co., in excess of what the rental might amount to should be charged to that company as a debt without interest. The effect of this award was to relieve your company from the payment of any rental beyond the thirty five per cent. of the gross earnings, less taxes, and make any excess it might pay as interest beyond the rental thus established, a debt against the Louisiana and Missouri River Railroad Co.

In the year 1869 difference of opinion arose relative to the time when the Internal Revenue Law of the United States expired, and relative to taxes payable on surplus net earnings. The controversy was carried into the courts by railway companies of other States, and while it was pending your company withheld the amount in dispute, but after it was finally decided in favor of the government, although by a divided court, your directors believing that litigation would not be productive of any beneficial result, rendered an account of the amount which had been withheld to await such decision, and paid the same to the satisfaction of the officers of the government. The amount paid in settlement of the account, $74,609 12, has been stated under the head of disbursements from income account.

A law of Illinois, passed in 1872, provided for the taxation not only of the entire property, real and personal, of railroad companies, but of their capital stock. Your property was assessed in such a manner as to render it exceedingly difficult to ascertain the precise amount of taxes which should be paid.

Under these circumstances, M. K. Jesup, Esq., one of the stockholders, applied to the Circuit Court of the United States, praying for an injunction, restraining the collection of the entire tax, but offering to pay for the company such sum as the court should determine was just and equitable; and a temporary injunction was granted, which still remains in force. A sum quite as large as it is supposed will be ultimately paid, has been appropriated and charged in the account of operating expenses, but has not yet been paid. It is confidently believed that the injunction restraining the collection of the tax on capital stock will be sustained; and that the taxes upon the property will be largely reduced.

Your property has not only been in all departments maintained in condition equal to that of the best Western railways, but by the continued substitution of steel rails for iron rails, as the latter are worn out, by adding to double tracks, by reducing the inclination of the steepest grades, and by other improvements and additions which have been made at a cost of $762,977 08 during the year, your property is in much better condition for operating at reduced cost than ever before.

Five thousand and fourteen tons of steel rails, twelve hundred any fifteen tons of iron rails, and 215,929 new cross ties have been used in replacing worn out rails and cross ties during the year. Five hundred and twenty two tons of steel rails and 14,520 cross ties have been used in additional double track.

Nearly four miles of additonal side tracks have also been laid during the year.

One hundred and eighty three miles of track had been laid with steel rails at the close of the year. The grading for double track between Joliet and Wilmington, and the reduction of the inclination of grades so that trains moving north (in the direction of the heaviest traffic) will not at any point within eighty miles of Chicago, ascend an inclination exceeding twenty four feet per mile, has been nearly completed. This important improvement will enable engines to move much larger trains and reduce the cost of operating upon that part of the line on which there is the greatest accumulation of traffic.

The number of engines and cars of all kinds upon your lines remains the same as at the close of the preceding year.

By reason of reduced crops the amount of corn transported was 24 per cent. less than in 1873.

The smaller amount of coal transported is due to a "strike" of coal miners in the Braidwood coal field, which continued three months; and to a suspension of the Joliet Iron and Steel Company's works for ten months, where large amounts of coal are generally consumed.

The increased amount of net earnings during the year is due to the very large reduction in the cost of operating and maintaining your lines. Lower prices for supplies of all kinds used, and the advantages derived from liberal expenditures heretofore made by your company for steel rails and other improvements, have contributed mainly to that result.

The reduced amount of traffic is due in some degree to the depression of general business, but mainly to the operation of the present Railway Law of Illinois, which practically prohibits all traffic which might be obtained at rates affording less profit than those resulting from the fixed schedule of charges. At many of our competing points are found railways which extend beyond the limits of Illinois, and are therefore at liberty to make such charges on through traffic as they see fit. Under the rules prescribed by the law, the alternative is placed before us of reducing all our rates to the basis of competition, or abandoning business at such points. Such a reduction would very soon lead us to financial difficulties, and it is much better to let our competitors take the traffic until the courts or the legislature shall relieve the people and the railways of the injury that results from the present law. We have been restricted by arbitrary rules at variance with commercial usage and business principles. We have had competition for the past year under circumstances which it would seem could not be more to our disadvantage. We have expended a large amount in returning cars empty that might have been loaded with freight to the mutual benefit of shipper and carrier, had it been within our lawful discretion to make temporarily a slight reduction in rates. We have contended as best we could with competitors who were so desirous of obtaining traffic from points of crossing and intersection with your line that they have reduced their charges in many cases so much below rates affording a reasonable profit, that the result has been to place several such lines in the hands of receivers and to cause serious financial embarrassments to others.

The low rates that have been charged on many of the western railways for transporting the products of the soil for several years past, have caused trouble in many ways. The policy which has been pursued has deprived shareholders, in many cases, of all dividends; and in others, bondholders have failed to receive interest on their bonds. It has led the people—and, in some cases, even the courts—into the erroneous belief that such low rates were reasonable, and that higher rates charged on other lines were therefore extortionate. It has been one of the principal causes of hostile and unwise legislation.

It is beginning to be apparent to the people that their efforts to establish prices of commodities by legislation must not only fail, but, if persisted in, must result in injury to themselves, as well as to railway companies; and many persons are demanding the amendment or repeal of the present railway law.

The result of the traffic on your lines during the past year, under very unfavorable circumstances, demonstrates their intrinsic value; but with little more than half an average crop of corn in 1874, with the general business of the country but partly recovered from the effects of the panic, and the uncertainty of any immediate relief from unfriendly legislation, candor compels us to report that at present the prospect for a profitable year's business in 1875 is not very encouraging.

GENERAL BALANCES, December 31st, 1874.

Cost of road and equipment	$17,303,065 42
Machinery and tools in shops	165,396 78
Meyer & Tilden, trustees, bonds, etc., in their hands, per contra	37,813 39
Bonds held by trustees on renewal account	50,000 00
Chicago and Mississippi R. R. Co. bonds, etc., owned by this Co	2,500 00
St. Louis, Jacksonville and Chicago R. R. Co. stock	7,426 04
T. B. Blackstone, trustee, interest in Palace Cars	20,000 00
Joliet Iron and Steel Co. stock	15,622 84
Mississippi River Bridge Co	705,046 59
Income bond scrip	1,084 50
International Industrial Exposition stock	1,000 00
Township bonds	995 24
Trustees of sinking fund, balance in their hands	586 97
Louisiana Branch, cost of construction	1,889,835 17
Western Division, cost of construction	1,121,649 43
Louisiana and Missouri River R. R., cost of construction	1,551,126 60
Louisiana and Missouri River R. R. Co., advances for interest on bonds, on account of rental	75,791 24
Post Office Department, due for mail service	27,071 57
Due from other companies for mileage, track service, etc	19,189 51
Bills receivable and other debts due the company	92,046 26
Due from stations	58,047 93

President.—T. B. BLACKSTONE.

Directors.—John F. Slater, John A. Stewart, George Straut—Term of service expires first Monday in April, 1875. John Crerar, Lorenzo Blackstone, John J. Mitchell—Term of service expires first Monday in April, 1876. T. B. Blackstone, John B. Drake, D. Willis James—Term of service expires first Monday in April, 1877.

Secretary and Treasurer.—W. M. LARRABEE.

Gen'l Superintendent.—J. C. MCMULLIN.

Chief Engineer.—K. F. BOOTH.

Purchasing Agent.—A. V. HARTWELL.

The Gauge Question in England.

If it were a question now what gauge should be adopted in this country, the 5 feet or 5½ feet would doubtless be preferred to the 4 ft. 8½ in. which has been adopted, and which will soon be universal, or nearly so, in this country. The Great Western have already changed, with some small exception, from broad to narrow, that is from 7 ft. to 4 ft. 8½ in.; the Bristol and Exeter and South Devon are about to do the same. The only reason for the change is uniformity of gauge. A break of gauge is adverse to the flow of traffic, and hence the companies go to the expense of changing Brunel's gauge. As far as working expense is concerned there is no advantage in altering the broad gauge. The 7 ft. gauge is just as cheap to work as the 4 ft. 8½ in. Long actual experience has proved this to be the case, and to this day the broad guage South Devon line is one of the very cheapest worked railways in the kingdom. We know this is contrary to the *notions* of some, but notions and facts often differ. It is a well ascertained *fact* that even the very broad gauge of 7 ft. can be worked at quite as low a cost as the very narrow gauge, for trunk lines, of 4 ft. 8½ in. A broad gauge line costs more to construct than a narrow, but not to work.—*Herapath.*

Statistics of Commerce and Navigation.

The following is an abstract of the Report of the Bureau of Statistics, showing the Foreign Trade of the United States for the calendar year ending December 31, 1874, compared with the corresponding period of 1873:

	1873.	1874.
Imports	$624,997,487	$577,369,711
Domestic exports (specie values)	606,361,988	620,473,785
Foreign exports	24,968,204	22,125,893

Of the total amount of our foreign trade for the year ended December 31, 1874 and 1873, the following values consisted of merchandise and of specie and bullion, respectively:

1874.	Imports.	Domestic exports (specie values.)	Foreign exports.
Mdze	$562,115,907	$553,929,342	$15,943,211
Specie and bullion	15,253,804	66,544,393	6,182,682
1873.			
Mdze	595,248,048	550,098,492	17,659,375
Specie and bullion	29,749,439	56,263,496	7,808,829

The value of foreign commodities remaining in the warehouses of the United States December 31, 1874, was $43,804,512, against $62,064,932, December 31, 1873.

The following is an analysis of the imports for the calendar years 1873 and 1874:

	1873.	1874.
Total subject to duty	$453,687,074	$403,039,850
Total free of duty	171,310,413	174,329,861
Entered for immediate consumption	415,960,222	411,726,984
Entered for warehouse	200,842,941	158,753,636
Entered for immediate transportation	8,194,324	6,889,097

Of the total foreign trade during the year ended December 31, 1873 and 1874 respectively, the following values were carried in American and foreign vessels and in cars and other land vehicles:

1874.	Imports.	Domestic exports (mixed values.)	Foreign exports.
American	$171,165,717	$156,821 923	$8,615,768
Foreign	392,631,737	520,149,795	10,729,750
Land vehicles	13,572,257	8,432,255	2,780,375
1873.			
American	168,332,635	156,147,749	8,481,171
Foreign	441,520,465	512,976,084	13,348,933
Land vehicles	15,144,387	7,400,087	3,138,100

Number and tonnage of vessels engaged in the foreign trade which entered into and cleared from the ports of the United States during the calendar years 1874 and 1873:

	Entered.		Cleared.	
1874.	No.	Tons.	No.	Tons.
American	11,765	3,717,472	11,890	3,808,203
Foreign	18,791	8,952,210	19,080	8,963,827
Totals	30,556	12,669,982	30,970	12,772,030
1873.				
American	11,466	3,796,122	11,631	3,897,200
Foreign	20,335	8,653,092	20,445	8,603,771
Totals	31,801	12,449,214	32,046	12,500,971

The total number of immigrants who arrived in the United States during the year ended December 31, 1874, was 260,814, of whom 159,936 were males and 100,878 females. Under fifteen years, 51,691; fifteen, and under forty, 172,113; forty years of age and upward, 37,010; died on the voyage, 129.

Of the total arrivals there were from England, 43,396; Ireland, 47,688; Germany, 56,927; Quebec and Ontario, 23,744; balance from 144 other countries.

Immigrants having professional occupations, 2,465; skilled occupations, 32,482; miscellaneous occupations, 101,318; not stated and without occupation, mainly women and children, 124,549.

Maine Central Railroad.

At the annual meeting of the stockholders of the Maine Central Railroad Company, held in Waterville, Me., on the 24th of March, the following gentlemen were elected directors for the ensuing year: Abner Coburn of Skowhegan, Noah Woods of Bangor, F. W. Hill of Exeter, Darius Alden of Augusta, N. M. Whitmore of Gardner, Arthur Sewall of Bath, W. G. Davis of Portland, Frank Jones of Portsmouth, James W. Johnson of Enfield, N. H., James P. Cook of Salem, Mass., John Wooldredge of Lynn, Mass., John Cummings of Woburn, Mass., and George L. Ward of Boston, Mass.

At a subsequent meeting of the new Board of Directors Hon. Abner Coburn was elected as President of the Board, John Wooldredge Vice President and J. H. Drummond as Clerk.

From the report of the retiring President, Hon. Anson P. Morrill, we learn that the total earnings of the road for the year ending December 31 1874, were $2,094,080 55, the operating expenses $1,281,681 25, and the net earnings $812,399 30; for the year ending December 31, 1873, the earnings were $2,068,077 78, the expenses $1,330,501 44, and the net earnings $737,576 34—showing an increase in earnings of $26,002 77, with a decrease in expenses of $48,820 19, making an increase in the net earnings of $74,822 96. The receipts from passengers were $910,881 89; from freight, $1,028,965 41; from all other sources, $154,683 25. The number of passengers transported has been 752,724, an increase of 32,964 over the year 1873. The number of tons of freight carried has been 422,400; increase over 1873, 20,496 tons. The report says:

A general stagnation of business throughout the country has materially affected the business of our road, so that its gross receipts have only been increased over those of 1873 some $26,000; but the practise of rigid economy in every department in working the road has given an increase of net earnings over last year of $74,822 96. As evidence that no saving has been attempted by neglect of the proper outlay on our track, bridges, stations and rolling stock, we quote from the report of the Railroad Commissioners of the State for 1874, as follows:

"Persons who have had occasion to travel over this road for the last year or two cannot have failed to notice the vastly improved condition of the track and road bed, the many new and permanent bridges, both iron and wood, the neat and commodious station buildings, many of them entirely new, and the others repaired and remodeled. In making these renewals and repairs the company are manifesting good judgment, and setting an example of true economy worthy of imitation by other companies. Wherever old, unsafe, temporary bridges or buildings have been removed, permanent and substantially built struct-

ures have been substituted, and no effort has been spared to insure safety or durability."

During the year we have completed the iron bridge over the Kennebec river between Waterville and Fairfield, and replaced the old wooden bridge over Ticonic Falls with a first class iron bridge, which was opened for use last summer. We have now four first class iron bridges on the line from Portland to Bangor via Augusta; three over the Kennebec and one over the Androscoggin at Topsham. These bridges have cost a large sum of money, but economy demanded the outlay, that a line so important should not be liable to interruptions by fire, to which wooden bridges are so exposed, and from which our company has encountered heavy losses.

Our trains have been run during the year with regularity and safety. There have been four accidents at highway crossings, resulting fatally in three instances. In neither case was any blame chargeable to the employes of the road. The Superintendents in immediate charge of the road have labored zealously to produce good results, and have been aided in a faithful manner generally by the men under their care. The engineer and mechanical departments, whose expenditures must always be large, willingly adopted measures of strictest economy in view of a hard business season which was evidently to be encountered, and their reports show gratifying results.

As will be seen by the Treasurer's statement of liabilities during the past year, the bonded debt of the company has been reduced by the payment of the

City of Bangor Loan	$474,000
Penobscot and Kennebec do.	100
Portland and Kennebec Funded Int. do.	1,300
Somerset and Kennebec 1st mortgage in part	247,000
Total	$722,400

These liabilities have been met by the sale of consolidated bonds, and by notes payable, increasing our liabilities only $14,332. Since the date of the Treasurer's report $40,700 of the Somerset and Kennebec bonds have been paid, which leaves but about $12,000 of these bonds outstanding.

On the 28th day of December, 1874, your Directors consummated a contract with the Boston and Maine Railroad for doing a joint business on terms which we trust may be mutually advantageous to the corporations interested and the public generally. By this contract the Boston and Maine Railroad open that line to us for through business on nearly the same terms granted us by the Eastern Railroad Company by contract of 1871, and receive from us the same privileges and services which the Eastern were entitled to under that contract. In effecting this arrangement with the Boston and Maine, it became necessary to modify and change somewhat the contract of 1872, which we had with the Eastern road. To do this required the consent of that corporation. After mature deliberation and a full canvass of the important proposition, the Directors of the Eastern and the Maine Central agreed to cancel all existing contracts, and substitute therefor a new contract embracing essentially the same provisions and terms contained in the contract between the Maine Central and Boston and Maine. These contracts are for the term of five years, a time sufficiently long to test their equitable and judicious workings, and suggest what changes, if any, should be made in said contracts, in order to continue the present connections and relations of said roads permanently.

☞ The Constantinople Underground Railway, from Galata to Pera, was opened on January 17th. This unique work is 672 yards long, and conveys passengers from the level of the Bosphorus to the extreme height of Pera, an elevation of 200 feet, with an average gradient of one in ten. Its greatest depth below the surface is 80 feet. The motive power is a stationary engine, working a drum with endless bands. Trains run up and down simultaneously every five minutes, and are calculated to carry 30,000 passengers per diem. The carriages work very easily at an average speed of ten miles an hour.

Atlantic and Pacific Railroad.

At a recent meeting of the Atlantic and Pacific Railroad Company and leased lines, Andrew Peirce, Esq., Vice Pres't and Gen'l Manager, submitted the following statement of working for the year 1874:

Receipts from traffic Atlantic and Pacific line		$1,360,977 90
Receipts from lands, royalties on minerals, and interest on investments		460,422 50
		$1,821,400 40
Operating expenses	$639,312 07	
General expenses and interest	918,739 35	
		1,558,051 42
Surplus to income account Dec. 31, 1874		$263,348 98
Receipts from traffic Missouri Pacific line		$3,713,452 93
Receipts from other sources		89,523 71
		$3,802,976 64
Operating expenses	$2,261,563 97	
Interest, rentals and dividends	1,418,889 92	
		3,680,453 89
Surplus to income account Dec. 31, 1874		$122,522 75
Gross revenue Atlantic and Pacific Railroad Company and leased lines, 1874		$5,624,377 04
Gross disbursements		5,238,505 31
Surplus		$385,871 73
Increase of net earnings over 1873,		$206,560 08

Springfield and Illinois Southeastern R. R.

The directors of the Ohio and Mississippi Railroad Company have approved the recent purchase of the Springfield and Illinois Southeastern Railroad. This road is 228 miles in length, and runs from Beardstown on the Illinois River, crossing the Ohio and Mississippi at Flora, Illinois, and thence to Shawneetown, on the Ohio River. The road was sold last year at mortgage sale to M. H. Bloodgood, of this city, representing the bond holders, for $500,000, under a decree of the federal court, and by him conveyed to the Ohio and Mississippi Railroad company, for the sum of $1,750,000, payable in bonds running thirty years, secured by a first mortgage on the Springfield and Illinois Southeastern Road, with option to fund the coupons of the first two years. Included under the same mortgage is a reserved issue of $1,250,000 bonds to provide means to increase the equipment and perfect the road to meet the growing traffic and to extend the line to the coal and mineral lands in Hardin County, adjacent to Shawneetown. The transfer papers are dated January 28, 29 and 30, 1875, and were filed in the Recorder's office at Springfield Ills., on the 27th of February. The company took possession of the road on the 1st of March and will hereafter operate as the Springfield Division. In announcing the above fact, the Springfield Journal says:

The advantages to be derived from its new ownership, in being operated by a large and wealthy corporation and in connection with the leading lines of the country, are manifest. The track will be put in the best order, and abundance of rolling stock supplied as needed. Other improvements may also be anticipated for the new division of so important a line. Another advantage, and a very important feature, is found in the fact that in connection with the change of ownership comes the assurance of low rates, for the Ohio and Mississippi, in connection with the Baltimore and Ohio, is managed by a corporation believing in a low tariff as an incentive to business. The change of rates will go into effect as soon as arranged—not later than April 1—and the rate for passenger traffic will be certainly as low as three cents a mile and probably lower, thus insuring a reduction in present rates of thirty three per cent. or more. The purchase is of course in the interest of the Baltimore and Ohio, and is virtually a continuation of that line to Springfield. It completes four links, all under one general management, formed by the Baltimore and Ohio, the Marietta and Cincinnati, the Ohio and Mississippi, and the Springfield and Southeastern, between Baltimore as a great corn market and this corn producing section. With Baltimore as a commercial centre, and this new division of the Ohio and Mississippi resting upon a great cornfield, the advantage to the through shipper, especially in view of the low rates ruling, is manifest. The new division is claimed to be one of the best corn feeder lines in the State.

No Compensation for Injuries Resulting from Carelessness.

The following order has just been issued by the Illinois Central Railroad Company to its employes:

Hereafter no compensation will be allowed to officers or employes who may be injured in the service of this company where such injuries have been caused by a violation of its rules and regulations, or by carelessness and want of proper precaution on the part of the parties injured. In coupling cars, if a stick or hook is used instead of the hand to guide the link, and proper caution is observed, there will be no accidents from this cause. Getting feet fastened in frogs and falling on the track result from attempting to place links and pins in drawbars while cars in motion, and not unfrequently walking backwards while so doing. Scarcely an instance occurs in train service where men are hurt, that, if proper care had been observed, the accident would have been averted. Any employe who does not use prudence and take proper precaution to guard himself against injury cannot be trusted to take care of this company's property. All such must be dropped from the service. Every application for a donation, or claim for compensation from injured employes, must rest upon its own merits and be accompanied by a report from the head of the department in which the person was employed, setting forth all the facts and circumstances connected with such injury.

Abundance of Quicksilver.

During the year the prevailing price of quicksilver has been exceptionally high in all the markets of the world. Indeed, it has been so high as to come near stopping the work upon some valuable deposits of silver, which could not be profitably mined when quicksilver stood at $1 55, or near that figure. However, the evil has wrought its own remedy by stimulating the opening of new claims all over the State. The result is that the price of quicksilver is already down to 90 cents, with a prospect of still lower figures. It is hardly possible that with the great number of mines now open the supply will very soon again fall short of the demand.—*Napa Register*, March 17th.

☞ The shipyard of the Harlan and Hollingsworth Company, at Wilmington, Del., it is said, is now supplied with work enough to keep a full force going for a year. Besides a new monitor and two new Morgan steamers which are to be built, a large number of other steamers are awaiting repairs at their yards.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, April 3, 1875.

Financial and Commercial Affairs.

An unusually extensive business has been reported, since our last, at the Stock and Gold Exchanges, with more activity also in the lines of Produce and Merchandise. Resulting from these greatly enlarged dealings, we have had reported a much livelier demand for Money, particularly on speculative account, and for use on the Wall street markets, leading to a sharp advance in rates on call loans, which on Monday were quoted up to full 7 per cent in gold, closing, however, with more ease in the open market within the range of 5@7 per cent, currency. In the mercantile line, there has been more steadiness apparent, the best grades of commercial paper having been quoted at from 5@7 per cent per annum. The City Banks, on their last weekly exhibit, made a further gain in their reserves, as against their liabilities. The U. S. Sub Treasury enlarged its balances of both coin and currency as the result of the week's operations. The currency reserve of the Sub Treasury was augmented $229,868; and the specie balance, $1,913,439. The City banks last week reduced their reserve of legal tender notes $232,800, and their deposit item $3,694,800 while increasing their specie average $1,014,000. They report a decrease of $4,305,300 in the loans and discounts, and of $697,100 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $45,978,046, against $46,207,918, the preceding week; and a coin hoard of $53,479,004, against $51,565,585, on the previous return. The City bank exchanges in currency during the week, were $419,438,825, or a daily average of $69,906,887. The customs revenue of the port, during the week, was $2,738,000. The City banks reported their average of gold last week at $8,282,800, and their greenback average at $51,899,500. Their deposits stood at $214,724 500. The loan item was $279,052,800. The circulation was $21,534,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $6,501,175.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is $380,714,900. The National bank circulation is now $347,049,106.

The U. S. Treasury balances on Wednesday were as follows: Currency, $5,490,031; special deposit of legal tenders for redemption of certificates of deposit, $42,735,000; coin, (including $28,701,700 in coin certificates,) $80,110,238.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,127,029.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 84 millions.

The specie shipments from San Francisco, Jan. 1, to March 18th, were $9,971,149,ag ainst $3,833,604 same time last year.

Government has been disbursing considerable amounts of coin in redemption of called Five Twenties.

Business in Gold has been unusually active, and the earlier dealings were on an advancing market. Speculative manipulations led to a rise in the price on Monday to 117, with corresponding stringency in Gold loans, which were quoted as high, at one time, as 1 per cent; on Tuesday, there was a sudden break in the market, and the price of Gold fell to 114⅞@115, or full two per cent from the extreme quotation of Monday, with diminished activity, in the speculative line, closing on Wednesday comparatively quiet and with little show of buoyancy. The customs demand has been more active. The export drain has been moderate, having been confined to $639,283, or less than the specie imports, which amounted for the week to $846,089 including $645,847 from Havre, and $164,120 from Bremen. The extremes of the week have been 114⅜@117, closing on Wednesday at 114½ as against 115⅛ on Wednesday of the preceding week. The specie outflow last week was $639,283. The imports of specie at this port since Jan. 1, have been $3,995,857 against $1,135,873 same time last year. The customs demand for Gold last week averaged $456,334 a day. Foreign Exchange has been more active, and decidedly more variable as to price, closing more firmly. Bankers' sixty day

bills on London closed on Wednesday at $4 82; sight bills on London at $4 86 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,170,069.

An active business has been reported in the line of Government Securities at generally very full rates, notwithstanding the extreme fluctuations in Gold. The dealings have been mainly through the commission houses. State and Railway Bonds have been in better demand and held more firmly. And in the Railway and Miscellaneous share line, transactions have been unusually extensive, and generally at advancing prices, though closing weaker, and quite irregular.

U. S sixes of 1881 closed on Wednesday of this week at 121@121¼; U. S. Five-Twenties of 1862, at 117⅛@118; U. S. Five-Twenties of 1864 at 118@118¼; U. S. Five-Twenties of 1865 120¼@120⅜; U. S. Five-Twenties of 1865 consolidated, 119⅛@119¼; U. S. Five-Twenties of 1867, 120@120⅜; U. S. Five-Twenties of 1868, 120@120¼; U. S. Ten-forties at 114½@115; U. S. Fives of 1881, (Funding Loan) 115@115¼; Six per cent. currency Sixes from 119@119½.

General business has been improving. Produce and Merchandise have been more sought after, and values, in most instances, have shown more firmness. Breadstuffs, Cotton and Provisions closed rather less buoyantly. Hardware, Boots and Shoes, Wool, and Tobacco have been in moderate request. In the line of Metals, more inquiry has been noted for Copper, Pig Iron, Iron and Steel Rails, and Tin Plates, within the previous range. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $37@$38; No. 1 American Pig at 28@29; No. 2 do. at $25 50@$27; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $30@$35. Wrought Scrap, $35@$36. Ocean freights have been moderately active and at the close steady for Grain room, which was most sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—St. Louis and Iron Mt. 1st mort., 87¼; St. Louis, Jacksonville and Chicago 1st mort., 105; Boston, Hartford and Erie 1st mort. guar., 30; Hudson River R. R. 3d mort., 104; North Missouri 1st mort., 85; Central Pacific 1st mort., San Joaquin Branch, 88½; do. California and Oregon Branch, 86¾; Pacific R. R. of Mo. 1st mort., 90; do. 2d mort., 78½; Long Dock bonds, 104; Toledo, Wabash and Western 7s, consol., 40; Mil. and St. Paul 7s, consol., 74; Lake Shore div. bonds, 103½; Great Western 1st mort. 1888, 79½; Am. Dock and Imp. 7s, 103; Buffalo and State Line 7s, 102; Marietta and Cincinnati 1st mort., 104⅜; Western Pacific R. R. bonds, 90¼; Detroit, Monroe and Toledo 1st mort., 100⅛; New York and New Haven 6s, 103; Del. and Hudson Canal reg. 7s, 1891, 107½; Clev., Col., Cin. and Ind. 1st mort., 107¼; Galena and Chicago 2d mort., 102¾; Peninsula 1st mort., 95; Delaware, Lackawanna and Western 7s, conv., 111¾; International 1st mort., 55; New Jersey Southern R. R., 8; Warren R. R., 98; Albany and Susq. R. R., 99; St. Louis, Kansas City and Northern pref., 25⅛; Rome, Watertown and Ogdensburg R. R., 72; U. S. Exp., 61; Am. Exp., 64; Adams Exp., 104; Wells-Fargo Exp., 88; Atlantic and Pacific Tel., 24¾; Am. Dist. Tel., 33; Quicksilver Mining pref., 30; Canton Co. 64½; Spring Mt. Coal, 70; Consol. Coal of Md., 49; Am. Coal, 58; South Carolina 6s, new, Apl. and Oct., 31½; do. old, Jan. and July, 20; Tennessee 6s, new, ex-coupon, 48¼; do. old, do., 49; do. 6s, new series, 48; Virginia 6s, def. certif., 8½; Missouri 6s, long bonds, 97⅛; do. 6s, 1876, 100¼; N. Y. State 7s, B. L., reg., 106¾; do. coupon, 106⅝; Connecticut war loan, 103⅛; North Carolina 6s, special tax 3d class, 3¾; Brooklyn 6s, W. L., 102½.

Philadelphia.—Philadelphia and Reading R. R. 6s, 1844-'80, 101¾; do. Gen'l mort. 7s, coupon, 107; Schuylkill Nav. 6s, 1895, 79½; Philadelphia and Reading Coal and Iron deben. bonds, 84½; Pittsburg, Cincinnati and St. Louis 7s, 78; Wilmington and Reading 1st mort., 54; West Jersey R. R., 1st mort., 99; Delaware R. R. 6s, 101; Connecting R. R. 6s, 90; Belvidere Delaware 2d mort., 94; North Pennsylvania Gen'l mort. 7s, 103¾; Northern Pacific 7-30s, 21; West Pennsylvania R. R. 6s, 80; Huntingdon and Broad Top Mt. R. R., 6½; do. pref., 16; do. 2d mort., 102; Catawissa new pref., 39; Susquehanna Canal, 6½; Germantown Passenger R. R., 47. The latest quotations are: City 6s, 102@102¼; do. free of tax, 105⅛@105¼; Pennsylvania State 6s, 2d series, 105@105¾; do. 3d series, 110@111; Philadelphia and Reading, 56⅞@57⅛; do. ☞ In the construction of the railroad in the Peruvian Republic, that is to open up a communication between the Pacific Ocean and the Amazon, it is estimated that thirty bridges and thirty-seven tunnels, altogether of 180,000 feet in length, must be built.

Kentucky and Gt. Eastern Railroad.

The following from the Cincinnati Enquirer will be of great interest to the bondholders of the Chesapeake and Ohio Railroad, as well as to the stockholders of the Indianapolis, Cincinnati and Lafayette Railroad. With such feeders as the Kentucky and Gt. Eastern and the Cincinnati Southern Railroads finished, a sufficient increase of business would be assured to the Indianapolis, Cincinnati and Lafayette Railroad as to make the question whether the road can earn dividends no longer doubtful:

Among the railroads swamped in the financial storm of 1873 was the one then being built between this city and Huntington, West Virginia, and known as the Kentucky and Great Eastern Railroad. A great deal of work had been done on the road, such as the building of bridges, excavations, &c., a great part of the way being ready for track laying. Recently M. E. Ingalls, President of the Indianapolis, Cincinnati and Lafayette Railroad, and other first class railroaders and capitalists have been placed in the Board of Directors of the Kentucky and Great Eastern. Last week the new Board was in session for several days at the "Grand," and we learn that already capital enough has been secured to complete the road and place it in good running condition, provided the counties in Kentucky along the line of the road subscribe very small amounts. As the Kentucky and Great Eastern will unite with the Chesapeake and Ohio Railroad at Huntington, West Virginia, it is of vital importance to the merchants and manufacturers of Cincinnati that the road be speedily completed, as it would give another splendid outlet to the sea, and bring to this market the trade of a large section of country with which at present we have no access. The prospects for a speedy resumption of work along the line are first rate, and we think it would be a good idea for the Board of Trade to agitate the matter, and see just what is necessary to make the matter a fixed fact.

☞ The work of actual construction on the Maryland and Delaware Ship Canal was formally commenced on the 29th ult. at Black Bird, New Castle Co., Del., by Gen. Brown, the Chief Engineer, throwing the first shovel of earth into a cart. This was followed by all present, and the contractor, Mr. Kennedy, then placed the hands at work. At present but a comparatively small force is engaged owing to the extreme cold weather and the difficulty in removing the earth by carts. As soon as the earth settles and the weather is favorable the company proposes to increase the labor by all the modern appliances of machinery, and expects to complete the work in four years.

☞ The Central Railroad Company of New Jersey are considering the question of tunnelling Newark bay from Elizabethport to Bergen Point, for the use of their track. A tunnel of the required double track size, two and a half miles long, would cost six millions of dollars, and be a saving in the end, as the bridge upon the bay has been rebuilt, piecemeal, at least three times, at an expense of three times the original cost. The bottom of the bay is generally flat and the earth solid, there being sand only a short distance from Bergen Point.

☞ The act to incorporate the South Jersey Telegraph Company has passed both branches of the Legislature and is now a law. The incorporators are Thomas Hand, Charles Statham, Ebenezer Westcott, Jacob Daily, Dr. B. Rush Bateman and J. Frank Daily.

Atlantic and Lake Erie Railway.

The Atlantic and Lake Erie Railway Company has increased its capital stock from $5,000,000 to $12,000,000, and entered into contract with the Ohio Railroad Construction Company for the completion of the entire line of the road. Messrs. V. B. Horton of Pomeroy, Charles Foster of Fostoria, John H. Kelley of New Lexington, and A. Saffel, of Sycamore, Wyandot county, have been elected Directors. It is the intention of the contractors to complete the road as far north as the Central Ohio Railroad track by October 1, and to the crossing of the Columbus and Mt. Vernon Railroad by the first of next January.

☞ The Mauch Chunk Coal Gazette, of March 12, 1875, says that the 123 feet railroad track scale built at Packerton, one mile south of Mauch Chunk, in June, 1872, by Messrs. Fairbanks & Ewing for the Lehigh Valley Railroad Company, has done more weighing for the same time than any other scale in the world. Its average weighing per day is over 20,000 tons for every day in the year, an annual tonnage of over 7,000,000 tons. A single day's (24 hours) weighing has often exceeded 60,000 tons. The scale has been subjected monthly to the severe "Goodwin Test," and has always been found correct. Although over 18,000,000 tons have been weighed upon the scale it has never yet required repairs.

☞ The New Jersey and New York Railroad Company have commenced running trains over their new road to Haverstraw. The road connects with the Hackensack branch of the Erie Railway at Hillsdale, N. J., and with the Northern New Jersey Railroad at Spring Valley. The directors hope to have completed the extension to Newburg before the opening of Summer. The rolling stock of the road is entirely new. It consists of eight locomotives and twenty-eight coaches. Twenty new coaches are to be added, and are in process of construction. A branch road has been constructed from Nanuet to New City, which will probably be open to public use on the 1st of May.

☞ The Bellaire and Southwestern Railroad Company, with a capital stock of $500,000, has filed articles of incorporation with the Secretary of State of Ohio, the line to be from Bellaire to Woodsfield. Incorporated by William W. Armstrong and others.

☞ It is proposed to establish direct telegraphic communication with Brazil by laying a submarine cable between Key West and Punta Rosa, Florida, a distance of 120 miles. This would make a connection with the West India and South American system.

☞ The Sacramento semi-weekly Record-Union says that the quicksilver mining excitement in the neighborhood of Latrobe is reported to be on the increase, and various companies are talking of erecting furnaces. The claims are spread over a section fifteen or twenty miles in extent.

☞ The Tredegar Company, of Richmond, Va., propose to erect an establishment for the manufacture of horse shoes, which will give employment to six hundred hands.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE.

INTEREST ALLOWED ON DEPOSITS.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

FOR SALE.

PROPOSALS ARE INVITED FOR THE PURchase of a Stationary Steam Engine and Boiler, built about 1868 by the C. & A. R. R. Co. Cylinder 26 in. diam. × 27 in. Stroke; Fly Wheel 16 ft. in diam. The engine may be examined at the C. & A. R. R. Shop, near Bordentown, N. J. Address the Purchasing Agent of the Pennsylvania R. R. Co., N. W. Corner 15th and Market Streets, Philadelphia.

☞ The Lancaster (Penn.) express says that as soon as the spring opens it is proposed to begin the laying of the track of the Columbia and Port Deposit Railroad. The company has 100,000 tons of iron at Columbia, enough of iron to lay 56 miles of track. Messrs. Keaveny and Buck and Mr. Freeland will have finished their contracts by the first of May, when there will be nothing to do but lay the track from Octoraro creek to Columbia. It is proposed to place an iron bridge at Rowlandville, and for the Conowingo the bridge has been built for three years, and is lying at Pittsburg.

☞ The trustees of the Cincinnati Southern Railroad awarded a contract to the Roan Iron Company of Chattanooga, Tenn., for 1,000 tons of iron rails at $53 75 per ton.

☞ We see it stated that $6,700,000 of the bonds of the Cincinnati Southern Railway Company have been negotiated.

The Coal Trade.

The anthracite coal tonnage reported by the several coal carrying companies for the week ending on the 20th ult. is stated by the Philadelphia *Ledger* at 234,014 tons, and for the year to date 3,231,015 tons, against 4,110,561 tons, to corresponding date last year, showing a decrease of 849,546 tons. The bituminous tonnage for the week was 54,346 tons and for the year 402,749 tons, against 422,811 tons to corresponding time last year, a decrease of 20,062 tons. The total tonnage of both hard and soft coals reported amounted to 288,360 tons, and for the year to 3, 663,764 tons, against 4,533,372 tons to correspond ing time last year, a decrease in both kinds of 869,608 tons. These aggregates are subject to a deduction for so much coal as passes over more than one road, and thus is doubled in the above reported aggregates. The amount, however, is not very considerable, and does not change materially the relative production of the companies. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 60,-931 tons, and for the year 539,149 tons, of which 439,431 was coal and 99,718 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 27th ult. the receipts of coal were 1000 tons, the shipments 5000 tons, leaving but 16,500 tons on hand. In the Schuylkill and Lehigh regions production is very nearly suspended, the men holding out in their demands for wages on the same basis as that of last year. In a large part of the Wyoming coal region the wages proposed by the operators have been ac cepted, and thus the Northern and Eastern coal markets are kept pretty well supplied with fuel. At the iron furnaces in the eastern part of the State the scarcity of anthracite coal compels a steadily increased use of bituminous, some of which is brought from beyond Pittsburg and is used near the banks of the Delaware.

The Panama Isthmus Canal.

PROGRESS OF THE AMERICAN SURVEY UNDER CAPTAIN LULL.

[From the Panama Star, March 15.]

The canal surveying party, under Captain Lull, continues to prosecute their work with activity and energy. They have already reached Bujio, within fifteen miles of Aspinwall, on their way to the Atlantic. The survey to Panama, as we have already stated, is finished. The maps, &c., have been completed by Mr. J. B. Philip, the draughtsman of the expedition.

Captain Lull, accompanied by Mr. Menoscal and Dr. Mansfield, expects to leave Panama to day for the Chepo, to ascend that river and cross over the old San Blas route to the Atlantic, taking fresh observations of the line. It is expected the entire work of the survey will be completed before the middle of April.

PRESENT PROSPECTS OF THE GREAT PROJECT.

The following important information has been furnished us in reference to the river and coast surveys now being made on the Atlantic side of the isthmus, in view of the location of the ship canal route:—It has been found that the bar at the entrance of the Chagres River laid down by the English surveyors in 1840 is not now to be found. There is, however, a dangerous shoal on the mouth of the river on which the sea breaks heavily. Near the entrance to the Chagres and of shore on both sides shoals have formed on which the depth is two or three feet. On proceeding to the Chagres River itself a depth of eighteen feet was carried the length of nine miles and fifteen feet for fourteen miles above that. The river then widens and shoals to six feet, deepening again whence its channel is narrowed.

Aspinwall is considered by the surveying party, we are told, as being without doubt the proper terminus for the canal, and that it would only require a breakwater in the form of a quarter moon to afford complete shelter from the northers.

Boston, Revere Beach and Lynn Railroad.

Ground was broken in East Boston this morning for the construction of the new narrow gauge railroad from the Island Ward, through the property of the Boston Land Company and along the shore of Revere beach, to Lynn. Contracts have been made with Messrs. Gardner & Blaisdell for the construction of a tunnel under some of the streets in Boston, a distance of some four hundred feet, which is to be completed in forty days. The contract for building the bridge over the Saugus river and the trestle work across the flats between East Boston and Orient Hights, a distance of six thousand feet, has been given to Mr. T. P. Richardson of New York. Sleepers have been contracted for to come from Maine and North Carolina, and are now being loaded for this port. The equipment of the road is also being prepared for delivery under contract. The rails are being rolled at St. Albans, and will be delivered in four weeks' time. The locomotives for the road are being made at the Mason Locomotive Works, Taunton, and the passenger cars are also under contract. Passengers will be ferried to and from East Boston and the slip near Rowe's wharf in two steam ferry boats, one of which will be ready to put on by the first of June and the other shortly after.—*Boston Journal*, Mar. 29.

☞ Mr. Alvan S. Southworth Recording Secretary of the American Geographical Society, delivered an address on the 30th ult. before that body, in which he described the scenery and civilization of the new State of Colorado, saying that the State had 1,168 miles of railways. The public wealth has increased since 1871 from $20,000,-000 to $70,000,000. The gains from gold and silver mining annually amount to $5,000,000, from coal mining $1,000,000, from stock raising $2,000,-000, and from wool, lumber, and dairying $2 000,-000. The speaker also said that the new State contained 200,000 acres of land under cultivation and 3,000,000 acres of irrigable land, and that it possessed very rich iron and coal mines.

☞ A new style of duplex ticket has been introduced on the New York Central and Hudson River Railroad. The old tickets required the conductor to punch out the names of the stations at which the passenger boarded and left the train, the amount of fare paid and the day of the month. The tickets just put in use require no punching of amount of fare paid, or the date on which the ticket was issued, but simply the stations at which passengers get on and off the train. On trains going west a duplex with a blue centre is used, while on eastward bound trains the duplex has a red centre, the same as was first used.

☞ As soon as navigation opens, it is said, the Baxter Steam Canal boat Transportation Company will put on the canals a line of steam freight boats between Buffalo and New York. There will be enough boats put on to make up a daily line, if not oftener. These boats will have twice the speed of carriage by horse boats, and each steamer will carry the tonnage of a full railway freight train, and will deliver in quick time, say three or four days at most, in New York.

A Through Tunnel Line to the West.

The Directors of the Boston, Hoosac Tunnel and Western Railroad have entered into a contract with those of the Troy and Boston Railroad whereby through freight can be transported over the whole line on and after the first of April. The contract contains full provisions for drawing cars from North Adams and through the tunnel and over the Troy and Greenfield Railroad to Shelburne Falls, from which point the Fitchburg is now operating the road. The latter road, in conjunction with the Troy and Boston Railroad, has made arrangements with the New York Central Railroad whereby a line of freight cars, managed upon the same principle as the Red, White and Blue lines, is to be established to run from the West to Boston, and the Fitchburg Railroad has contracted for the building of its proportion of cars for the line. The Fitchburg Railroad is making arrangements also to accommodate the through freight by providing such necessary terminal facilities as will be at once required. They are about building a new freight house exclusively for Hoosac Tunnel freight, a thousand feet long and forty feet wide. The contracts for five hundred feet of this are already made, the work is to be commenced immediately, and the depot will be ready for occupation within six weeks. The easterly end of this depot will be within five hundred feet of the stone passenger station on Causeway street, and can be reached by the new causeway and draw from the Boston side. The Fitchburg Railroad Company has nearly completed surveys upon the line of the Vermont and Massachusetts, which they now control, for the straightening of the line and the laying of additional tracks, the execution of which, however, is contingent upon the signing by the Governor of the toll-gate bill regulating the management of the Tunnel.

☞ The first mortgage bondholders of the Monticello and Port Jervis Railway Company met in the offices of Lord, Day & Lord, No. 68 William street, on the 30th ult., and appointed Messrs. Henry Day, Adam Norrie, and S. Ashton De Peyster Trustees, with authority to bid in the road on foreclosure, and form a new corporation. An agreement was signed authorizing the committee to obtain the signatures of the absent bondholders to this proposition. Foreclosure proceedings are now under way, and will be completed in a fortnight.

☞ The Governor of Massachusetts has affixed his signature to the Hoosac Tunnel bill which thus becomes a law. Its opponents claim that the bill, which establishes a corporation under the control of five directors appointed by the Governor and provides for the completion of the Troy and Greenfield Road, west, is faulty, and will prove inoperative, entailing a still further outlay of millions by the State without securing an equivalent advantage. The result, however, is looked upon as a triumph of the Fitchburg Railroad and its connecting branches west.

☞ The Tehuantepec Railway, the completion of which is now in contemplation, runs from Aspinwall to Panama across Mexico, and, when fully constructed, will shorten the time of traveling from New York to San Francisco by six or seven days. General Dodge, the chief engineer, has been preparing plans and estimates of the work, and he pronounces the project entirely feasible and likely to prove a great financial success.

Rockford, Rock Island and St. Louis R. R.

Referring to the proposed change of gauge of this road the Burlington Hawkeye says:

The country traversed by the road is as fertile and thickly populated as any other portion of the State, and has large and valuable coal fields. The wisdom of the originators of the line should not be criticised by the painful results of the enterprise. The route has many local advantages, and if the road had been honestly built and judiciously managed, it would be a paying road to day. The best thing now is to wind up its affairs by a compromise of contending interests, cease all litigation, dispose of its rolling stock, and change it into a narrow gauge road. While this would not reduce its carrying capacity, it would very materially decrease operating expenses, and probably enable the Company to pay a low rate of interest on its burdensome debt. The road bed and track are in a bad condition; to thoroughly repair them will require a large amount. The cost of these repairs would be materially reduced if the change of gauge was made; and the proceeds of the sale of its present heavy rolling stock, if not made at a forced sale, would nearly, if not quite, equip the road with narrow gauge locomotives and cars. The difficulties arising in the transfer of freight from the narrow to the broad gauge roads are mainly imaginary. Much of the passenger traffic would also suffer no inconvenience. If the change of gauge is made the road will have, in a few years, other narrow gauge connections, and by laying a third rail on the Toledo, Peoria and Burlington Railroad, a profitable connection could be made with our Burlington and North Western narrow gauge. The latter, if built, will undoubtedly tap other narrow gauge roads in the State connecting with Des Moines and other interior points.

☞ The Philadelphia, Wilmington, and Baltimore Railroad Company has decided to construct at once thirteen miles of track from Chase's station to Aberdeen, which will give the company a double track from Baltimore to Chester, Pa, there being three tracks from Chester to Philadelphia. Steel rails will be used, all the tracks of the company being entirely of steel.

THE WHARTON

Safety Railroad Switch.

☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Northern Central Railway.

At the regular monthly meeting of the directors of the Northern Central Railway Co., held in Baltimore on the 27th ult., Mr. A. J. Cassatt, vice president, submitted to the directors the agreement arrived at with the Canton Company at a meeting held on the 23d, relative to tolls over the Union Railroad to tide water, and for the erection by the Northern Central Railroad Company, of a grain elevator at Canton, a coal pier of six hundred feet and a warehouse sixty by two hundred feet. The terms of the agreement were accepted, and Mr. Cassatt, in conjunction with the counsel for the company, was directed to prepare and execute the necessary papers in the matter. It is expected that proposals for the proposed improvements at Canton will be published at an early date, and the work commenced as soon as practicable.

☞ Grading contractors on the Southern Pacific Railroad report that they now have thirty miles of road graded, and will have the remaining twenty, which will complete the work to San Gorgonio Pass, by the 15th of April.

LANSDELL'S

Patent Steam Railroad Water Station.

DISPENSES WITH Tanks, Tank Houses, Stationary Power, AND Attendance.

CAN NOT FREEZE IN ANY CLIMATE, UNDER ANY CIRCUMSTANCES.

COSTS LESS

Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

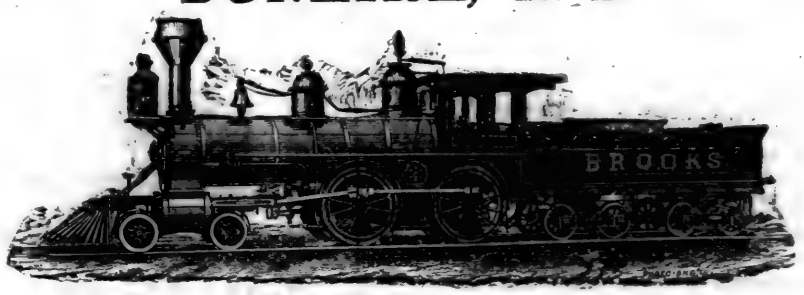
The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.



HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

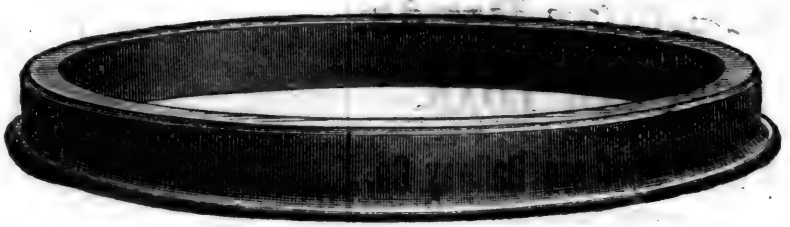
New Gauge Law in North Carolina.

The following is a copy of the bill which passed both branches of the North Carolina Legislature on the 15th ult. in relation to the change of gauge of the North Carolina Railroad:

AN ACT IN RELATION TO CHANGING GAUGES OF RAILROADS.

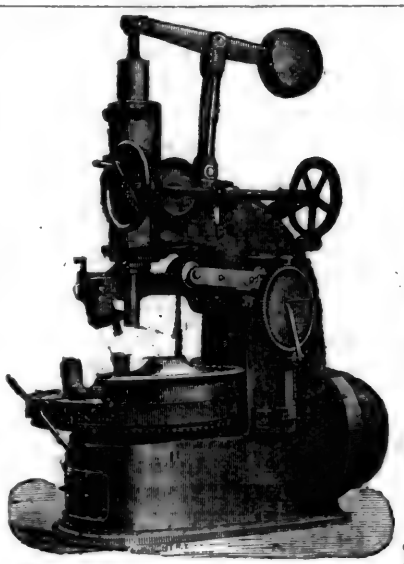
Whereas, by acts of the General Assembly of North Carolina both the Atlantic and North Carolina Railroad and Western North Carolina Railroad were compelled to adopt the gauge of the North Carolina Railroad—4 feet 8½ inches; and whereas any change of gauge of said North Carolina Railroad would seriously injure the two railroads before mentioned, as well as all other railroads of the same gauge connecting with them; and whereas 4 feet 8½ inches has been adopted generally as the North Carolina gauge; therefore

Section 1. The General Assembly of North Carolina do enact, That no railroad now in this State with the gauge of 4 feet 8½ inches shall change the same, and all railroads hereafter constructed in this State shall have the same gauge—4 feet 8½ inches.



Section 2. The penalty for constructing or changing the gauge of any railroad contrary to the provisions of the preceding section shall be $50 per day per mile for every day such railroad is in use, and in addition thereto the president and directors, secretary and treasurer, or any officer, servant or employee, shall be guilty of a misdemeanor, and shall be fined not less than $500 nor more than $1,000, and imprisonment not less than three nor more than six months; and it shall be the duty of the Governor of this State to cause to be instituted immediate proceedings for the recovery of such penalty and the infliction of such punishment in case of any violation of this act: Provided, This act shall not apply to any narrow-gauge railroad hereafter chartered, or to the Spartanburg and Asheville Railroad, the Rabarn Gap Short Line Railroad, the Tennessee River Railroad, or the Georgia and North Carolina Railroad.

Section 3. This act shall take effect from and after its ratification.



In General Assembly read three times and ratified this 15th of March, 1875.

☞ It is stated that the Chancellor of New Jersey has granted a permanent injunction, asked for by the Camden and Atlantic Railroad Company, restraining the Atlantic City Horse Car Company from laying tracks on Atlantic avenue, in that city, and giving the sole right of way on that avenue to the former company by virtue of its original charter.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

New York, Saturday, April 10, 1875.

Resuscitation of Railway Projects.

We notice in several quarters a revival of life in railroad construction and operation, which may be taken as a sign of the better times to come. We may mention a few of them:

First in order, perhaps, is to be noted the positive steps of a combination whose object is to give the Baltimore and Ohio line an entrance to (or, more properly, an exit from) this city. It is now asserted, with some plausibility, that arrangements have been made whereby the New Jersey Southern Railroad is somehow to be made available for the passage of the Baltimore and Ohio through cars to New York. Whether the Sandy Hook terminus is to be used, or the Long Branch Extension of the Central Railroad of New Jersey, is not yet apparent. This arrangement can hardly be more than temporary; for within a year the Bound Brook and Delaware Extension of the Central of New Jersey will admit the New York trains into Philadelphia. This is an important line, and a large force of workmen is now engaged upon it. Ultimately, we suppose, Baltimore also will be reached over this line.

At the same time a new road is under active construction from Easton to Amboy, at the mouth of the Raritan, which will furnish a third line from the coal regions to New York, and will be in competition with the existing two for that traffic.

The New Jersey Midland, and New York and Oswego Midland Railroads, it is thought, will be re-organized and put in proper running order at an early day. The Delaware and Hudson Company have temporary use of a portion of the latter, at present, but are ready to surrender it at a day's notice. It is generally supposed this line has never had a fair chance to develop its earning power.

The Chicago and Canada Southern, of which some 60 miles are built, and which is under substantially the same management as the Canada Southern (completed) is understood to be on the point of resuming its construction, which will open up another competing line to Chicago. There are already five through lines to the East from that city.

The gauge of the railroad between Danville, Va., and Charlotte, North Carolina, has been changed so as to admit of continuous transit from Richmond or Washington, to New Orleans.

The city of Richmond is to come to the assistance of the Chesapeake and Ohio Company, by advancing a million of dollars to the western connections of the road with Louisville and Cincinnati, which were interrupted in 1873. This will result in closing the gap between Huntington and Lexington, of which about 95 miles are unbuilt, and give to Richmond a very direct and important line to Louisville, Nashville, Memphis, Cincinnati and St. Louis.

The Cincinnati Southern, as it is called, is making steady headway from Nicholasville south, and it is reported 150 miles of iron are to be laid this year.

The Cincinnati papers announce, also, that the Kentucky and Great Eastern Railway Company, has just been re-organized. In the new organization certain parties belonging to the Cincinnati, Indianapolis, Lafayette and Chicago Railroad are elected. The construction of the line between Covington and the Big Sandy river is to be undertaken at once, contracts having been signed on the 30th ult. The distance is 146 miles; and the line will connect with the Chesapeake and Ohio Railroad at the Eastern terminus, and with the Louisville, Cincinnati and Lexington at the western terminus, as well as with the Chicago and St. Louis Railroad.

The route between Cincinnati and Chicago, via Lafayette, is the main thoroughfare between those cities, and is operated as a through line, and was, until recently, a feeder of the Baltimore and Ohio. The latter road having established an independent line of its own to Chicago, it is to be presumed the Lafayette and Cincinnati Company is seeking a proper outlet to the seaboard. The distance from Chicago to tide-water by this line will be 888 miles, or about the same as by the Baltimore and Ohio line, though by far easier grades.

There has been for some time an effort to build also a line from Cincinnati to Portsmouth and the West Virginia coal fields on the north, or Ohio, bank of the river to which the city of Cincinnati voted $1,250,000 as aid, which was afterwards declared invalid. It now looks as if the road on the Southern bank will be first built; in which case, the Portsmouth and Ironton Railroads, and the iron industries connected therewith, will seek a connection with the Kentucky and Great Eastern by a bridge over the Ohio at Portsmouth.

A consolidation of the interests of the Atlantic and Pacific (lessor of the Missouri Pacific) and the Missouri, Kansas and Texas lines is talked of. Should the former take the last named under its protection it will be a victory for St. Louis as against Chicago, this road having one of its forks terminating at Hannibal, on the Mississippi, above St. Louis.

Further West there is nothing very notice able in the way of new construction till we reach Colorado, where there are narrow gauge lines being extended to mining regions and to New Mexico.

It is believed the Texas and Pacific will succeed in obtaining some aid from Congress next season, when its line will be once more pushed across Northern Texas.

In California railroad building is active. Immigrants are pouring in rapidly, the harvests promise to be bounteous, and trade is flourishing. The Southern Pacific is the principal corporation now building, of which about 400 miles, including branches, are now in use, and it is said 100 miles additional will be added to the main line during the year.

A survey of the entire railroad field shows a decided re-animation in railroad interests; and we are glad to hear that the rail rolling mills and locomotive and car works also report increased orders.

Louisville and Nashville Railroad.

The following is a condensed statement of the earnings of the Main Stem, Branches and Leased roads for the year ending June 30, 1874:

	Memphis Line.	Knoxville Branch.	Main Stem.
Passengers.	$497,976 32	$92,823 76	$610,174 01

		$1,469,802 40

The funded debt, as per last report, was $14,820,500; in the present report it is stated at $14,767,000. During the year $191,000 of Consolidated Mortgage bonds were issued; and there were redeemed: of Main Stem bonds, $150,000; Memphis Branch bonds, $49,000; Memphis and Ohio Railroad bonds, $4,500; and paid to sinking fund in Consolidated Mortgage bonds, $41,000—making a total of $244,500, and showing a reduction in the bonded debt of $53,500. The report says:

The profit and loss account, it will be observed, has received during the year a credit of $699,396 02, leaving to the credit of that account $2,481,032 94. In view of our guarantee of the bonds of the South and North Alabama Railroad Company, which will not probably be self-sustaining for two or three years to come, and the further fact that some of our assets are not worth par value, it is deemed prudent to hold this balance to cover contingencies.

For a proper understanding of last year's operation it is necessary to refer to the causes which have during that time materially influenced its results.

The beginning of the fiscal year found the cholera in an epidemic form at Nashville, Memphis, and many other places along the line of the road. Before the effects of this disease upon the business of the road had ceased to be felt the yellow fever broke out at Memphis and Montgomery, the southern terminal points of our roads, and continued until the end of October last.

In September came the panic, resulting in a general stagnation of business, from which the country has not yet recovered, and from which this road, as well as all others, has seriously suffered.

The Ohio and Mississippi rivers have been navigable during the whole of the past year—a very unusual occurrence. This has had the effect, not only of reducing the freight business, but also the compensation received for freight in competition with river transportation.

The great floods in the spring of this year submerged a part of the Memphis Line for a period of three weeks—April 15th to May 5th—and a storm blew down the temporary work used for the erection of a new drawbridge over the Tennessee River. From both these causes the earnings of the Memphis Line have been considerably reduced.

Some of our connecting roads suffered still more by these unusual floods, and did not recover their roads until July, which had its indirect influence upon the business of this road.

The cotton-crop in South Alabama was unusually short, and by reason of this the business of the Montgomery Line suffered considerably.

It would appear difficult to imagine more events occuring in any one year of so unfavorable a character as these mentioned. It is still more unfortunate that they should have happened at the time when the company had about completed the extension of its line by lease, and the construction of a new road, and had invested a large amount of capital in the increase of its facilities for transportation on the old and the new roads.

The constant and steady increase in the volume of the business at the rate of from twenty to thirty five per cent annually made it necessary, in the judgment of the directors, to make provision for a like increase in the future.

The following statement shows the increase of tonnage on the Main Stem during the past seven years:

	Tons carried one mile.		
1867-68	25,190,442		
1868-69	33,809,419	Increase, 34.2	per cent.
1869-70	46,437,658	" 37.3	"
1870-71	58,671,965	" 26.3	"
1871-72	71,212,171	" 21.4	"
1872-73	86,477,812	" 21.4	"
1873-74	80,227,455	Decrease, 7.2	"

Instead of an expected increase in 1873-4 of a least 20 per cent, there has been, owing to the causes mentioned, a decrease of seven per cent.

The gross earnings of the roads owned and leased by the company, 738 miles in length, were,

In 1872-3	$5,622,423 64
In 1873-4	4,949,420 02
Reduction in gross earnings, 12 p. c.	$673,003 62

It is gratifying to report, with so large a decrease in the gross earnings of the road, a comparatively small decrease in its net earnings.

The net earnings of the same roads were,

In 1872-3	$1,525,289 54
In 1873-4	1,469,802 40
Decrease in net earnings	$55,487 14

Including the operation of the South and North Alabama Railroad, in which the Louisville and Nashville Railroad Company owns a majority of stock, the comparison with the previous year's operation is still more favorable.

The gross earnings of the Louisville and Nashville and the South and North Alabama Railroads (920 miles) were,

In 1872-3	$6,106,051 84
In 1873-4	5,510,695 45
Decrease, 9.7 per cent	$595,356 39

The net earnings of these roads were,

In 1872-3*	$1,484,047 37
In 1873-4	1,565,382 34
Increase in net earnings, 5.5 p. c...	$81,334 97

Taking therefore the results of the operation of all the roads owned, leased, and controlled by the Louisville and Nashville Railroad, we have a decrease in the gross earnings of 9.7 per cent, and an increase in net earnings of 5.5 per cent.

These favorable results have been secured without allowing the property of the company to deteriorate; on the contrary, considerable improvement has been made in its condition.

The expenditures on account of repairs and replacing iron and ties on the Main Stem have been greater during the past than in any former year, and the rolling stock of the company has been fully kept up.

The causes that have made it possible to effect so great a saving in the operating expenses must be found in the large but judicious expenditures of previous years—expenditures made with a view to future economy.

The Nashville and Decatur Railroad came to us in a worn out and dilapidated condition. The South and North Alabama Railroad was still uncompleted; there was not sufficient rolling stock of the proper kind on the roads, and other facilities were needed to insure a reduced cost of operation.

There has also been a reduction of ten per cent in the salaries of all officers and in the wages of the employes, and this, with the reduced cost of material, has greatly aided in bringing about this favorable result.

The following is a statement of the earnings and expenses of the several roads:

MAIN STEM AND BRANCHES (605.75 miles).

Gross earnings in 1873-4.	$4,262,543 92
Operating expenses	2,943,360 30
Net earnings	$1,319,183 62

GLASGOW BRANCH (Leased).

The earnings of the Glasgow Branch were	$18,930 10
Operating expenses	12,710 35
Net earnings in 1873-4.	$6,219 75

* The South and North Alabama Railroad was operated only nine months in 1872-3; the reduction in gross earnings for the corresponding nine months in 1873-4 were $59,067 68.

NASHVILLE AND DECATUR RAILROAD (Leased).

The gross earnings were	$667,946 00
Operating expenses	523,546 97
Net earnings	$144,399 03
The net earnings last year were	109,158 49
Increase in net earnings	$35,240 54

The condition of this road has been greatly improved, so that hereafter it can be worked with still greater economy.

According to the lease this company assumed to pay the interest on an indebtedness of $2,450,000, which, during the last year, has amounted to $188,988 56
The net earnings were 144,399 03

Showing a deficit of $44,589 53

which has been charged to the profit and loss account, together with $101,797 00, the loss incurred in the previous year.

The Louisville and Nashville Railroad Company has paid, on account of this road, during the past year, toward Equidating its indebtedness, the sum of $19,972 39
In the previous year there was paid on the same account 286,848 59

Total $306,820 08

for which the Louisville and Nashville Railroad, according to the terms of the lease, receives stock in the Nashville and Decatur Railroad Company.

During the past year the amount expended for improvements, and for which this company is to be reimbursed at the end of the lease, was. $79,383 75
In the former year 143,136 85

Total $222 520 60
This added to 306,820 98

Shows the total investment in the N. & D. R. R. Co. to be $528,841 58

which amount is embraced in the assets, as per Table No. 1 of the Secretary's report.

SOUTH AND NORTH ALABAMA RAILROAD.

The Louisville and Nashville Railroad Company owns in this road a majority of the stock, and as a stockholder is greatly interested in the results of its operation.

The gross earnings for twelve months

In 1873-4 were	$561,275 43
Operating expenses	465,695 49
Net earnings	$95,579 94
The interest paid on the bonded debt of the company	454,393 34
Deducting net earnings, as above, leaves	$358,813 40
Amount advanced for construction	92,926 31
Other advances made	116,522 40
Total amount advanced	$568,262 11

The assets of the South and North Alabama Railroad Company consist in the land grant of about 450,000 acres of valuable agricultural and mineral lands, the three per cent fund, and the interest, amounting annually to $51,240 gold, on the bonds issued by the State of Alabama under what is known as the four thousand dollar per mile law—a bonus paid to the road in consideration of the release of the state from indorsement on the South and North Alabama Railroad bonds.

During the year there has been sold by the South and North Alabama Railroad some $26,000 worth of land. All the assets of the South and North Alabama Railroad, although not available immediately to a large extent, are believed to be sufficient to meet its indebtedness to this company and secure it from ultimate loss.

The South and North Alabama Railroad is now in excellent condition, and can be operated very economically.

The prostration of the iron industries has greatly retarded the development of the rich mineral resources along the line of this road, which had been greatly relied upon for supplying it with a profitable business. The ore, coal, and limestone are found in so close proximity and of so superior a quality, rendering the manufacture of iron cheaper there than in any other section of the country, that no doubt can be entertained that as soon as the industries and commerce of this country have been restored to their former prosperity the development of these mineral resources, which even now is slowly progressing, will receive a new impetus and the road will become self-sustaining.

The great and peculiar value of this road to the property owned by this company consists in the fact that it will furnish our other roads with freight to be transported in the direction in which our cars now go empty, and then, even at the cheap rates at which coal, iron, and lumber are usually carried, we would derive therefrom a large revenue at a very little additional expense.

The Vice president and General Superintendent estimates the amount of net revenue that this company, including the South and North Alabama Railroad, could obtain, if its north bound empty cars were filled with freight at the rate of one cent per ton per mile, at $200,000 per annum. It would require not more than two hundred tons of freight daily, or twenty carloads, to reach this result, the securing of which, with a proper development of the coal and iron, and timber interests, would be reasonable to expect. And this view of the case suggests that every effort should be made by the South and North Alabama Railroad Company, as well as by the Louisville and Nashville Railroad Company, toward the building up of the iron and mineral industries of that road.

Directors.—For one year: B. F. Guthrie, Geo. H. Hutchings, P. J. Potter. For two years: G. A. Washington, Wm. M. Farrington, W. H. Smith. For three years: W. B. Caldwell, H. Victor Newcomb, E. D. Standiford.

Secretary.—WILLIS RANNEY.

Assistant Secretary.—A. M. QUARRIER.

Vice Pres't and Gen'l Sup't.—ALBERT FINK.

The New York Central Scrip Dividend.

In the case of Bailey, Collector, vs. The New York Central and Hudson River Railroad Company—error to the Circuit Court for the Northern District of New York—the United States Supreme Court decides against the company, holding that the interest certificates issued by the New York Central Railroad Company, before its consolidation with the Hudson River Railroad, payable at the pleasure of the company are properly taxable under the act of 1866, which provides that the dividends declared by a railroad company in scrip or money due and payable to their stockholders as part of the earnings, profits, income or gains of such company, and all profits of such company carried to the account of any fund or used for construction are proper objects of taxation. By the terms of the act a dividend in scrip declared by such a company as a part of its earnings is subject to the tax whenever or wherever or to whatsoever party or person the same shall be payable. What is required to be due is the scrip and not the funds, money or proceeds which it represents. Beyond doubt such scrip becomes operative and due within the meaning of the Revenue act when it is unconditionally declared, without containing any provision postponing its effect. Reversed. Mr. Justice Clifford delivered the opinion.

☞ The Ohio State Journal says that Columbus has subscribed $70,000 of its quota of $120,000 of the Scioto Valley Railroad subscription.

Further West there is nothing very noticeable in the way of new construction till we reach Colorado, where there are narrow gauge lines being extended to mining regions and to New Mexico.

It is believed the Texas and Pacific will succeed in obtaining some aid from Congress next season, when its line will be once more pushed across Northern Texas.

In California railroad building is active. Immigrants are pouring in rapidly, the harvests promise to be bounteous, and trade is flourishing. The Southern Pacific is the principal corporation now building, of which about 400 miles, including branches, are now in use, and it is said 100 miles additional will be added to the main line during the year.

A survey of the entire railroad field shows a decided re-animation in railroad interests; and we are glad to hear that the rail rolling mills and locomotive and car works also report increased orders.

Louisville and Nashville Railroad.

The following is a condensed statement of the earnings of the Main Stem, Branches and Leased roads for the year ending June 30, 1874:

	Memphis Line.	Knoxville Branch.	Main Stem.
Passengers	$497,976 32	$92,823 76	$610,174 01

Nashv. and Decatur R.R.	144,399 03	
Glasgow Railroad	6,219 75	
		$1,469,802 40

The funded debt, as per last report, was $14,820,500; in the present report it is stated at $14,767,000. During the year $191,000 of Consolidated Mortgage bonds were issued; and there were redeemed: of Main Stem bonds, $150,000; Memphis Branch bonds, $49,000; Memphis and Ohio Railroad bonds, $4,500; and paid to sinking fund in Consolidated Mortgage bonds, $41,000—making a total of $244,500, and showing a reduction in the bonded debt of $58,500. The report says:

The profit and loss account, it will be observed, has received during the year a credit of $699,396 02, leaving to the credit of that account $2,481,032 94. In view of our guarantee of the bonds of the South and North Alabama Railroad Company, which will not probably be self-sustaining for two or three years to come, and the further fact that some of our assets are not worth par value, it is deemed prudent to hold this balance to cover contingencies.

For a proper understanding of last year's operation it is necessary to refer to the causes which have during that time materially influenced its results.

The beginning of the fiscal year found the cholera in an epidemic form at Nashville, Memphis, and many other places along the line of the road. Before the effects of this disease upon the business of the road had ceased to be felt the yellow fever broke out at Memphis and Montgomery, the southern terminal points of our roads, and continued until the end of October last.

In September came the panic, resulting in a general stagnation of business, from which the country has not yet recovered, and from which this road, as well as all others, has seriously suffered.

The Ohio and Mississippi rivers have been navigable during the whole of the past year—a very unusual occurrence. This has had the effect, not only of reducing the freight business, but also the compensation received for freight in competition with river transportation.

The great floods in the spring of this year submerged a part of the Memphis Line for a period of three weeks—April 15th to May 5th—and a storm blew down the temporary work used for the erection of a new drawbridge over the Tennessee River. From both these causes the earnings of the Memphis Line have been considerably reduced.

Some of our connecting roads suffered still more by these unusual floods, and did not recover their roads until July, which had its indirect influence upon the business of this road.

The cotton-crop in South Alabama was unusually short, and by reason of this the business of the Montgomery Line suffered considerably.

It would appear difficult to imagine more events occuring in any one year of so unfavorable a character as these mentioned. It is still more unfortunate that they should have happened at the time when the company had about completed the extension of its line by lease, and the construction of a new road, and had invested a large amount of capital in the increase of its facilities for transportation on the old and the new roads.

The constant and steady increase in the volume of the business at the rate of from twenty to thirty five per cent annually made it necessary, in the judgment of the directors, to make provision for a like increase in the future.

The following statement shows the increase of tonnage on the Main Stem during the past seven years:

	Tons carried one mile.		
1867-68	25,190,442		
1868-69	33,809,419	Increase, 34.2 per cent.	
1869-70	46,437,658	" 37.3	"
1870-71	58,671,965	" 26.3	"
1871-72	71,212,171	" 21.4	"
1872-73	86,477,812	" 21.4	"
1873-74	80,227,455	Decrease, 7.2	"

Instead of an expected increase in 1873-4 of at least 20 per cent, there has been, owing to the causes mentioned, a decrease of seven per cent.

The gross earnings of the roads owned and leased by the company, 788 miles in length, were,

In 1872-3	$5,622,423 64
In 1873-4	4,949,420 02
Reduction in gross earnings, 12 p. c.	$673,003 62

It is gratifying to report, with so large a decrease in the gross earnings of the road, a comparatively small decrease in its net earnings.

The net earnings of the same roads were,

In 1872-3	$1,525,289 54
In 1873-4	1,469,802 40
Decrease in net earnings	$55,487 14

Including the operation of the South and North Alabama Railroad, in which the Louisville and Nashville Railroad Company owns a majority of stock, the comparison with the previous year's operation is still more favorable.

The gross earnings of the Louisville and Nashville and the South and North Alabama Railroads (920 miles) were,

In 1872-3	$6,106,051 84
In 1873-4	5,510,695 45
Decrease, 9.7 per cent	$595,356 39

The net earnings of these roads were,

In 1872-3*	$1,484,047 37
In 1873-4	1,565,882 34
Increase in net earnings, 5.5 p. c.	$81,334 97

Taking therefore the results of the operation of all the roads owned, leased, and controlled by the Louisville and Nashville Railroad, we have a decrease in the gross earnings of 9.7 per cent, and an increase in net earnings of 5.5 per cent.

These favorable results have been secured without allowing the property of the company to deteriorate; on the contrary, considerable improvement has been made in its condition.

The expenditures on account of repairs and replacing iron and ties on the Main Stem have been greater during the past than in any former year, and the rolling stock of the company has been fully kept up.

The causes that have made it possible to effect so great a saving in the operating expenses must be found in the large but judicious expenditures of previous years—expenditures made with a view to future economy.

The Nashville and Decatur Railroad came to us in a worn out and dilapidated condition. The South and North Alabama Railroad was still uncompleted; there was not sufficient rolling stock of the proper kind on the roads, and other facilities were needed to insure a reduced cost of operation.

There has also been a reduction of ten per cent in the salaries of all officers and in the wages of the employes, and this, with the reduced cost of material, has greatly aided in bringing about this favorable result.

The following is a statement of the earnings and expenses of the several roads:

MAIN STEM AND BRANCHES (605.75 miles).

Gross earnings in 1873-4	$4,262,543 92
Operating expenses	2,943,360 30
Net earnings	$1,319,183 62

GLASGOW BRANCH (Leased).

The earnings of the Glasgow Branch were	$18,930 10
Operating expenses	12,710 35
Net earnings in 1873-4	$6,219 75

* The South and North Alabama Railroad was operated only nine months in 1872-3; the reduction in gross earnings for the corresponding nine months in 1873-4 were $59,067 66.

NASHVILLE AND DECATUR RAILROAD (Leased).

The gross earnings were	$667,946 00
Operating expenses	523,546 97
Net earnings	$144,399 03
The net earnings last year were	109,158 49
Increase in net earnings	$35,240 54

The condition of this road has been greatly improved, so that hereafter it can be worked with still greater economy.

According to the lease this company assumed to pay the interest on an indebtedness of $2,450,000, which, during the last year, has amounted to $188,988 56
The net earnings were 144,399 03

Showing a deficit of $44,589 53

which has been charged to the profit and loss account, together with $101,797 00, the loss incurred in the previous year.

The Louisville and Nashville Railroad Company has paid, on account of this road, during the past year, toward liquidating its indebtedness, the sum of $19,972 39
In the previous year there was paid on the same account 286,848 59

Total $306,820 08

for which the Louisville and Nashville Railroad, according to the terms of the lease, receives stock in the Nashville and Decatur Railroad Company.

During the past year the amount expended for improvements, and for which this company is to be reimbursed at the end of the lease, was. $79,388 76
In the former year 143,136 85

Total $222 520 60
This added to 306,820 98

Shows the total investment in the N. & D. R. R. Co. to be $528,841 58

which amount is embraced in the assets, as per Table No. 1 of the Secretary's report.

SOUTH AND NORTH ALABAMA RAILROAD.

The Louisville and Nashville Railroad Company owns in this road a majority of the stock, and as a stockholder is greatly interested in the results of its operation.

The gross earnings for twelve months

In 1873-4 were	$561,275 43
Operating expenses	465,695 49
Net earnings	$95,579 94
The interest paid on the bonded debt of the company	454,893 34
Deducting net earnings, as above, leaves	$358,813 40
Amount advanced for construction	92,926 81
Other advances made	116,522 40
Total amount advanced	$568,262 11

The assets of the South and North Alabama Railroad Company consist in the land grant of about 450,000 acres of valuable agricultural and mineral lands, the three per cent fund, and the interest, amounting annually to $51,240 gold, on the bonds issued by the State of Alabama under what is known as the four thousand dollar per mile law—a bonus paid to the road in consideration of the release of the state from indorsement on the South and North Alabama Railroad bonds.

During the year there has been sold by the South and North Alabama Railroad some $26,000 worth of land. All the assets of the South and North Alabama Railroad, although not available immediately to a large extent, are believed to be sufficient to meet its indebtedness to this company and secure it from ultimate loss.

The South and North Alabama Railroad is now in excellent condition, and can be operated very economically.

The prostration of the iron industries has greatly retarded the development of the rich mineral resources along the line of this road, which had been greatly relied upon for supplying it with a profitable business. The ore, coal, and limestone are found in so close proximity and of so superior a quality, rendering the manufacture of iron cheaper there than in any other section of the country, that no doubt can be entertained that as soon as the industries and commerce of this country have been restored to their former prosperity the development of these mineral resources, which even now is slowly progressing, will receive a new impetus and the road will become self-sustaining.

The great and peculiar value of this road to the property owned by this company consists in the fact that it will furnish our other roads with freight to be transported in the direction in which our cars now go empty, and then, even at the cheap rates at which coal, iron, and lumber are usually carried, we would derive therefrom a large revenue at a very little additional expense.

The Vice president and General Superintendent estimates the amount of net revenue that this company, including the South and North Alabama Railroad, could obtain, if its north bound empty cars were filled with freight at the rate of one cent per ton per mile, at $200,000 per annum. It would require not more than two hundred tons of freight daily, or twenty carloads, to reach this result, the securing of which, with a proper development of the coal and iron, and lumber interests, would be reasonable to expect. And this view of the case suggests that every effort should be made by the South and North Alabama Railroad Company, as well as by the Louisville and Nashville Railroad Company, toward the building up of the iron and mineral industries of that road.

President.—THOMAS J. MARTIN.

Vice President.—E. D. STANDIFORD.

Directors.—For one year: B. F. Guthrie, Geo. H. Hutchings, P. J. Potter. For two years: G. A. Washington, Wm. M. Farrington, W. H. Smith. For three years: W. B. Caldwell, H. Victor Newcomb, E. D. Standiford.

Secretary.—WILLIS RANNEY.

Assistant Secretary.—A. M. QUARRIER.

Vice Pres't and Gen'l Sup't.—ALBERT FINK.

The New York Central Scrip Dividend.

In the case of Bailey, Collector, vs. The New York Central and Hudson River Railroad Company—error to the Circuit Court for the Northern District of New York—the United States Supreme Court decides against the company, holding that the interest certificates issued by the New York Central Railroad Company, before its consolidation with the Hudson River Railroad, payable at the pleasure of the company are properly taxable under the act of 1866, which provides that the dividends declared by a railroad company in scrip or money due and payable to their stockholders as part of the earnings, profits, income or gains of such company, and all profits of such company carried to the account of any fund or used for construction are proper objects of taxation. By the terms of the act a dividend in scrip declared by such a company as a part of its earnings is subject to the tax whenever or wherever or to whatsoever party or person the same shall be payable. What is required to be due is the scrip and not the funds, money or proceeds which it represents. Beyond doubt such scrip becomes operative and due within the meaning of the Revenue act when it is unconditionally declared, without containing any provision postponing its effect. Reversed. Mr. Justice Clifford delivered the opinion.

☞ The Ohio State Journal says that Columbus has subscribed $70,000 of its quota of $120,000 of the Scioto Valley Railroad subscription.

The Law Telegraph Company.

The Law Telegraph Company, an organization worked on the same principle as the American District Telegraph, went into operation on the 6th inst. The company was organized for the purpose of providing lawyers with messengers and an easy means of communication between their offices and all the principal banking institutions, courts, and county offices in this City and Brooklyn. The company have made arrangements with the different telegraph companies throughout the country and Europe. Law stenographers, telegraph operators, and a large corps of messengers will be employed by the company to supply the the needs of their patrons. The central office of the company is at No. 145 Fulton street, and branch offices have been established in most of the lawyers' offices in the City. The following are the officers : Homer A. Nelson, President ; Daniel B. Childs, Vice President ; Charles T. Chester, Engineer ; B. Drake Smith, Secretary ; William A. Childs, Treasurer and Manager.

Pork Packing in the West.

The *Cincinnati Price Current*, of March 26th, publishes its annual statement of Pork Packing in the Western States, from which we make the following extracts :

Total number of Hogs packed in the West, by States, during the past Winter season, compared with 1873-74 :

	Total No. 1874 75.	Total No. 1873-74
Ohio	870,971	906,804
Indiana	666,575	715,703

1861-62	2,893,666	1874-75	5,566,226

The Coal Trade.

The anthracite coal tonnage reported by the several coal carrying companies for the week ending on the 27th ult. is stated by the Philadelphia *Ledger* at 222,411 tons, and for the year to date at 3,483,430 tons, against 4,568,665 tons, to corresponding date last year, showing a decrease of 1,085,235 tons. The bituminous tonnage for the week was 57,532 tons and for the year 478,397 tons, against 442,302 tons to corresponding time last year, an increase of 36,095 tons. The total tonnage of both hard and soft coals reported amounted to 279,943 tons, and for the year to 3,961,527 tons, against 5,010,967 tons to corresponding time last year, a decrease in both kinds of 1,049,140 tons. These aggregates are subject to a deduction for so much coal as passes over more than one road, and thus is doubled in the above reported aggregates. The amount, however, is not very considerable, and does not change materially the relative tonnage of the companies. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 77,984 tons, and for the year 617,083 tons, of which 504,353 was coal and 112,730 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 2d instant the receipts of coal were 1500 tons, the shipments 13,000 tons, leaving but 4500 tons on hand. The *Ledger* adds :

As we can report no adjustment of the differences between the coal operators and the working people at the mines, we of course have no change to report in the coal trade, which remains almost precisely the same as reported a week ago. The lawless turbulence in the Schuylkill and Lehigh coal regions reported daily in our news columns shows no signs of abatement. There is no coal mining in either region of any consequence, and the supply is necessarily becoming very limited. What, however, was stocked over of last year's coal, and what is being produced in part of the Wyoming and in the Shamokin regions, has thus far served to prevent a coal famine or famine prices of coal. As the demand for current consumption continues light a close economy in the use of anthracite coal and an increased use of bituminous coal have kept prices nearly steady. Special kinds of coal and of particular sizes may have been advanced in some few instances, but the general market is unchanged in supply and demand and also in prices. The associated carrying companies, although they have issued no scale of prices for the month of April, adhere, so far as we can learn, to the programme as originally announced. We see the intimation sometimes thrown out that the present suspension of coal production is with the connivance and encouragement of the coal operators, with the view of affording opportunity to entirely clear the market of last year's over supply. It is possible that strikes and suspensions of production may, some time in the past, have been characterized by some such collusion and juggle, but we are quite confident that nothing of the sort enters into the present dispute and unsettled condition of the anthracite trade. In the bituminous coal regions there are unusual efforts making to press the largest amount of that coal possible into the market.

Cincinnati Southern Railroad.

The work of constructing the great bridge of the Cincinnati Southern Railroad over the Ohio river was commenced on the 22d ult. In a brief address on the occasion, the attorney of the company gave an interesting sketch of the history of the project, which dates as far back as 1840—35 years ago. At that time a party of enterprising and far seeing men from the South, realizing the importance of a trunk railway between Cincinnati and the Southern cities, asked from Kentucky a charter. It was granted, but the broad, deep gorges, high mountains and rapid rivers discouraged them, and the enterprise failed. After four other charters were vainly granted, the city of Cincinnati in 1868, appreciating the necessity of a Southern outlet, determined herself to construct a railway over the mountains of Kentucky and Tennessee, applied to the General Assembly of Kentucky for permission to build the road. For two years, owing to the opposition of rival interests, the permission was refused. The question entered into State politics, and every member of the Legislature of 1871 2 was elected under instructions and the bill passed. Ground was broken in December, 1873, at King's Mountain tunnel, in Kentucky, and the work has been pushed forward. The day is not far distant, adds the speaker, when the mountain peaks of Kentucky and desolate valleys of Tennessee shall echo and re echo with the shrill whistle of the locomotive.

Coal and Iron in India.

At Warora, a place which will soon be put in connection with the Indian Railway system by means of the Wurdha Valley State Railway, now in course of construction, extensive coal fields have been found, and are now being worked. These coal fields, according to the calculation of Mr. Ness, mining engineer, form a perfectly safe store to draw from for about 130 years at 500 tons a day—a quantity much more than sufficient to meet all present requirements. To the west of Warora are situated the two iron fields of Perpulgaon and Lohara, the former distant about 42 miles, the latter rather over 50 miles from Warora. Both fields have been most favorably reported upon by professional men, the quality of the ore being described as excellent, the quantity as very considerable.

Statement of the Public Debt of the United States April 1, 1875.

Totals	$64,623,512 00	$969,352 68

Interest paid by United States, $26,264,102 34; interest repaid by transportation of mails, &c., $5,943,748 04; balance of interest paid by United States, $20,320,354 30.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Improvements in Fan-blowing Portable Forges.

A few years ago portable forges were new machines, but at present they are in great demand and being rapidly introduced into manufacturing and mechanical establishments. They are now constructed to suit a great variety of purposes, and are exceedingly handy for every purpose where a quick hot fire is required by all those who have to make repairs of machinery, build bridges, lay track, or work in quarries or mines. Their lightness, strength, portability and compactness are features which have brought them into favor with manufacturers and mechanics, who well know how much labor, delay and expense have been saved in case of breaks and repair by having a portable forge on the premises.

The ingenious mechanism of the portable forges, manufactured by the Empire Portable Forge Company, of Troy, N. Y., is well worth the attention of those who take any interest in the progress of the mechanical arts.

They are constructed almost entirely of metal, having no belts or bellows to wear out or stretch by damp weather, and are so simple in their construction that any one can repair them. They give a continuous blast, and will heat a 2½ in. bar to a welding heat in less than ten minutes.

They have the celebrated "Bird's Nest" Tuyere, allowing nothing to escape into the Ash Box, and are easily moved about from place to place.

All the journals run in bronze bearings, and the Fan is provided with Oil Cups, which will lubricate it for a long time.

They are more perfect in their construction, symmetrical in appearance, complete in operation, and give a stronger blast than any other Forge.

Another feature of the Empire Forges is that the blast is made by a fan blower, worked by a lever handle, in the old manner, and a way much more natural than a crank motion.

The company classify their machines in two classes, viz: those for indoor and shop work, where they are set up with a pipe to carry off the smoke, and intended to remain a permanent fixture like the lathe or planer; and those designed for out door work and transportation about the country—for ship and bridge building, boiler shops, steamers, quarries, etc. For the latter purpose they have designed their No. 10, especially, being made with wrought iron legs, very strong and light, weighing only 90 lbs., and at the moderate price of $27.

There are twenty six varieties of these forges manufactured. They have been before the trade only two years. We are informed that not one of them has ever proved unsatisfactory. Contractors and master mechanics of railroads are invited to notice these facts, and send to the company for their catalogue and further information, feeling satisfied it will be to their advantage to use them.

We add the following report from a gentleman so practically and scientifically competent to judge of its merits that it must command the attention not only of all workers of iron, but also of all dealers in hardware. To such we especially commend it.

UNITED STATES NAVY YARD.

CHIEF ENGINEER'S OFFICE,
BUREAU OF STEAM ENGINEERING,
Washington, D. C., Nov., 1874.

Commodore THOS. H. PATTERSON, U. S. N.,
Commandant.

SIR: In obedience to your order of October 5th, 1874, to carefully test the "Empire Portable Forge" (No. 1 with hood), I have the honor to submit the following report.

The blast is supplied by a small fan blower, operated with a hand lever connected to a toothed wheel geared into a pinion. Upon this pinion shaft is a friction wheel operating against a friction pinion upon the axle of the blower. The shaft of the friction wheel revolves in sliding supports, to allow for the vibration of the shaft, with a spring acting against each support to keep the friction wheel against the pinion.

The blast is strong and sufficient to keep up any required amount of heat. The fire pan is covered with a hood of cast iron with doors for passing the rivets.

This is a very excellent and convenient forge. It works easily and with but little noise, and the power being applied with a lever, it can be worked without interfering with the manipulations of the fire.

I can recommend it as a very useful tool for work on ship board or shop use.

Very respectfully, your obedient servant,

EDWIN FITHIAN.
Chief Engineer, U. S. N.

☞ Wm. McLellan has been elected President of the Southern Virginia Railroad Company.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, April 10, 1875.

Financial and Commercial Affairs.

Business generally shows a fair degree of activity. At the Stock and Gold Exchanges the dealings have been rather less extensive than during the preceding week. At the Produce and Cotton Exchanges, and other commercial centres, trade has been increasing in volume, with the milder weather favoring freer movements. In the Money line, more ease has been apparent. The inquiry for aid on speculative account has been less urgent, decidedly less so, on account of the operators in Gold. Call loans have been quoted at 4@6 per cent. In the way of discounts, a fair demand is noted for the best grades of short date commercial paper within the range of 5@7 per cent per annum. Less important amounts of currency are being forwarded to the interior toward the close than were remitted early in the week. The currency reserve of the Sub Treasury was reduced $3,254,863; and the specie balance, increased $2,796,930. The City banks last week reduced their reserve of legal tender notes $2,062,700, and increased their deposit item $151,600 while also augmenting their specie average $1,382,700. They report an increase of $501,800 in the loans and discounts, and a falling off of $96,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $42,723,182, against $45,978,046, the preceding week; and a coin hoard of $56,275,934, against $53,479,004, on the previous return. The City bank exchanges in currency during the week, were $602,763,287, or a daily average of $100,450,547. The customs revenue of the port, during the week, was $2,493,000. The City banks reported their average of gold last week at $9,665,500, and their greenback average at $19,836,800. Their deposits stood at $214,876,100. The loan item was $279,554,600. The circulation was $21,534,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $5,788,275.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is $379,226,900. The National bank circulation is now $347,269,876.

The U. S. Treasury balances on Tuesday were as follows: Currency, $4,795,267; special deposit of legal tenders for redemption of certificates of deposit, $43,395,000; coin, (including $24,294,500 in coin certificates,) $84,203,507.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $8,866,275.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 86¼ millions.

The specie shipments from San Francisco, Jan. 1, to March 25th, were $12,387,813, against $3,937,557 same time last year.

Gold has been less freely dealt in, and the fluctuations in price have been less violent. The speculative business has been comparatively tame. The customs demand has been moderate, and the export drain limited. Toward the close, with the sharp rise in Foreign Exchange, rather more inquiry was noted for specie for shipment, and the market ruled stronger. The extremes of the week have been 114¼@114⅞, closing on Wednesday at 114¾ as against 114½ on Wednesday of the preceding week. The specie outflow last week was $535,935. The imports of specie at this port since Jan. 1, have been $4,405,451 against $1,165,626 same time last year. The customs demand for Gold last week averaged $456,834 a day. Foreign Exchange has been in better demand, and decidedly firmer as to price. Bankers' sixty day bills on London closed on Wednesday at $4 85½@$4 86; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,596,059.

Government Securities have been generally quoted firm, on a fair demand, chiefly on investment account. In State and Railway bonds, business has been moderate, with values generally well supported. And in the line of Railway and Miscellaneous share property, a moderately active movement has been reported on a variable market, closing with more steadiness.

U. S sixes of 1881 closed on Wednesday of this week at 121¾@122; U. S. Five-Twenties of

1862, at 117¾@118; U. S. Five-Twenties of 1864 at 118¾@119¼; U. S. Five-Twenties of 1865 120¾@121; U. S. Five-Twenties of 1865 consolidated, 120⅜@120¾; U. S. Five-Twenties of 1867, 120¾@120⅞; U. S. Five-Twenties of 1868, 120⅜@121; U. S. Ten-forties at 115⅝@115⅞; U. S. Fives of 1881, (Funding Loan) 115⅝@115⅞; Six per cent. currency Sixes from 119⅞@120.

General business has been more satisfactory as to amount of sales, in most lines; and, as a rule, values have been quoted firmer. Breadstuffs and Provisions have been advanced. Cotton has not varied materially. Wool and Tobacco, about steady. Naval Stores and Petroleum, weaker. Dry Goods, Boots and Shoes, and Hardware, more freely dealt in. Metals have been comparatively tame. Iron has been held with some show of confidence. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $37@$38; No. 1 American Pig at $28@$29; No. 2 do. at $25 50@$27; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $50@$53; Old Rails, $30@$35. Wrought Scrap, $36@$37. Ocean freights have been depressed and quoted lower, on a restricted business.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Jersey City and Albany Railroad Company will commence laying rails on the extension of their road on the 20th inst., and expect to have it completed to Haverstraw in July. On the 15th inst. four trains will be added, making six trains daily from Jersey City to Tappan.

☞ The Baltimore and Potomac Railroad Company have commenced running through cars from Washington to Harrisburg via the Northern Central Railroad.

Kentucky and Great Eastern Railroad.

The line of the proposed Kentucky and Great Eastern Railroad extends from Huntington, West Va., the present terminus of the Chesapeake and Ohio Railroad, to Cincinnati, and along the southern shore of the Ohio River, a distance of about 150 miles. A portion of the track is already laid. At Maysville connection will be made with the Maysville and Lexington Railroad, opening a route to Louisville and the Southwest, and affording an eastern outlet for the Blue Grass Region of Kentucky. At Portsmouth connection will be made with the Hamden branch of the Baltimore and Ohio Railroad, and at Huntington with the Chesapeake and Ohio Railroad and its eastward branch to tide water, and opening to the latter communication with Cincinnati. A meeting of representatives of the several counties along the line of the proposed railroad was recently held at Cincinnati, to devise means for the promotion of the enterprise. The opinions expressed were unanimous in favor of the project. The following Board of Directors was elected: President, Gen. A. J. Warner, of Marietta; Vice President and General Manager, Major John Byrne, of Cincinnati; Secretary, Thomas Wrightson, of Newport; Alfred Gaither, Hon. Stanley Matthews, M. E. Ingalls, J. Broadwell, Eli Kinney, and R. S. Coleman, of Cincinnati; George Bliss and William A. Booth, of New York; William H. Wadsworth and John M. Duke, of Maysville, and Hon. Thomas L. Jones, of Newport.

☞ The Sidney (New South Wales) Herald of February 13th says that railway construction is progressing satisfactorily. The Western line is now completed into the city of Bathurst, and its extension to Orange is being pushed forward. The contracts for making the Southern line to Waggs, as well as the contract for the Great Northern line extension, are also in a satisfactory state. The trial survey of a coast line, now completed as far as Woolongong, will be continued as far as Klama.

☞ The Legislature of Tennessee, just before its adjournment, passed a law to tax gross earnings of railroads 1½ per cent., which it is estimated will raise $150 000, and for retrenchment in various departments of State expenses to an extent which it is reported will effect a saving of $600,000 per annum. On the strength of the prospective benefit to arise from these measures, and the hopes that July interest will be paid, the bonds have advanced.

☞ The Massachusetts Supreme Court has decided to issue a writ of mandamus compelling the Longmeadow Railroad Corporation to recognize Hon. Emerson Wight, Mayor of Springfield, as one of the directors of the corporation, he having been duly elected as such director to represent certain shares of Longmeadow Railroad stock held by the city, but not being personally the owner of any of said stock.

☞ The holders of the overdue bonds of the State of Georgia are notified that, in pursuance of an act passed by the Legislature of that State March 2, 1875, all bonds which matured on and prior to January 1, 1872, will, unless presented for examination and registration before August next, be declared null and void.

The Virginia Debt.

The Richmond Dispatch says that both houses of the Legislature of Virginia have passed "a bill to provide for the payment of interest on the public debt." It constitutes the Governor, two Auditors, Treasurer, and Attorney General a board to set aside so much of the revenue as will be necessary to meet the current expenses of the State Government. The balance is to be placed to the interest account, and two per cent., or as much thereof as possible, not exceeding two per cent, is to be paid on the interest due on the public debt in 1875. Non-interest bearing certificates are to be issued for the unpaid balances of interest.

☞ The preliminary survey for a railroad from Colusa to Chico, Cal., was commenced on the 15th ult. The length of the road will be just 35 miles. The Chico Enterprise, from which the above was obtained, says that "to unite Colusa and Chico by means of a railroad is to open up at once between the two sections an amount of trade which will pay not only the road for transportation, but will afford many facilities not now enjoyed, by which the people will be benefited and enriched."

☞ The contract with the Ohio Construction Company for building the Atlantic and Lake Erie railway requires that the company shall fully finish, equip and furnish the road, asking no money whatever for the work, but taking their pay wholly in stock and bonds of the road, at so much per mile for grading, so much for ironing, at a prescribed percentage over actual cost for engines, cars, station houses, tanks and other necessary appendages to the road. The company is to have the use of the road until May 1, 1878.

☞ The following gentlemen have been elected directors of the Panama Railroad Company: John R. Marshall, John M. Burke, Charles G. Francklyn, John P. Jones, W. B. Duncan, T. W. Park, J. G. McCullough, H. H. Baxter, S. C. Thompson, H. C. Emmett, C. K. Garrison, Frank Work, George J. Forrest. The officers are: Mr. Trenor W. Park President, Mr. J. G. McCullough Vice President, and Mr. H. C. Emmett, Secretary and Treasurer.

☞ The directors of the Second Avenue (N. Y.) Railroad Company, recently elected, are: T. W. Decker, Waldo Hutchins, Julius Wadsworth, James D. Fish, William Richardson, Solomon Mehrbach, James Everard, Thomas J. McCahill, Moses Mehrbach, William S. Thorn, Adolphus Hamilton, C. Schwarzwaelder, David J. King.

☞ The Central Railway Construction Company, of New Lexington, Ohio, has been incorporated with stock of $2,000,000 in shares of $500 each. The incorporators are H. P. Clough, A. T. Wikoff, and others.

☞ Howard Elmer, President of the First National Bank of Waverly, N. Y., has been appointed receiver of the Geneva, Ithaca and Athens Railroad, extending from Geneva, N. Y., to Sayre, Pa.

☞ The first freight train passed through the Hoosac Tunnel about eleven o'clock in the evening of the 5th inst., with twenty one cars of grain for Boston, and one local.

Brown, Brothers & Co.,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

☞ Articles of incorporation of the California Narrow Gauge Railroad and Transportation Company have been filed with the Secretary of State of California. This company was organized for the purpose of constructing a railroad from Dumbarton Point, on the Bay of San Francisco, county of Alameda, to Newark, Alviso, Santa Clara, San Jose and New Almaden, with a branch, line from Santa Clara to McCartysville, or Congress Springs, the length of the main road and branch being about forty miles. Also, to maintain a steamboat line from Dumbarton Point to San Francisco, to connect with the railroad. Capital, $1,000,000, in shares of $100 each. Directors—I. Barr Robertson, Samuel Purdy, Philip Cadne, William H. Ladd and Henry F. Williams. The principal place of business will be in San Francisco.

☞ The earnings of the Union Pacific Railroad for the month of February, 1875, were $620,307 24, the expenses $272,188 02, and the net earnings $348,119 22. For the month of February, 1874, the earnings were $607,990 28, the expenses $374,956 13, and the net earnings $233,034 15—showing an increase in earnings of $12,316 96, a decrease in expenses of $102,768 11, and an increase in net earnings of $115,085 07.

☞ Preparatory work for construction of the Ohio river bridge for the Cincinnati Southern Railway has been commenced on the Kentucky side at Ludlow.

Rights of Foot Passengers in Cities.

The facts in the late case of Belton *vs.* Baxter (54 N. Y., 245), are sufficiently set forth in the following opinion of Justice Reynolds:

There should be a new trial in this case for the following reasons:

1. The plaintiff was guilty of negligence which certainly contributed to his injury, and this is apparent upon his own testimony. He wanted to cross Second avenue on Fourth street, where he resided. It was near evening, but still daylight, and he saw a Second avenue car coming just above Third street, and behind it a cart also coming. The car was moving pretty fast, and all this was plainly seen when he was between eleven or twelve yards from the curbstone in Second avenue. He hurried on a little, and made his "calculation" that he could cross in front of the car, "before the cart could get up." It is thus evident that the plaintiff expected the cart to attempt to pass the car as it did, and his calculations were accordingly made. He stepped on, the car came faster than usual, he just passed the heads of the horses attached to the car, and at that moment came in contact with the horse and cart of the defendants, or some of its appendages, and received the injury. This makes out a plain case of negligence. He clearly saw the possible danger, made his calculations to pass ahead of both car and cart and failed. The carman of the defendants had no reason to suspect that any such attempt would be made. He could not see the plaintiff as the street car obstructed the sight, and it can scarcely be said that he was guilty of negligence in driving his cart. It is negligence *per se* for a foot traveler to attempt to cross a public thoroughfare ahead of vehicles of any kind under such circumstances upon nice calculations of the chances of injury. If such attempt be made and the calculations fail, to the plaintiff's harm, he can have no redress for injuries received in his mistaken effort. It is not the exercise of common or ordinary care.

2. The judge charged the jury that the plaintiff "had a right to go in front of the vehicle and cross at that time if he did not place himself in a position where the vehicle by proper care could not avoid him. He had as much right to cross there as the vehicle had to go on in the other direction."

It may be possible that, as a mere abstract legal proposition, this may have been correct, but as applied to this case, it obviously tended to mislead the jury, and relieve the plaintiff from the exercise of any care. No matter how negligent the effort of the plaintiff to cross the avenue may have been, it was said he might still recover if the defendants could have avoided the infliction of the injury. It is very obvious, also, that the learned judge intended to give the jury to understand that the foot traveler had some priority of right over vehicles in the city of New York, for he tells them "I hold it as a principle of law that if I attempt to cross Broadway, or any other crowded thoroughfare, I am not obliged to turn back to avoid a vehicle, if that vehicle by reasonable care can avoid me. It is the business of the driver to stop and allow me to pass, it is not my business to turn and go back for the purpose of avoiding him. I am there by right, and my right is paramount to his, because I am the first in point of time." In this case it was very unfortunate that the plaintiff was not there first in point of time, but both parties reached the point of collision at the same instant of time without the one then expecting to meet the other. But it seems clear that such instructions were in violation of the rule laid down by the Court of Appeals in Barker *vs.* Savage (45 N. Y., 191., 195).

The learned judge who delivered the opinion of the General Term of the Superior Court, quoted approvingly the charge of the judge at the trial the correctness of which we feel compelled to doubt, and then adds that such a rule has been frequently asserted by that court, and he thought should be sometimes, at least, recognized by the drivers of vehicles, who, it is also said, "practically and habitually regard foot passengers as mere intruders upon and obstruction of the highway, who can be run over with impunity." We entirely agree that the drivers of vehicles in any public thoroughfare should observe the law, without any special reference to the court by which it is pronounced. The evidence does not disclose the ordinary habits in this respect of the drivers of vehicles in the city of New York, and we are not at liberty to take judicial notice of the fact, even if verified by the personal observation and experience of any one or more of the learned judges of the Superior Court of that city.

Northern Central Railway.

At a special meeting of the stockholders of the Northern Central Railway Company, held in Baltimore on the 31st ult., R. M. Denison, Esq., offered the following preamble and resolution:

Whereas this company did heretofore, under date of May, 26, A. D. 1874, make, execute and deliver to the Fidelity Insurance, Trust and Safe Deposit Company of the city of Philadelphia a mortgage to secure bonds to be issued thereunder to the amount of ten millions of dollars, which mortgage was duly recorded in the several counties of York, Dauphin, Cumberland, Perry and Northumberland, in the State of Pennsylvania, and in the county of Baltimore, in the State of Maryland; and

Whereas bonds to the extent of six millions of dollars have been set aside to meet the bonds secured by previous mortgages, amounting in the aggregate to the said sum of six millions of dollars, and bonds to the amount of two million dollars have already been issued under said mortgage; and whereas in and by the resolutions of the stockholders' meeting, held on the 9th day of April 1874, authorizing the creation, execution and issue of the said mortgage and the said bonds, it was provided *inter alia* that the balance of said bonds "shall be applicable, upon authority conferred upon the board of directors for that purpose by the stockholders at a meeting hereinafter called, in accordance with law, to such further construction and equipment as the interests of the company may require;" and

Whereas the board of directors have informed the stockholders that it is necessary and proper to issue and dispose of a portion of the balance of said bonds secured by the said mortgage, to the amount of one million of dollars, for the purposes contemplated in said mortgage; now, therefore, be it

Resolved, That the board of directors be and they are hereby authorized and empowered to issue bonds under and secured by the said mortgage to the amount of one million of dollars in accordance with the terms of the said mortgage, and, to dispose of the same upon such terms as they may deem advantageous for the interests of the company.

The entire number of shares voted was 62,065, all of which were in favor of the resolution. The entire number of shares is 116,840, so that 3,645, more than one half the entire number, voted for the resolution. There being no other business before the meeting it adjourned.

The company intends, it is understood, to advertise, in about thirty days, for proposals for the improvements contemplated at Canton, which include a grain elevator, a coal pier of six hundred feet, and a warehouse sixty by two hundred feet.

The work upon the new office building to be erected on the corner of Centre and Calvert streets will probably be commenced in about three weeks. The building will have a front of 60 feet on Calvert street and a depth of 100 feet on Centre street, and will cost about $60,000.

Coke for Furnace Use.

The Alburtis furnaces are now using coke from Western Pennsylvania in place of anthracite coal. It is a curious fuel, and requires watchful management in its application for furnace use. This is the first time it has ever been experimented upon in these parts. With anthracite coal the Alburtis furnace used to carry about seven pounds of blast. The use of coke, however, rendered it necessary to reduce the blast pressure to three and a quarter pounds, which figures the hands are kept exceedingly busy in doing the necessary "filling." If the blast were now to be kept up to seven pounds it would be impossible to supply the coke and ore fast enough, and besides it would necessitate the making of casts every two hours. Coke makes a far intenser heat than anthracite coal, and though it contains more gas than the latter, it is not as strong. It is brought from beyond Pittsburgh, and costs, delivered, about $6 75 per ton. The freight alone, from Pittsburgh, costs sixty dollars for a ten ton car. If the experiment proves successful other iron firms will doubtless follow suit.—*Reading Eagle.*

Mining and Minerals in Russia.

The Golos gives some interesting details respecting the mining operations and mineral productions of Russia during the year 1874. The State foundries smelted 1,225,000 Russian pouds of bronze, 557,000 pouds of iron, and 1,000 pouds of steel; 89,000 pouds weight of articles in bronze were cast, and 508,000 pouds weight of ammunition, 9,000 pouds weight of steel cannon, and 15,000 pouds weight of iron cannon; 15,000 pouds of lead and 6,600 pouds of zinc were smelted; 7,800 pouds weight of iron articles, 10,000 pouds weights of sheet iron, and 7,500 roubles worth of iron for use in shipbuilding were also made, besides 46,700 side arms, 20,000 blades, and 5,725 gun barrels. The amount of metal passing through private factories can only be approximately calculated, as the year is reckoned from May 1 to April 30. The following return, however, is supposed to be tolerably correct. The productions of the smelting establishments of the Ural are estimated at 13,200,000 pouds of bronze, 1,017,000 pouds of iron, 69,000 pouds of steel, and 100,000 of pouds copper. Those around Moscow are supposed to have produced 3,360,000 pouds of bronze and 1,830,000 pouds of iron. South Russian produce is estimated at 430,000 pouds of bronze and 440,000 pouds of iron; that of the Polish Provinces at 1,370,000 pouds of bronze, 800,000 pouds of iron, and 120,000 pouds of zinc. Lastly, 44,000 pouds of copper is calculated as the return from the Caucasus. Gold to the amount of 1,806 pouds has been extracted during 1874, without reckoning the districts of Altai and Nerchinsk, which yield an annual average of 165 pouds. Coal has been worked with increased progress in every district except that of the Vistula, which is still suffering from the effect of the conflagrations of 1873. The total amount of coal and anthracite raised in 1874 was 83,575,000 pouds, the largest portion coming from the gov-

ernment of Catherinoslaw, the district of the Don Cossacks, the neighborhood of Moscow, and from private mines. The extraction of mineral oils in the Caucasus shows a great increase, and oil wells have lately been discovered in Poland, in the government of Kielce. A Russian pond is equal to about six pounds English weight.

Electric Whistles for Locomotives.

The plan has been satisfactorily adopted on some of the French railways, of having a stationary electric battery blow the whistle of an approaching locomotive, in case the road is not clear, without the engineer having to give any attention to it—that is, the obstruction at the depot starts the steam whistle on every approaching locomotive, when the train is still far enough away to slacken speed and stop. This system, it appears, has now been in successful operation for a year, on one of the principal railways in France, faithfully informing the engineer whether the way is clear or not. The signal tender turns a disk, and sends an electric current in the direction of the coming train to a bar that is placed between the rails; when the engine reaches the spot, a metal brush placed between the wheels, sweeps the bar—the current passes to the engine, and, by means of an electric-magnet, presses upon a lever which opens the steam whistle, thus making it blow automatically. This arrangement is found to be very useful at night, and especially during a fog.

☞ The last of the California six per cent bonds of the issue of 1873, amounting to $116,000, have been sold by the Loan Commissioners to the Regents of the State University at par. This sum will call in all the bonds of 1857 and 1860, and conclude the labors of the Commissioners.

☞ By agreement between the Trustees and bondholders of the Alabama and Chattanooga Railroad, the sale of that road, under decree of the United States Circuit Court, which was to have taken place on the 5th inst., was postponed until the first Monday in May.

☞ At a meeting of the stockholders of the Chicago and Alton Railroad Company, held in Chicago on the 5th inst., the following officers were elected: T. B. Blackstone, President; John T. Slater, John A. Stewart, and George Strant, Directors for three years.

☞ The Governor of Georgia has ordered the sale of the Macon and Brunswick Railroad, to take place on the first Tuesday in June next, at Macon.

☞ Work on the Costa Rica Railway is progressing favorably. The line between the Capital and South Trecia was expected to be in operation about the beginning of this month.

THE WHARTON
Safety Railroad Switch.
☞ **BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.** ☜
This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.
They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

The Change of Gauge in North Carolina.

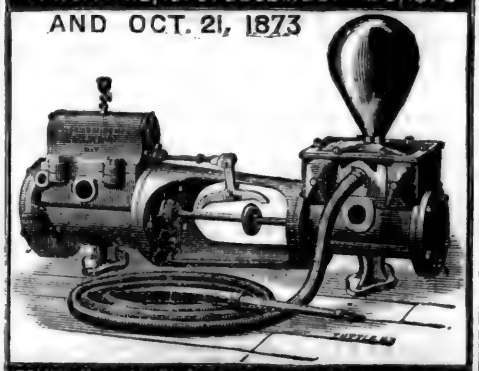
The recent change of gauge of the Richmond and Atlanta Air Line railway, between Greensboro' and Charlotte, North Carolina, has caused considerable excitement in that State. Upon the dissolution of the injunction restraining the change of gauge the authorities of the road in question made haste to effect the desired change, whereupon the North Carolina Legislature passed an act in relation to the change of gauge of railroads, which provides for the prosecution of any president, director, secretary, or other officer or employee who advised or assisted in the late change of gauge. In pursuance of this act, the Governor of North Carolina has issued a circular to the various solicitors on the line of the road where the gauge was changed, commanding them to proceed at once against all parties implicated. The Wilmington Star commends the action of the Governor, which though a little delayed, it thinks may be effective. The Petersburg (Va.) papers also indorse the action of the Legislature and Governor, claiming that the change was made in the interest of the Pennsylvania railroad, and is calculated to break up the system of internal improvements which North Carolina has built up for her own benefit.

Revival of the Iron Interest in the West.

For some time past it has been apparent that Missouri pig iron was finding a better market demand, its superior qualities being better understood, and that trade was improving. Within the past month a firmer feeling has existed in all grades of iron, and there has been a fairly active demand, but without any important change in quotations. The demand for agricultural machinery has been very large from the entire southwest, and all kinds of heavy hardware and builders' supplies at this time are very active. When we speak of a revival in the iron trade it is only such as is indicated in a gradual increase in the volume of transactions, although there are local causes that make St. Louis an exceptional market, one of which is the rapid growth of the city and the remarkable increase of building operations this season; and another the tendency of capital, immigration and development toward the Southwest, of which this city is the distributing point. A large increase in the average of grain is seen throughout the entire west, and although the increase in railroad traffic we fear will not be great for some months the prospects are now favorable for a large fall and winter business. If this be the case the demand for railroad iron, and supplies for repairing the rolling stock equipment must be quite large. The inquiry at our mills from new railroad enterprises, we notice, is on the increase, and the out look is every way encouraging to a healthy revival of the iron interests.—*St. Louis Railway Reg.*

☞ The Steamship Nurnberg, of the Baltimore and Bremen line, which sailed from Baltimore on the 3d inst., had among her cargo 336 grindstones and 203 reaping and mowing machines. The steamships of this line have in the past few weeks taken hence 856 American reapers and mowers, which are distributed throughout Germany and other parts of the continent, where they are highly prized.

☞ The Virginia Legislature has authorized the State officers to pay 4 per cent. interest on State bonds, when the money is in hand, and it is expected that the 2 per cent. of July, 1874, will be paid soon, and the 2 per cent. of January, 1875, about next July.



☞ A special meeting of the stockholders of the Pittsburg, Cincinnati and St. Louis Railway company will be held in Steubenville, Ohio, on the 4th of May to see if they will authorize the issuing of $10,000,000 income bonds, secured by mortgage, to be used in paying off the present existing $5,000,000 of Second Mortgage Bonds, and accrued interest thereon, and other liabilities of the company.

☞ The work of laying with steel rails the thirteen miles of track between Chase's station and Aberdeen, on the Philadelphia, Wilmington and Baltimore railroad, to complete the continuous double track from Baltimore to Chester, was commenced on the 5th inst.

☞ It is proposed to celebrate the completion of the Cincinnati Southern railway, at Cincinnati, on the Centennial anniversary next year. The road, it is believed, will be opened throughout its entire length at some time during the year.

☞ The preparatory surveys for the Cape Cod Canal will soon be completed.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

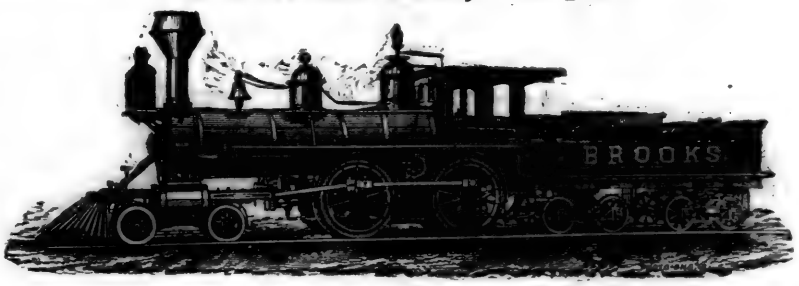
The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between **50,000,000** people in the United States and Canada, and **40,000,000** in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.



HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

Rockford, Rock Island and St. Louis R. R.

The following are the important points of the order made by Judge Drummond in the case of the Union Trust Co. vs. The Rockford, Rock Island and St. Louis R. R. Co., fixing the rights and priorities of the bondholders under the two mortgages:

First—That the holders of said series of bonds numbered from 1 to 5,000, inclusive, amounting in the aggregate to $5 000,000, are entitled to a first and prior lien on all that part of the said railroad and other property which is covered by said mortgage of June 15, 1868, and if the proceeds of the property covered by said mortgage are insufficient to pay and discharge the said first series of bonds and interest, and the holders thereof are entitled to the extent of any balance which be may due them to the same distributive share upon each bond of said series as the holders of said several series of bonds numbered from 5,001 to 9,000 inclusive, amounting in the aggregate to $4,000,000, in the proceeds of the rest of said railroad and other property covered by said mortgage of October 28, 1868, and not embraced in the mortgage of June 15, 1868. But this part of this order is not to foreclose any special equities which it may appear, on the coming in of the master's report, certain holders of the second mortgage bonds may have as against certain holders of the first mortgage bonds, that matter being hereby expressly waived.

Second—That the holders of coupons belonging to each of said series of bonds which fell due August 1, 1871, and subsequently, who did not become parties to said provisional contract of July 1 and October 9, 1872, are entitled from the proceeds of the property secured by said mortgages respectively to a preferential payment upon said coupons by way of interest upon their said bonds equal to the sum paid by way of interest to the holders of coupons belonging to the bonds which were scaled down under said contract.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Railroad Terminal Charges.

The matter of terminal charges is apparently about to receive a vigorous investigation, having been touched lately from three or four distinct directions. The latest suggestion thrown into the discussion comes in the form of a proposed Committee of the Legislature to examine into the cost of delivering and handling produce, and especially grain, at this port. This is a *contre-coup* of the demoralized ring of canal contractors; but even these men are well advised, and doubtless knew where to find the weak point of the transportation problem. There have also appeared, from time to time, statements in the newspapers picturing the growth of the grain trade of Baltimore, Philadelphia, Boston and Montreal, apparently at the expense of New York city. Though it is true that the receeipts and shipments of these ports has increased considerably of late, it is not fair to assume that the gains of these places is so much taken from New York, for the facts are that the deliveries and exports of grain at this port have increased at the same time. This is to be accounted for by the European demand, combined with our own succession of good crops, rather than to any great disturbance of the channels of transportation.

At the same time the recent ventilation of grievances between the grain merchants in New York and the railroads centering here, in reference to the cost of storing, elevating, and handling grain indicates that there has been dissatisfaction, if not waste, loss, or extortion, or all combined, in this business as heretofore carried on.

The *Daily Bulletin*, in an article bewailing the lack of proper terminal facilities, says:

Baltimore has been selling a large amount of Western corn this spring for export, the sales per day often running as high as in this market. And recently (within a space of ten days), five cargoes of grain of 223,000 bushels were taken from Philadelphia, four of which were corn for Great Britain and one (wheat) for Antwerp. At the same time, sixteen more vessels, all barks but one, were awaiting turn at the elevators to take out corn or wheat, beside one steamer for Antwerp—all of them being foreign ships. So that it cannot be said this activity is due to the efforts of American lines to gain business.

This line of inquiry will, if pushed, reveal the fact that the movements of crops may by a slow and gradual process be made to change their channels, provided there is no insuperable natural obstacle in the way, and there be capital and determination to encourage it. The grain trade of Baltimore, is almost wholly of recent growth, and is due to the persistent efforts of the Baltimore and Ohio Railroad Company. Philadelphia also desired to have a line of steamships to Europe; and to gratify this wish made arrangements for the ready and cheap means of storing the grain until it was run into the hold of the ships. Once these elevators were erected they became available for other vessels than those originally in view in their construction.

New York now has the "run of custom." The steam lines, both land and sea, converge here by the force of long-usage, a practice originally induced by the construction of the Erie canal and the nearness of the port to the open sea. The substitution of rail-carriage in place of water is destined to take away, in part, this pre-eminence. For example, Boston is some 50 miles further from common points in the West than New York, but being 150 miles nearer Liverpool, her active and plucky people have conceived the idea of offsetting one distance against the other, relying upon the superiority of terminal accommodations for drawing the western produce away from its present channels. Baltimore, again, is a few miles nearer to (Chicago, in point of actual miles to be traveled making no allowance for grades,) than is New York; but, on the other hand, she is fully 350 miles further from Liverpool, of which 200 are consumed in doubling the Capes at the mouth of the Chesapeake; but by accepting a smaller toll for the carriage of breadstuffs, and by effecting the storage and transfer to shipboard at the lowest cost, her disadvantages in other respects have so far been neutralized as to attract a growing business from the West to her wharves. There are other places on the Chesapeake waters, nearer the sea, which may in turn, with suitable accommodations, repeat this process against Baltimore herself as well as against the rest.

There is no concealing the fact that the terminal charges are an element of prime importance, and worth looking into. A committee of civil engineers have been directing their attention to the problem, and the first of their reports is given in the Journal of the Society for last month, "on the best and cheapest methods of delivering, storing, and distributing goods and freight," which does but little more than state the conditions of the traffic at New York.

The table appended to the report gives the estimated average present cost per ton of handling each of the different articles of domestic produce that arrive at the city of New York. These expenses vary from $1 for cut meats, oil

cake and cotton-seed meal up to $12 for calves, the latter being marketed in New York, driven to abattoirs, and their meat carted thence to butcher shops. The lowest cost is equivalent to transportation by rail a distance of 80 miles at the average rates received by the Pennsylvania Railroad in 1874; the highest to more than the cost of transportation from Chicago to New York at that rate. Flour is reported to cost $2 per ton, wheat $1 30, corn $1 40, cotton $3 20, hides $10, all stock for slaughter except calves $10, sugar $3, petroleum $2, tobacco $3 33, barreled meats $2. The total terminal expense for 1873 is given as $14,200,188, which is an average of $3 07 per ton for the 4,631,700 received—enough to have carried it from Buffalo to Utica on the New York Central at its average rates of last year, or from Pittsburgh to Harrisburg on the Pennsylvania.

In this table eleven of the articles enumerated only equal in weight 1 per cent of the total receipts. Wheat forms 25.4 per cent of the total, and flour and grain something more than one-half (51.6 per cent.) Live stock form 12.3 per cent, and live stock and their products (meat, lard, hides, wool, butter, cheese, etc.), just 20 per cent.

Five leading products form about 93 per cent of the whole, as follows:

Flour and grain	51⅙	per cent.
Stock and stock products	20	"
Petroleum	13½	"
Cotton	4¾	"
Tobacco	8¼	"
Total	93	per cent.

So far as bulk is concerned, the others are unimportant, and with these five provided for the rest would cause very little trouble—indeed, would doubtless themselves be mostly provided for.

Of the entire receipts of 4,631,700 tons, the route of arrival, whether by land or water, is indicated for just about three-quarters—3,445,682 tons. Of this, 2,067,639 tons were received by rail—61 per cent. But of the other articles whose route of arrival is not indicated, very nearly all, except cotton and naval stores, must have arrived by rail.

The terminal charges on freight are onerous enough to deserve a thorough sifting; but the terminal charges on passenger traffic are far larger than they ought to be. The baggage transportation of this country has grown up without reference to either system or natural justice. A mass of heavy trunks, containing merchandise and all manner of stuff, are carefully transported at high speed and responsibilities incurred, out of all proportion to the compensation. In fact, as at present conducted, the premium is given to the passenger who travels with baggage; he who travels without paying exactly the same fare. The rules for collecting fares on excess baggage are nearly a dead letter, and are not stringent enough at best—except on the Pacific Railroads. No one company can establish a reform in this matter alone; but now in these days of keen competition for passengers, it is worth the while of Railroad managers to see if some comprehensive system of through and local tickets for excess baggage cannot be adopted at rates more nearly approximating the value of the service, and which can be settled on *pro rata* plans as are the passenger fares.

How Trains are Run Through Bergen Tunnel.

It is claimed by the managers of the Erie Railway that the system of signals in use at their tunnel through Bergen Hill, N. J., is the safest and best that is in use at the present day for the running of trains through a tunnel. A visit to the East end of this tunnel, and an examination of the machinery and its workings, will at once show the spectator that all the care possible is taken to prevent accidents of any sort. The electric signals, by which this plan of running trains is carried out, are connected by insulated wire or covered wire running over the hill, thus making the connection between the two signal houses, which are at each end of the tunnel. In each of these houses is an electrical signal machine, which is so arranged that when the key is closed at one end of the tunnel the bell strikes four times at the other end, and by this the signal man knows that the train has just passed out at the other end all right, and that he can let in another. It is a rule that two trains shall not be let into the tunnel at one time on the same track, and that on the rear of each train must be a red light, and the signal man, whose duty it is to send back the signal "All right," must see that the train had such lights on the rear of the car when it passed by the signal house. In a busy time, the two roads that use this tunnel, the Erie and Delaware, Lackawanna and Western, often run as many as 300 trains through in a day, and it is often the case that two trains bound West come up to the mouth of the tunnel, or the place where they are all obliged to stop before going in, at nearly the same time, and the train that stops first has the right of way in the tunnel, the other not being allowed to start in until the one preceding it has been signaled back as having passed through all right.

Detroit and Milwaukee Railroad.

The earnings of this road for the years ending December 31, 1873 and 1874, (exclusive of the Lake Michigan proportion) were:

	1873.	1874.
From passengers	$521,851 80	$448,625 66
" freight	618,280 01	641,938 71
" mails, etc	41,334 19	41,647 30
" rents	23,411 37	18,995 03
	$1,204,877 37	$1,151,206 70
Expenses, viz:		
Maintenance and renewal of way	$502,020 89	$248,785 68
Locomotive power	235,823 79	213,969 56
Repairs and renewals of passenger and freight cars	144,258 22	135,583 03
Passenger transit expenses	112,712 50	110,049 26
Freight transit expenses	149,596 80	156,843 05
General charges	41,930 92	86,881 22
Taxes and insurance	41,260 47	42,360 45
	$1,227,603 59	$944,472 25
Deficit in 1873	$22,726 22	.....
Net revenue, 1874	.....	$206,734 45
Interest and discounts	403,209 46	417,879 00
Balance at debit	$425,935 68	$211,144 55
Balance at debit December 31, 1873		84,491 56
Total, as in General Balance Sheet		$295,636 11

The gross traffic receipts for the year 1874, exclusive of the Lake Michigan proportion, were $53,670 67 less than the receipts for 1873; and the expenses $283,131 34 less—showing an improvement of $229,460 67. The capital expenditure in 1873 was $270,064 46, against $8,365 59 in 1874. The President in his report says:

When the last annual report was submitted, the directors had reason to expect relief from the embarrassments of the company through the intervention of the Great Western of Canada, who are the owners of a majority of its shares. Negotiations are still pending on this subject. Meantime, the line, in its crippled condition, under a great reduction of freight rates, and with a sharp competition from nine roads crossing it at various points, has earned a net revenue of $206,734 45, which has been applied in part payment of interest on the river front and other early mortgages, arrears of wages, and wood and stores purchased in the previous year.

If the pending negotiations are successful, the line will at once be put in a condition equal to that of any other in the State. Until that is accomplished, the directors have no predictions or promises to make.

The fact that the building of railroads far in advance of the actual business wants of the country has rendered many of them of little value to their projectors, does not diminish their importance as an element in the convenience and prosperity of the people. They have opened tracts of country, which, without them, would have remained comparatively valueless, and have carried population to parts of the State, which, without them would still have been desert. Unless wholly abandoned by their promoters, they must be kept in safe condition for travel and traffic. They are entitled to every protection and encouragement which is consistent with proper legal surveillance.

With regard to the Detroit and Milwaukee Line, the people of the State are not generally aware that they have had the benefit of the expenditure of more than twelve millions of dollars, all which has been a loss to the promoters, except so much as the present value of the mortgage bonds, supposed to be less than five millions; and since the year 1860, the sum of $340,008 64 has been paid into the State Treasury, for annual taxes, and more than eleven millions have been expended among our own citizens in repair and working expenses of the line.

The number of passengers carried in 1874, was 262,521; do. in 1873, 406,933. Tons of freight and live stock in 1874, 343,737; do. in 1873, 303,185. The Superintendent in his report says:

After an absence of over nine years, having by appointment just re-assumed the General Superintendency of your road, it may not be out of place briefly to allude to the various competing roads which, during that interval, have been created, and which for a time must seriously affect the traffic of your line. These are the Detroit and Bay City, the Flint and Pere Marquette, and the Jackson, Lansing and Saginaw Roads, crossing the eastern end of your line, and tapping the extensive lumber regions of the Saginaw and its tributaries; the Detroit, Lansing and Lake Michigan, the Grand River Valley Division of the Michigan Central, the Grand Rapids and Indiana, and the Lake Shore and Michigan Southern roads, with like effect upon the region north of Central Michigan; the Grand River Valley extension to Muskegon, and the Chicago and Michigan Lake Shore draining the country lying on the western side of the Peninsula. Five of these roads are operated in the interest of the Michigan Central. Some of them now contribute, and when the northern part of the State is more extensively peopled will still more contribute to the traffic of your line, but until your track and rolling stock are put in proper condition, you must not expect a satisfactory share of the business from points where competing lines with superior facilities cross your road, and while in its present condition not only are your revenues diminished, but your repairs and working expenses are very largely increased.

Your company ought to own two good propellers, and have its own freight representation in so

important a city as Milwaukee—the Detroit and Milwaukee Railroad key to the Northwest; there is a large margin in this lake part of the business, and the railroad company ought to enjoy it.

Much as no doubt has been done with the small available means in keeping the road and rolling stock in working condition, still your road has been worked at very great disadvantage and cost.

I append a statement of the rolling stock, and a brief outline of the work done on the track, 63 miles of which are laid with light (50 pounds to the yard) American steel. These rails are laid between Royal Oak and Holly, and between Ionia and Grand Rapids.

You have 34 locomotives, 14 of which are passenger, 16 freight, and 4 switching. Of these, 14 are in fair condition, 13 in medium, 6 requiring heavy repairs, 1 poor, and should be broken up and sold as old material.

We require in daily use for the present business, 12 passenger, 14 freight, and 4 switching engines. During the year, 13 locomotives received heavy, and 12 light repairs; 12 of the passenger locomotives have air brake attachments.

You had 28 coaches, 1 was broken up, leaving 27. As far as their bodies are concerned, 10 are fair, 7 medium, 9 poor, 1 good official and pay car. There is 1 second class or emigrant coach, 1 having been broken up, and 5 made into way cars. All coaches fit to run are in constant use. The wheels and axles of all are in good condition.

You have 9 express, baggage and postoffice cars, of which 1 is new, replacing one broken up, 3 good, 2 medium and 3 poor; 16 way cars in fair condition; 138 flat cars (13 were broken up); 188 box grain cars; 107 merchandise cars; 29 cattle cars, being 1 (new) in excess of last year; 2 boarding, and 1 auxiliary or wrecking car.

These cars are, with the exception of about 15, depreciated by age, tear and wear, fifty per cent.

During the year new wheels and axles have been put under first class cars to the extent of 350 wheels and 156 axles; under freight box cars, 340 wheels and 158 axles; under flat cars, 36 wheels and 18 axles; under mail, baggage and express cars, 148 wheels and 73 axles.

With respect to the condition of the track, I would refer you to the Report of the Engineer, merely remarking that the seemingly large expenditure on bridges and culverts has been on permanent structures—substituting stone for timber; putting in 6 stone culverts in place of renewing 2 bridges in timber; 26 timber culverts renewed with stone, and 45 timber culverts renewed with sewer pipe. The great expense, and for so very little benefit, is keeping trackmen taking out daily old and putting in only repaired rails; there is no satisfaction in this, yet it is the only thing that could be done in the present condition of the company.

A further supply of steel rails would quickly exhibit a vast saving in expense. Of the 189 miles of main track, 63 miles are laid with steel, except through station yards, in which it should be placed, because at many of the stations some trains do not stop, and the bad iron in these yards will lead to accident. 50 miles of the track have very fair iron. About 13 miles might be run for about 2 years, but 63 miles should be immediately relaid with steel, of a pattern a little heavier than what you have.

The tonnage, number of passengers and earnings for the year, from the causes I have named, could not be anything but discouraging. With the improvements suggested you must receive a better return for money expended.

During the past year 100 tons of re-rolled rails, 12,788 rails repaired by swage block, and 145,531 crossties or sleepers were put in the track.

CAPITAL ACCOUNT, Dec. 31, 1874.

Cost of line, rolling stock, etc., at December 31, 1873		$10,502,851 54
Expended during the year 1874		8,365 59
Total		$10,511,217 13
Ordinary stock		$422,140 00
Preferred shares, 41,900, at $50 each, secured by mortgage issued upon re-organization, Oct. 24, 1860		2,095,000 00
Bonded Debt:		
Oakland and Ottawa Railroad Co.:		
Sterling bonds, 6 per ct., due 1873, £31,000, converted at 9½ p. ct.		150,866 75
Dollar bonds, 7 per cent, due 1873.		51,000 00
Detroit and Pontiac Railroad Co.:		
Bonds, 7 per cent, due 1878		150,000 00
Bonds, 7 per cent, due 1878		100,000 00
Bonds, 8 per cent, due 1886		250,000 00
Detroit and Milwaukee Railway Co.:		
1st mortgage bonds, 7 per cent, due 1875		2,500,000 00
2d mortgage bonds, 8 per cent, due 1875		1,000,000 00
Detroit and Milwaukee R.R. Co.:		
1st funded coupon bonds, 7 per ct., due 1875:		
Amount issued	$625,923 75	
Yet to be issued	2,601 25

Mechanical shops property bonds.		50,000 00
Bonds of September 1, 1866—Due 1886:		
Total amount issued	$110,000 00	
Balance in Co.'s hands.	190,000 00	
		300,000 00
Bonds of June 30, 1866—Due 1886:		
In hands of Mercha'ts' Bank of Canada, subject to redemption at rate of $100,000 per annum	$1,238,000 00	
Redeemed from ditto up to Dec. 31, 1869, and now in company's hands.	350,000 00	
Outstanding in hands of other parties, being an increase of $202 63 this year, issued for former liabilities	464,519 51	
Balance in company's hands	33,094 82	
		2,085,614 33
Balance carried to general balance sheet		297,689 38
Total, as above		$10,511,217 13

The actual cost of line, rolling stock, etc., at December 31, 1874, amounted to $12,116,234 11—of which $1,954,881 98 was provided for out of revenue, from the organization, in October, 1860, to December 31, 1869.

GENERAL BALANCE SHEET, Dec. 31, 1874.

Balance from capital account	$297,689 38
Balance from net revenue account.	295,636 11
General stores and fuel on hand	101,391 93
Insurance suspense account	12,977 78
City of Grand Haven for its bonds voted in aid of changing Grand Haven Terminus	53,000 00
Bonds of September 1st, 1866, in company's hands.	190,000 00
Balance in Banker's hands, and sundry accounts due to the company	84,840 08
Interest on bonds, uncalled for at 31st December, 1874	$20,152 33
Matured bond interest, unpaid from 15th November, 1873, to 1st Jan. 1875, both dates inclusive	514,337 02
Bills payable	201,458 86
Sundry accounts and traffic balances due by the company	299,587 07
	$1,035,535 28

President.—CHARLES C. TROWBRIDGE.

Vice President.—JOSEPH PRICE.

Directors.—Charles C. Trowbridge, Joseph Price, Henry N. Walker, Edmund A. Brush, Christian H. Buhl, Sir Hugh Allan, William K. Muir, Samuel Barker.

Gen'l Superintendent.—WILLIAM K. MUIR.

Secretary.—JAMES H. MUIR.

Baltimore, Pittsburg and Chicago Railroad.

At the annual meeting of the stockholders of this company, held in Chicago on the 8th inst., the following named gentlemen were elected directors to serve for the ensuing three year: Charles M. Culbertson, George R. Dennis and John K. Cowen. A meeting of the board of directors was held subsequently, and the following officers were elected for he ensuing years: President, W. C. Quincy; treasurer, W. H. Ijams; secretary, William Wing; chief engineer, J. L. Randolph.

After the election of officers the president made a brief statement of the affairs of the company. He stated that the road had been completed from Chicago Junction, Ohio, to Park Side, and that an arrangement had been effected with the Illinois Central Railroad Company whereby the use of tracks into the city had been secured for a stipulated sum, and that certain grounds had been leased from the same company for freight depot purposes.

The board of directors approved the location of the shops of the company at South Chicago, and a conveyance of forty acres of land from the Chicago and Calumet Canal and Dock Company was ratified. After arranging that the annual meeting would occur hereafter on the first Thursday following the first Tuesday in the month of April the meeting adjourned.

The Chicago Times says the company as yet has come to no determination concerning a permanent passenger depot in that city. The lease which they hold upon the exposition building expires in June, when it will be necessary for the road to seek new quarters. It is thought that they may be admitted into the Union depot, but if they should fail to gain admittance, the company may form some sort of an alliance with the Illinois Central Company, which may result in the erection of a new depot building.

The annual meeting of the stockholders of the Baltimore and Ohio Chicago extension railway was held at Auburn Junction, Indiana, on the 8th inst., for the purpose of electing a board of directors for the ensuing year, which resulted in the election of the following gentlemen: David Lee of Illinois, A. P. Edgerton of Indiana, John Gardner and W. C. Quincy of Ohio, and George R. Dennis, John K. Cowen and Wm. Keyser of Maryland. At a subsequent meeting the following officers were elected: President, W. C. Quincy; secretary, W. Wing; treasurer, W. H. Ijams; chief engineer, James L. Randolph.

☞ The opening of the Astoria, Ravenswood and Hunters's Point Railroad took place on the 8th inst.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of March, were:

ENTERED FOR CONSUMPTION.

	1874.	1875.
Manufactures of wool	$2,385,158	$2,827,496
" cotton	2 419.527	2,476,576
" silk	2,464,848	3,023,864
" flax	1,322,326	1,341,205
Miscellaneous dry goods	868,521	1,046,212
Total	$9,460,380	$10,715,353

WITHDRAWN FROM WAREHOUSE

	1874.	1875.

American Steamship Co.

The fourth annual meeting of the stockholders of this company was held in Philadelphia on the 5th inst. Mr. A. J. Derbyshire presided and Mr. Robert W. Smith acted as secretary.

The annual report was read by the secretary. It shows that from the time of the change of the general agency, February 6, 1874, up to January 1, 1875, the steamers accomplished thirty round voyages, with the following results:

RECEIPTS.

Freight	$683,502 13	
Passengers	288,932 97	
Miscellaneous sources	4,023 51	
		$976,458 61
Less disbursements for ordinary operating expenses		828,558 01
Excess of receipts over ordinary expenses of operating		$147,900 60

The disbursements for shore expenses have been as follows:

Expenses of Agencies at Philadelphia, Liverpool, New York and Chicago and 1800 Sub-agencies in America and 1100 in Europe, including compensation of agents, salaries of employes, rent of offices, postages and telegrams, stationery and printing, &c	$88,465 33	
Advertising	39,122 96	
Wharf expenses at Philadelphia and Liverpool, including rent of docks and insurance on merchandise stored thereon awaiting shipment or delivery	8,671 32	
		136 259 61
Showing a gain of		11,640 99
Extraordinary repairs and expenses of the steamers, including the salvage suits		60,555 25
Loss on the operations of the steamers		$48,914 26

During the year, material for permanent use on the piers and docks, and supplies consisting of two sets of propeller blades, one propeller shaft, boiler and brass condenser tubes, in store at Philadelphia and Liverpool, for use on the steamers, as from time to time required, have been purchased, the value of which, January 1, 1875, was $17,827 52

The loss on the steamers, and the cost of surplus stores on hand has, to the extent of $65,000, been met by the issue of the notes of the Company, the balance $1,741 78, being due to the General Agents.

The debt of the Company January 1, 1875, other than bonded debt, as per general account of the Treasurer, amounted to $351,656 17, for which the notes of the Company have been issued, $309,856 11 to the Pennsylvania Railroad Company and $41,800 to other parties.

The specific items for which this debt has been created will appear by the following statement:

Excess of cost of construction and outfit of the four steamers over the capital stock and bonded debt paid in	$153,106 02	
Interest on mortgage bonds	256,860 00	
Advanced for the operations of the steamers and purchase of supplies as above	65,000 00	
Cash on hand	3,312 89	
	$478,278 91	
Less credit to profit and loss	126,622 74	
	$351,656 17	

An election for directors for the ensuing year was then held, with the following result: Henry D. Welsh, President, Josiah Bacon, John Rice, B. H. Bartol, John Price Wetherill, D. B. Cummins, M. Baird, N. Parker Shortridge, Strickland Kneass, Edmund Smith, William D. Winsor.

Condition of the Anthracite Furnaces.

The Bulletin of the American Iron and Steel Association of April 2, says that during the strike now prevailing in the anthracite coal regions, furnace men are rapidly being compelled to blow out their furnaces or resort to the use of coke. In the Lehigh Valley the supply of anthracite coal is becoming so short that those iron manufacturers who are determined to use nothing else cannot expect to run their furnaces longer than the 1st of May. The Thomas Iron Company have been using coke at Alburtis and Hokendauqua for over two weeks, using about one fourth coke to three fourths anthracite, and they say the new fuel works satisfactorily. The Crane Iron Company have purchased 4000 tons of coke, and began to use it in one of their stacks at Catasauqua on last Saturday. They are mixing it with anthracite in the same proportion as the Thomas. Coke cost $6 50 per ton, delivered at points in the Lehigh Valley, and it has been determined by actual experiment in anthracite furnaces that 1¼ tons of coke are equal in smelting power to 1¾ tons of anthracite, these being the quantities required of each respectively to produce a ton of iron. The following is very nearly the situation in the Lehigh Valley: Carbon Iron Company (three stacks) have one stack in blast, and are receiving coal regularly. Lehigh Valley Iron Company (three stacks) have two in. Crane Iron Company, (six stacks) have three in. Thomas Iron Company have both stacks at Alburtis in, and two in out of six at Hokendauqua. Allentown Rolling Mill Company (two stacks) have one in. Emaus Furnace is in. Allentown Iron Company have all five stacks in. Lehigh Iron Company (two stacks) have one in. Saucon Iron Company have both their stacks out. Bethlehem Iron Company (four stacks) have all their furnaces in blast, but may blow all out soon. Coleraine Iron Company (two stacks) have one in, but may blow it out soon, as they are short of coal. Peter Uhler's furnace is out. Glendon Iron Company (five stacks) have two in. Millerstown Iron Company's furnace is out. North Penn Iron Company's furnace is in, but is expected soon to blow out: and Edge Hill Iron Company's furnace is in. In New Jersey, the Andover Iron Company (three stacks) have two in. Musconetcong Iron Company (two stacks) have one in; and Port Oram Iron Company's furnace is in. Total number of stacks enumerated, 53—in blast, 31, and out of blast, 22.

In the Schuylkill Valley some furnaces are still supplied with anthracite by the Philadelphia and Reading Coal and Iron Company, who have managed to get some coal from the Wyoming collieries. Some furnaces are, however, running partly on coke: Seyfert, McManus & Co.'s, E. & G. Brooke's, and Montgomery Iron Co.'s. The condition of the Schuylkill Valley furnaces is very nearly as follows: St. Clair Furnace is out. Ringgold Furnace is in. Port Carbon Furnace is in. Atkins & Brother's three furnaces are in. Minersville Furnace is out. Topton Iron Company's Furnace is out. Temple Iron Company's Furnace is in. Seyfert, McManus & Co. (two stacks) have one in. Clymer Iron Company's Furnace is out. Keystone Furnace Co. (two stacks) have one in. Eckert & Brother's two furnaces are out. Leesport Iron Company's Furnace is out. Monocacy Furnace is out. Moselem Furnace is in. White & Ferguson's two furnaces are out. Phœnix Iron Co. (three stacks) one out, and two have been "banked up" for three weeks. Montgomery Furnace is in. Norristown Furnace is out. Schall & Co.'s Furnace is out. E. & G. Brooke (four stacks) have one in. Swede Furnaces are both out. D. O. & H. S. Hitner (three stacks) have two in. S. Fulton & Co.'s two furnaces are out. J. B. Moorhead & Co.'s two furnaces are out. Pottstown Iron Company's Furnace is in; and

Robbins and Son's Furnace is in. Total number of stacks enumerated, 42—in blast, 15, and out of blast, or "banked up," 27.

Our information about the Susquehanna Valley is not so full, but the following embraces some of the furnaces of that locality: Hon. G. Dawson Colemen (three stacks) has one in. R. W. Coleman's Heirs & Co. (five stacks) have one in. Pennsylvania Steel Company's Furnace is running partly on coke. Chestnut Hill Iron Ore Company (three stacks) have all out. St. Charles Furnaces (two stacks) and Chickies Furnaces (two stacks) are running partly on coke. Witte's Furnaces are both out; but it is reported that the proprietors of Chickies Furnaces, E. Haldeman & Co., have leased one of them, intending to blow it in shortly. Cameron and Middletown Furnaces are both out; and Dauphin Furnace is in. Wistar Furnace is in; and McCormack & Co. (two stacks) have one furnace in blast, running partly on coke. Total number of stacks enumerated, 24—in blast, 10 and out of blast, 14. The freight on Connellsville coke to Harrisburg is now $3 50 per ton.

The grand total of the above mentioned furnaces is 119—in blast, 56, and out of blast, 63.

Free Passes—Contract to carry at Passenger's own Risk.

In the case of Gallin vs. The London and Northwestern Railway Company (English Court of Queen's Beach, Feb. 3, 1875,) the plaintiff, a drover, who had traveled with cattle by the defendants' Railway, on the terms that he was to be free of charge, but at his own risk, was, in consequence, as the jury found, of the negligence of the defendants' servants, injured after leaving the train, in the course of his departure from the defendants' premises it was held that the plaintiff took upon himself the risks incidental to the whole transaction, the access to and departure from the train as well as the actual transition, and therefore that the defendants were not liable.

The first count of the declaration stated that the plaintiff was a passenger of the defendants, to be by them safely and securely carried for reward to the defendants, and that by the defendants' negligence the plaintiff was thrown down while alighting from the carriage of the defendants and injured. The second count stated that the defendants so negligently managed their stations and carriages, and placed the carriages in such dangerous positions, and kept the station in such a dangerous state, and omitted to light it, and to provide proper accommodation for passengers to depart from the carriages, that the plaintiff, having been carried as a passenger, on alighting fell and was injured. The third count stated that the plaintiff was a passenger of the defendants to be safely and securely carried for reward to the defendants, and that on the invitation of the defendants he alighted from the carriage, and the railway was, to the defendants' knowledge, unlighted, unfenced, unguarded and dangerous, whereby the plaintiff, in lawfully walking along the railway for the purpose of leaving the same at the place directed by the defendants, fell and was injured.

Pleas: Not guilty, and to the first count that the plaintiff was not a passenger on the terms alleged. Issue: The action was tried before Amphlett, B., at the Liverpool Spring Assizes, 1874 The plaintiff was a cattle drover. On the 21st of November, 1870, he took two trucks of cattle by defendants' line from Lostoch Hall Junction to Garstang. The journey was made during the night, and, for the plaintiff's convenience, by a train which did not ordinarily stop at Garstang. The plaintiff traveled in the guard's van. On arriving at Garstang, on the morning of the 22nd, the train had to be taken to a goods siding, when the trucks were taken off. The plaintiff there got out of the van, and was directed by the guard to go towards the station which was 300 or 400 yards off. Between the siding and the station the line passed by a bridge over a river, and the plaintiff had to walk between the rails on which the train was standing and the parapet of the bridge, a space of four feet six inches, the parapet being two feet high. While he was so passing the train moved, and the plaintiff stepped on one side and felt the parapet. It is was so dark that the plaintiff could not see what the parapet was, and thinking it was the platform of the station, made a step forward and went over into the river. Owing to the lateness of the hour the plaintiff had not taken a regular ticket for the journey.

There was some dispute as to what the plaintiff's admissions amounted to, but substantially it may be taken that he admitted that he had traveled in the same way several times before by the defendants line, and that he knew that their terms (as stated on the ticket which, in the ordinary course of things he would have taken) were that a drover traveling with cattle free of charge should travel at his own risk, and he admitted also that when he afterwards came to settle with the company he paid only for the cattle and not for himself, and that he was, therefore, traveling free. The jury found that there was negligence, and a verdict for £375, subject to leave to move to enter a non suit, with liberty to make any necessary amendment. A rule *nisi* was accordingly obtained to show cause why a verdict for the defendants should not be entered, on the ground that the plaintiff was traveling at his own risk, and that there was no evidence of negligence, the court to be at liberty to make necessary amendments. Against this rule Russell, Q. C. and French, showed cause. Assuming that the plaintiff was traveling at his own risk, he was at his own risk only during the journey, during the actual transit. But here when the accident happened the journey was at an end. The defendants, liability *qua* carriers ceased when the train arrived: after that the plaintiff had the same rights as any other person going upon the company's premises with license. He cited Robinson *vs.* Great Railway Western Co. 14 W. R. 256; D'Arc *vs.* London and Northwestern Railway Company, 22 W. R. 919, L. R. 9 C. P. 325. [The court referred to Hodgman *vs.* the West Midland Railway Company, 12 W. R. 1054, 5 B. and S. 173, 13 W. R. 758, 6 B. and S. 560; and Carr *vs.* Lancashire and Yorkshire Railway Company, 7 Ex. 707. Aspinwall Q. C., and Shiell, *contra* were not called upon.

Blackburn, J.—I think this rule must be made absolute. It is impossible that the leave could have been reserved except on the supposition that the contract was that plaintiff should travel at his own risk. Then if that was the contract, does that free the company from liability in the present case? What would have been the liability of the company to an ordinary passenger? A person who invites another to come on his premises is bound to take reasonable care not to expose such person to undue danger. That is the implied engagement of a railway company in the case of an ordinary passenger. Whether if the plaintiff had been a passenger traveling under no particular arrangement, the company would have been liable, it is not necessary to say. But here the company have stipulated that the plaintiff should travel at his own risk. Now that, I think, means that the company were to be free, not only of all risks arising from the acts of their own servants, but of all risks incidental to the journey, not merely during the actual transition, but before and after it; till the whole transaction was completed. The case of Hodgman *vs.* the West Midland Railway Company (*ubi sup*) shows this. There the plaintiff's horse was injured in the course of being loaded before any ticket had been taken or declaration of value made, and it was held that under the Railway and Canal Traffic Act, 1854, the company were protected for liability beyond £50, though no contract had been entered into and no complete delivery made, it being enough that the animal was in the course of being delivered to the company. So here it is enough that the plaintiff was in the course of leaving the defendants' premises.

Mellor, J.—I am of the same opinion. I think that the stipulation that the plaintiff was to travel at his own risk must mean, as in Hodgeman *vs.* the West Midland Railway Company (*ubi sup*), that he was to take all risks incident to, and arising out of the transaction till the journey was actually accomplished, and the whole transaction at an end, and therefore the company is not liable for what happened in this case. I have no doubt that the words extend to protect the company from this liability.

Lush, J.—I am of the same opinion. I think that the condition clearly includes risks incidenta to the access to and departure from the train, as well as those belonging strictly to the actual transition; it includes all risks occurring during the whole transaction from its beginning to its completion.

Rule absolute.

Catawissa Railroad.

The annual meeting of the stockholders of this company was held in Philadelphia on the 6th inst. The annual report of the directors, which was presented, says: "The treasurer's account at the close of the previous fiscal year showed a balance of $5,733 27. Received May 1, of the Philadelphia and Reading Railroad Company, $89,000; November 1, $89,000; total, $183,733 27. Paid dividends May, 1874, $81,500; do. November, 1874, $67,571 90. Paid in settlement of outstanding accounts, $1,566 64. Balance, $33,094 73. The Supreme Court in Banc have defined the act of April 24, 1874, an act taxing corporations, to be a tax upon the capital stock, to be retained by the treasurer, as agent for the state, from all dividends paid stockholders. In accordance with this decision the company have since the first of the year declared and paid an additional dividend to the second preferred stock of 62⅔ cents per share. This, with the dividends previously paid amounts to 2⅓ per cent., less the state tax of 9 per cent. The lessees report, during the two years of the lease, an outlay of about $300,000 upon the road, which they claim has now placed it in as efficient a condition as their other lines of road. In addition to 5055 7/20 tons of iron placed in the track in 1873, 1787 4/20 tons have been placed during 1874. The lessees report the receipts from the working of the road in 1874, as $720,503 24 against $713,011 88 for 1873." The report was accepted.

☞ The San Jose (Cal.) *Mercury* says that the new iron-clad continuous furnace, recently introduced at the New Almaden Quicksilver Mine, in Santa Clara county, is giving great satisfaction. It has now been in operation one month, and the saving in fuel is found to be such as to warrant the belief that it will eventually supplant the old style of furnace for reducing quicksilver ores altogether, and work an entire revolution in the economy of quicksilver mining. By actual test it is found that from twelve to fifteen cords of wood, by this furnace, will do the work of from fifty five to sixty cords by the old process.

☞ The Dubuque *Times* says a very rich deposit of lead has been discovered in an old deserted mine on the Wildo ground near that city. A million pounds of rich galena was in full view, while it is almost certain that there is two or three times as much concealed in the clay. There are signs of still greater richness further down.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, April 17, 1875.

Financial and Commercial Affairs.

At the Stock and Gold Boards, business has been again quite active, and the temper of the speculative dealings has been decidedly more confident, favored in good part, by the remarkable ease in Money. The demand for accommodation, both on call and in the discount line, has been somewhat brisker, but has been very promptly met, in the leading instances, by lenders at the current comparatively low figures. Call loans have been quoted at from 3@6, and the best mercantile credits at from 5½@7 per cent per annum. The City Banks have made a net aggregate gain of $3,187,700 in reserves, as against liabilities; and the next weekly exhibit it is confidently anticipated will prove even more favorable. The legal tender average is a raising one. The specie line is much stronger. The currency reserve of the Sub Treasury was reduced $343,712; and the specie balance, enlarged $1,374,204. The City banks last week reduced their reserve of legal tender notes $1,416,900, and increased their deposit item $1,017,600 while also augmenting their specie average $4,859,000. They report a reduction of $1,291,400 in the loans and discounts, and a falling off of $68,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $42,379,471, against $42,723,182, the preceding week; and a coin board of $57,670,138, against $56,275,934, on the previous return. The City bank exchanges in currency during the week, were $490,196,721, or a daily average of $81,699,452. The customs revenue of the port, during the week, was $2,384,000. The City banks reported their average of gold last week at $14,524,520, and their greenback average at $18,419,900. Their deposits stood at $215,893,700. The loan item was $278,263,200. The circulation was $21,506,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,970,975.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is $379,226,900. The National bank circulation is now $349,286,226.

The U. S. Treasury balances on Wednesday were as follows: Currency, $3,938,872; special deposit of legal tenders for redemption of certificates of deposit, $46,710,000; coin, (including $23,427,400 in coin certificates,) $85,382,426.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $8,878,316.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 88 millions.

The Gold speculation has shown more vigor and buoyancy. The dealings have been on a more liberal scale. The export demand has been moderate, and the customs inquiry fair. The breaking up of the late clique operations led to the return of a large amount of specie to the banks. The extremes of the week have been 114⅝@115¼, closing on Wednesday at 115 as against 114¾ on Wednesday of the preceding week. The specie outflow last week was $658,797. The imports of specie at this port since Jan. 1, have been $5,064,248 against $1,188,066 same time last year. The customs demand for Gold last week averaged $397,334 a day. Foreign Exchange has been in fair demand, and again quoted firmer as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86½; sight bills on London at $4 90@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,151,269.

Government Securities have been more confidently purchased, mainly on home investment account, and prices have been further advanced, closing firmly. In State and Railway bonds, business has been also more active, with values generally quoted firmer. And in the line of Railway and Miscellaneous share property, a livlier movement has been reported on a generally buoyant market.

U. S sixes of 1881 closed on Wednesday of this week at 122½@122¾; U. S. Five-Twenties of 1862, at 118¼@118½; U. S. Five-Twenties of 1864 at 119⅛@119¾; U. S. Five-Twenties of 1865 121⅝@121⅞; U. S. Five-Twenties of 1865 consolidated, 120⅝@120⅞; U. S. Five-Twenties of

1867, 121⅓@121¾; U. S. Five-Twenties of 1868, 121½@121¾; U. S. Ten-forties at 116¼@116½; U. S. Fives of 1881, (Funding Loan) 116⅜@116⅝; Six per cent. currency Sixes from 120⅝@120⅞.

General business shows some increase in the dealings in many articles in the produce and merchandise lines. Breadstuffs have been quite freely dealt in, opening at buoyant prices, but closing lower and somewhat irregular. Cotton has been pressed for sale, and quoted easier as to values, on a fairly active movement. Provisions have been held more confidently, checking operations. Hardware, Dry Goods, and Groceries have attracted more attention. Sugars, Coffee, and Molasses have been quoted firmer. Hides, Leather, Skins, Boots and Shoes, Tobacco, Fish, Hops, Hay, Straw, Oils, and Spices have been moderately sought after within the previous range. Seeds, Petroleum, and Naval Stores have been in better demand and held more firmly. The Metal trade has been dull and weak. Eglinton Pig Iron quoted from yard at $32 50@$34; Glengarnock, $36@$38; No. 1 American Pig at $28; No. 2 do. at $25@$26; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $50@$53; Old Rails, $30@$35. Wrought Scrap, $34 50@$35 00. Ingot Copper has advanced to 22¼@22½. Ocean freights have been more active, but lower. Grain, Cotton, Petroleum, Provisions, Tobacco, and Resin room in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

The Government and the Railroads.

The Court of Claims at Washington has set the 19th of April for hearing the case of the Union Pacific Railroad Company against the United States. The Secretary of the Treasury, by act of March 3, 1873, was directed to withhold all payments to any railroad company and its assigns on account of freight or transportation, etc., but railroad companies were allowed to bring suit to recover for freight and transportation. Sidney Bartlett appears for the company, and Assistant General Goforth for the government. George Taylor and Colonel Hamill have filed a bill in the Court of Claims in behalf of the railroad companies they represent. On the subject of the right of the government to deduct one third of the regular charges of transportation from the land grant railroads, counsel in behalf of their clients claim that the government has a right to use only the railroad as a highway with the government's own rolling stock and servants, and that the government has no right whatever to make a composition of that right by deducting any portion of the charges for transportation.

Definition of Capital Employed.

In the case of Bailey, collector, vs Clark, Dodge & Co., and same vs. Frank Work, in which the collector sought to impose the internal revenue tax upon money temporarily borrowed by the bankers in the course of their business, the United States Supreme Court decides that the term "capital employed" by a banker in the business of banking, in the one hundred and tenth section of the revenue act of 1866, does not include moneys borrowed by him from time to time temporarily in the ordinary course of his business. It applies only to the property of moneys of the banker set apart from other uses and permanently invested in the business. Mr. Justice Field delivered the opinion.

☞ The South New Jersey Narrow Gauge Railroad Company has been organized for the purpose of constructing a narrow gauge railway between Woodstown and Woodbury, with a capital of $200,000. The Board of Directors consists of the following gentlemen: E. B. Humphreys, James D. Lawson, Benjamin L. Taylor, Barclay Edwards, Joseph L. Duell, Wm. S. Mattson, George Horner, Jonathan Colson, Jacob H. Mounce, L. S. Pancoast, James Gardiner, George M. Tatum and James P. Michellon. Wm. S. Mattson was elected President. About $50,000 have been subscribed.

☞ One of the last acts of the Virginia Legislature was the passage of a new railroad law forbidding undue preferences, and prohibiting common carriers from charging for transportation over the same distance and the same character of trains a higher rate for freight consigned to or from any point in that State than is charged for like freight to or from any point beyond the limits of the State, or more for local than for through freight and passengers.

☞ The Montreal *Witness* says: The Merchants' Bank having declined to accept the terms lately offered by the Detroit and Milwaukee Railroad for the redemption of the Street Douglas bonds, the mortgages on the property of the railroad have been foreclosed, and a Receiver appointed.

Canada Pacific Railway.

The House of Commons have ratified two contracts connected with the Pacific railway, both of which are with Messrs. Sefton & Ward, and they amount together to a little over $800,000. One is on the Fort William and Shebandowan section and the other on the Lake Cross and Red River section; and they together cover grading and bridging a distance of 122 miles. There being a difference of two millions between the highest and the lowest tenders on the Lake Cross and Rat Portage section, 37 miles long, the Government did not see its way to accept any.

☞ At Louisville, Ky., on the 9th inst., the bondholders of the Louisville and Cincinnati Short-Line, were in consultation with Mr. A. S. Hatch, a banker and capitalist of New York, on a proposition to connect the Chesapeake and Ohio road with the Short-Line, extending the line from Mount Sterling, Kentucky, to Huntington, West Virginia. Mr. Hatch stated that Richmond, Va., would give the sum of $1,000,000 to secure the connection. He also proposed to the bondholders that they fund the interest on their bonds till 1876, when interest certificates will be issued them payable from the earnings of the road. No positive action has yet been taken on the proposition.

☞ At the annual meeting of the stockholders of the Allegheny Valley Railroad company, held in Pittsburg on the 13th inst., the following Board of Directors was elected for the ensuing year: Thomas A. Scott, George B. Roberts, William M. Lyon, F. R. Brunot, J. P. Lyon, J. F. Jones, W. K. Nimick, James Park, Jr., and John Scott. The President's report shows the earnings for 1874 to be $2,389,472, expenses $1,470,784 73, net earnings $918,687 27. The receipts for 1873 were $2,697,238 24, expenses $1,931,912 94, net earnings $765,325 30. The net earnings of 1874 show an increase of $153,361 97 over those of 1873.

☞ At the annual meeting of the stockholders of the Green Bay and Minnesota Railroad, the following gentlemen were elected Directors: David M. Kelly, Henry Ketchum, W. J. Abrams, M. D. Peak, F. S. Ellis, George Sommers, W. E. Peak, E. F. Halfield, Jr., N. Y., Walter Scranton. At the directors' meeting the following officers were elected: President Henry Ketchum, Vice President and General Manager David M. Kelly, Superintendent S. B. Kenrick, Secretary and Paymaster W. J. Abrams, Treasurer W. R. Hancock, General Freight Agent David Atwood, General Passenger Agent R. W. Nathan, Auditor J. M. Norris, Chief Engineer F. Alton.

☞ Sealed proposals will be received at the City Commissioner's office, Baltimore, Md., until April 26th, for the material for and construction and erection of nine iron bridges over Jones' falls on the lines of the following streets and avenues: Madison, Monument, Gay, Fayette, Baltimore, Lombard and Pratt streets, and Canton and Eastern avenues. The bridges will be of single spans, ranging from 75 to 114 feet, 9 inches between abutments, and from 40 to 66 feet wide, and are to be erected at such times and at such points as may be required during the progress of the other portions of the work connected with the Jones' falls improvement.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.
EXECUTE ORDERS AT STOCK EXCHANGE.
INTEREST ALLOWED ON DEPOSITS.

☞ The *Bulletin Francais* states that the Directors of the Channel Bridge Company have just ordered the construction of an arch 1,000 metres in length, for the purpose of proving the feasibility of the scheme of M. Boulet, engineer, at Bourges, of throwing a bridge across the Straits of Dover. A model of this bridge, consisting of a road for vehicles and foot passengers, will probably be erected in the Bois de Bologne or Champs de Mars, at a height of fifteen metres above the ground. The Directors maintain that, whereas the tunnel would take eight years and cost at least 25,000,000 francs, the bridge could be erected in a few months at an expense of only 600,000 francs.

☞ At a meeting of the stockholders of the Staten Island Railway Company for the election of directors, the following were chosen: Jacob W. Vanderbilt, A. J. Onkenschausen, J. W. Mercereau, B. Kreischer, L. H. Meyer, John Stitt, Dwight Townsend, William King, Joseph Britton, James J. Winant, Nathaniel Marsh, Charles Carranello, and James McNamee.

☞ William Keyser, Walter C. Quincy, John K. Cowen, Geo. R. Dennis, John Gardner, W. C. Holgate and A. D. Smith, have been elected directors of the Baltimore, Pittsburg and Chicago Railroad Company. Walter C. Quincy was unanimously elected President, William Wing Secretary and Treasurer, and James L. Randolph Chief Engineer.

☞ C. A. Trowbridge of Detroit has been appointed provisional receiver of the Detroit and Milwaukee Railroad, with the consent of all parties connected with the financial troubles of that corporation. He will at once pay off the employes and on June 15 the courts will consider the propriety of appointing a permanent receiver.

☞ The Pottsville (Pa.) Miners' Journal says the supply of coal sent from all the Pennsylvania regions so far this year is 3,019,092 tons, a decrease of 910,258 as compared with the same period last year. The decrease in the supply of anthracite is 972,375.

☞ The Geneva and Southwestern (N. Y.) Railroad is to be constructed from Geneva to Naples by September, 1875, and to Wayland, a point on the Erie Railway, by September, 1876.

Land Grant Railroads.

The following official correspondence shows the construction placed by the War Department upon certain acts of Congress relating to payments of money to certain Pacific Railroads for transporting troops or property of the United States:

WAR DEPARTMENT,
QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., March 19, 1875.

To the Honorable Secretary of War:

SIR: The law making appropriations for the support of the army for the fiscal year ending June 30, 1876, and for other purposes, approved March 3, 1875, provides "that no money shall hereafter be paid to any railroad company for the transportation of any property or troops of the United States over any railroad which, in whole or in part, was constructed by the aid of a grant of public land on the condition that such railroad should be a public highway for the use of the Government of the United States, free from toll or other charge, or upon any other condition, for the use of such road for such transportation; provided that the foregoing restriction shall not apply for the current fiscal year, nor thereafter, to roads where the sole condition of transportation is that the company shall not charge the Government higher rates than they do individuals for like transportation, and when the Quartermaster General shall be satisfied that this condition has been faithfully complied with."

A similar provision, with the exception of the proviso quoted, and the fact that the prohibition applies only to the appropriations for the fiscal year ending June 30, 1875, was inserted in the act making appropriations for the support of the army for the fiscal year ending June 30, 1875, approved June 16, 1874. That law was construed by the Attorney General as applying to all railroads that had received grants of public lands upon any conditions whatsoever for the use of such roads, and embraced all railroads known as land grant railroads, with the exception of the Oregon Central Railroad and the Utah Central Railroad, which railroad was decided by the Second Controller of the Treasury, Jan. 14, 1875, not to be a land grant railroad within the meaning of the act of Jan. 16, 1874. An examination of the table of land grant railroads, published in General Orders No. 98, of 1872, will show that there are 14 railroads that received grants of land on conditions of one kind or another, having reference to Government transportation other than the one that the railroad "shall be a public highway for the use of the Government, free from toll or other charge." These roads are: The Atlantic and Pacific, the Central Pacific, main line; the Central Pacific, Western Division; the Central Branch Union Pacific, the Denver Pacific, the Kansas Pacific, the New Orleans, Baton Rouge and Vicksburg, the Northern Pacific, the Sioux City and Pacific, the St. Joseph and Denver City, the Southern Pacific of California, main line; the Southern Pacific of California, branch line; the Texas Pacific, and the Union Pacific.

On pages 32 to 40, inclusive, table of land grant railroads, will be found full reference to the laws and the conditions for the use of the roads by the Government attached. An examination of these laws will show that there are other conditions than the one "that the company shall not charge the Government higher rates than they do individuals for like transportation." But whether those conditions are of such a nature as will exclude any or all of the roads above named from the benefits of the proviso above quoted, is a question which I respectfully submit for decision by such of the law officers or accounting officers of the Government as the Secretary of War may think proper. I am of opinion that it was the intention of Congress to except from the prohibition "that no money shall hereafter be paid to any railroad company," &c., all roads that are not required in some way or other to give the free use of their roads for the transportation of troops or property of the United States, or to transport the same free of cost, charge, or expense to the United States. If this opinion is correct, then it appears to me that all roads named in this communication are included in the proviso which excepts certain roads from the operation of that portion of the law forbidding payments to those roads "constructed, in whole or in part, by the aid of a grant of public land on the condition that such railroad should be a public highway for the use of the Government of the United States, free from toll or other charge, or upon any other conditions for the use of such roads for such transportation."

Another question which I desire decided is, Does the proviso "that the foregoing restriction shall not apply for the current fiscal year, nor thereafter, to roads where the sole condition of transportation is that the company shall not charge the Government higher rates than they do individuals for like transportation," repeal the act of June 16, 1871, so far as the latter forbids payment out of the appropriations for the current fiscal year to the roads above named, so as to permit payment to those roads for services that have been rendered, or that may be rendered, during the current fiscal year.

Of course it is understood that the act of March 3, 1873, prohibiting payment to certain roads indebted to the United States for interest upon bonds of the United States, issued to said companies, is still in force. I am, very respectfully, your obedient servant,

M. C. MEIGS,
Quartermaster General Brevet Major-General U. S. A.

WAR DEPARTMENT, March 23, 1875.

Respectfully referred to the Second Controller of the Treasury for opinion.

H. T. CROSBY, Chief Clerk.

Respectfully returned to the Secretary of War, with the remark that after examination of the statutes of Congress relating to the land grant railroads, I concur with the view expressed by the Quartermaster General in his report to the Secretary of War, dated March 19, 1875: First, that the enumerated railroads are excepted from the prohibitions, as contained in the acts of June 16, 1874, and June 20 and 22, 1874; and, second, that the act of March 3, 1875, no longer operates to prohibit payment for the current fiscal year to those railroads where the sole condition of transportation is that the company "shall not charge the Government higher rates than they do individuals for like transportation," etc., etc.; and, by the phrase "current fiscal year," found in the Appropriation act of March 3, 1875, it is understood that the fiscal year beginning July 1, 1874, and ending June 30, 1875, is meant. The act of March 3, 1873, as the Quartermaster General remarks, is left in full force in respect of the Pacific Railroads indebted on account of United States bonds.

J. M. BRODHEAD, Controller.

Science of Ship Construction.

The discussion as to the proper form of the water lines of ships is still carried on in the nautical journals, with the same varying opinions and conclusions as heretofore, notwithstanding the advantage presumably derived from recent investigations and experience. That the theory of the resistance of ships has of late been revolutionized is, however, well known; the first steps taken in this direction consisting in ascribing the main parts of such resistance not to the necessity of displacing the water but to friction, the idea being maintained that the immersed perimeter is a more accurate measure of resistance than the sectional area, which had hitherto been adopted. Not only this, but it was also shown that the water lines of a ship should be of such a configuration that each particle of water encountered by the stem will be moved sidewise, in the manner of a pendulum, until it reaches the middle of the vessel, when it must flow inward again by the return beat, and come to resist at the stern. Experience having proved, however, that vessels built upon the latter principle do not sail much faster than ordinary vessels, the conclusion arrived at has been that the main resistance is friction—a view which is now most generally accepted. It is shown that, at high speed, a form of vessel with round, blunted ends, like the neck of a swimming bird, is better than a very sharp bow—that is, if the area of each successive cross section is the same in both cases, as the rate of displacement will be the same, and the surface, and consequently the friction will be the least in the blunted, semi-circular vessel, formed with swan like lines.

The Tunnel Route Open.

The Hoosac Tunnel has gone into practical operation. The first through bill of lading was dated April 5, at North Leominster, covering a car of furniture weighing 12,000 pounds. The same day the return freight was twenty cars of corn billed at Troy through to Boston. This train was detained all the week at Bardwell's Ferry by the freshet which swept away two spans and the central pier of the bridge.

A through express business begins on Monday, covering all points on the Fitchburg and Troy and Boston. On Monday a contract was made to bring 500 cars of coal direct from the mines in Pennsylvania to Fitchburg, the service beyond Troy being done by the Delaware and Hudson Company, operating the Susquehanna road.

As the State still controls the rails on the Tunnel road proper it is impossible to determine how large and how complete facilities can be afforded to shippers; but the Fitchburg road, which has the most direct connections, is disposed to push the business all it will bear. This corporation has fifty cars now building at Laconia to form the nucleus for a through line, the first ten of which, it is thought, will be ready by the 15th instant. The cars will be painted a coffee brown, lettered in white as follows: Hoosac Tunnel Line—Fitchburg Railroad—No Transhipment Between New England and the West.

These cars are all fitted with a patent truck, the wheels having the usual broad thread. Railroad men who are generally well informed state that the New York Central have one hundred freight cars now in the repair and paint shops to be colored and lettered for this line, and that the Chicago, Burlington and Quincy have ten cars in process of transformation for this new route, and that the Pennsylvania Company are building thirty freight and repainting sixty coal cars to run through the tunnel and be identified with this route by color and orand.

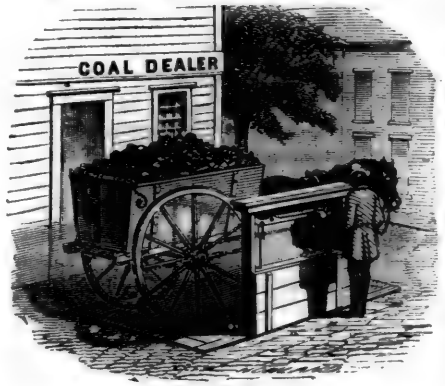
It is not improbable that by the first of June offices for the Hoosac Tunnel line will be opened in all the leading shipping points, and through bills of lading be procurable for reaching Boston by this route. The competition so far has been productive of a more prompt delivery of freight from all lines. There is no expectation that rates will be cut.—*Com. Bulletin.*

☞ At a meeting of the corporators of the Lewiston and Augusta Railway, in Augusta, Me., on the 30th ult., the charter granted by the last Legislature was accepted, and a board of directors elected, with J. R. Bodwell of Hallowell as President, Josiah Maxy Clerk, and Joshua Gray Treasurer.

☞ A large force of laborers are now at work on the extension of the Washington and Ohio Railroad from Round Hill to Snickersville, in Loudoun county, Va. The new bridge over Tuscarora run, on the same road, has been successfully erected.

☞ The Scotia Iron Company, of St. Louis, Mo., has just concluded the sale of 7,500 tons of charcoal iron to the Pennsylvania Steel Works and Bethlehem (Pa.) Iron Company.

The Coal Trade.



The anthracite coal tonnage reported by the several coal carrying companies for the week ending on the 3d inst. is stated by the Philadelphia *Ledger* at 282,290 tons, and for the year to date at 3,775,723 tons, against 5,027,934 tons to corresponding date last year, showing a decrease of 1,252,211 tons. The bituminous tonnage for the week was 65,293 tons and for the year 552,599 tons, against 490,582 tons to corresponding time last year, an increase of 62,017 tons. The total tonnage of both hard and soft coals reported amounted to 857,583 tons, and for the year to 4,328,322 tons, against 5,515,516 tons to corresponding time last year, a decrease in both kinds of 1,190,194 tons. These aggregates are subject to a deduction for so much coal as passes over more than one road, and thus is doubled in the above reported aggregates. The amount, however, is not very considerable, and does not change materially the relative tonnage of the companies. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 74,542 tons, and for the year 691,625 tons, of which 565,786 was coal and 125,839 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 10th instant there were no receipts of coal, the shipments 16,000 tons, leaving but 2000 tons on hand. The *Ledger* adds:

There is no change in the trade as compared with what it was last week at this time. The troubles in the mining region between the operators and the working men in reference to wages continue, the effect of which is almost an entire non-production of coal in the Lehigh and Schuylkill coal regions. The anthracite coal trade itself is virtually at a standstill, and coal is becoming very scarce. As yet there has been little if any advance in prices to consumers, a fact in a great measure due to the controlling influence in the market of what is known as the "combination" in the coal trade, and which professes as one of its purposes to regulate and make steady prices all through the year. In the bituminous coal regions there are unusual efforts making to press the largest amount of that coal possible into the market, and for other than domestic uses it is quite largely taken in the place of anthracite.

☞ Dr. Engel, director of the Prussian Statistical Bureau, estimates that there are at least 150,000 stationary engines with from 3 to 3½ millions of horse power, 50,000 locomotives with an aggregate of 10,000,000 horse power, and 5255 ocean steamers in the world. The United States leads in the number of the stationary and locomotive engines, but Great Britain is credited with having more steam vessels and more tonnage than all the rest of the world.

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two premiums awarded.)

THE WHARTON
Safety Railroad Switch.
☞ BOTH RAILS of the main track absolutely immovable, continuous and unmutilated. ☜
This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.
They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.
Address,

☞ Russia has 12,000 miles of railway open to traffic, while 3,000 miles more are in course of construction.

☞ There has recently been placed on the baggage, mail, express and sleeping cars of the overland trains passing through Sacramento, an attachment to the Westinghouse air brake apparatus, known as Bassett's automatic poppet valve, which has been in use, by way of test, on a local train on the San Francisco and Alameda Railroad for about a year. Under the old arrangement, when the brakes were to be thrown off the air had to return from the cylinder beneath the cars back to the engine, but by the use of this valve it is discharged direct from each cylinder, and the brakes are released instantaneously. The applying of the valve to the cylinder is but a minute's work.

☞ The earnings of the Central Pacific Railroad for the month of March, 1875, were $1,192,000, against $882,423 for the month of March, 1874 and $939,778 for the month of March, 1873. For the three months ending March 31, 1875, the earnings were $2,984,000, against $2,535,026 for the three months ending March 31, 1874, and $2,521,061 for the three months ending March 31, 1873.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

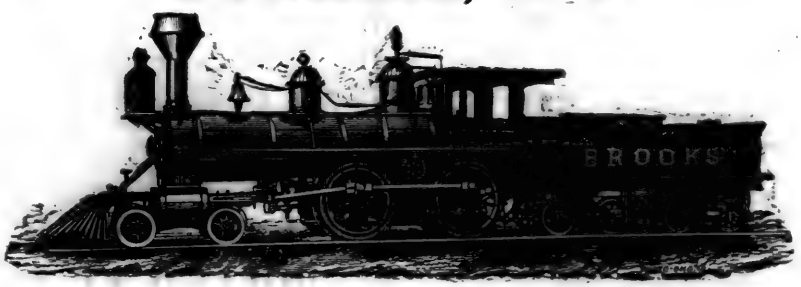
The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between **50,000,000** people in the United States and Canada, and **40,000,000** in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.



HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

During the month of March, 1875, 2,775.43 acres of land were sold for $20,772 15.

The cash collected on land contracts during the same time was $25,686 97.

The traffic on the main line in Illinois, in March, 1875, was $448,891, against $443,096 63 in March, 1874—an increase of $5,794 37.

The traffic on the Iowa Lines, (leased at 35 per cent of gross receipts) was in March, 1875, $137,297 15. against, $118,696 14 in March, 1874—an increase of $18,601 01.

Total traffic in March, 1875, $586,188 15, against $561,792 77 in March, 1874—an increase of $24,395 38.

For the three months ending March 31, 1875, 11,508.56 acres of land were sold for $86,321 96.

The cash collected on land contracts during the same three months was $93,800 40.

The traffic on the main line in Illinois, for the first three months in 1875, was $1,285,326 90; and on the Iowa lines, $310,553 30—a total of $1,595,880 20, against $1,663,461 15 for the first three months of 1874, a decrease of $67,580 95.

☞ Mr. Robert L. Harris, late Chief Engineer of the Chicago and Canada Southern Railway, and formerly of Boston, has been appointed engineer of the Canada Central Extension Railway Company. Mr. H. recently left Ottawa for Renfrew in order to superintend the preliminary preparations for the work of constructing the road to Douglas, from which point the subsized line will extend. This road is practically part of the trunk line of the Canada Pacific, and is about 125 miles in length toward the head of Georgian Bay.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

New York, Saturday, April 24, 1875.

Association and Co-operation among Railroad Companies.

That civilization is a blessing to men, and improves the condition of a people is not now seriously disputed. Men may have been just as strong physically, just as long-lived, just as contented and, as is sometimes contended, just as honest in the primitive state of barbarism, when every man lived by his own prowess, or attached himself and his fortunes to a feudal chief whose will was law, and whose prowess was the arbiter of peace or war. Most men now admit that a reign of prescriptive usage or written laws is preferable to that of predatory warfare; there can be no doubt that the lot of the women the children and the aged is very much improved thereby. Population and wealth grow apace; creature-comforts are multiplied, the arts and letters flourish, and the afflictions of the elements and the seasons are mitigated, albeit there are new afflictions peculiar to civilization spring up to take their places. All this is accomplished by virtue of co-operation and association among men. The machinery and devices we call government are the results of concessions of the individuals for their common good; there is always an implied consent that the individual will be bound by the prescribed forms and not avail himself of his natural powers to rob or oppress his weaker neighbors. A part of the citizens' liberty and possessions are surrendered to the good of the whole. This underlying principle of accommodation among men for the purposes of defence against the common enemy, for preservation of domestic peace and tranquillity, for the construction and maintenance of certain classes of great public works connected with their interchanges of product or ideas are generally accepted. We are born to them; and they come as a second nature. But in the subdivision of human labor and contrivances the same principle is not so generally recognized. The original principle of selfishness is apt to prevail for a long time. The several branches of commerce have their several guilds, orders, and chambers for the common good. We have Boards of Trade, Scientific Assemblages, and Trades Unions, of one sort or another. The railroad interest, having less than fifty years of age behind it, encountered opposition from the established methods of transportation and from popular prejudice, at the start. Even after the irrefragable physical demonstrations of its superiority had been shown, it somehow continued to keep up a show of superfluous hostility to the public. The advent of rival routes generally elicited strife rather than harmony. Railroad corporations have, for the most part, been born amid opposition and have grown up in continued warfare against their fellows. The fighting habit sits easily on them. Only now and again after an exhausting struggle, or a patched up truce do we have that spirit of comity and mutual dependence which we have shown to subsist in matters of civil government and mere labor or trade. Why should railroad companies and railroad officers, even though some of them must be competitors, not be as amicable and self sacrificing as the merchants, the weavers, or the miners, who are to the same extent competitors in business? The present fierce competition now going on among the east and west lines east of the Missouri, is a signal proof that railroad association and co-operation have not advanced abreast of the code which now governs other intelligent branches of human effort. If the railroad officers of the United States had a common guild or board whereat each one consented to relinquish some portion of its arbitrary power for corresponding benefits to be derived from the similar consent and combination of their fellow officers, it is not likely the present wasting and ruinous campaign of rivalry would have begun.

The usual objections to such co-operative efforts are: that the combined force of the whole will probably drift into, if it do not originate in, the hands of a one-sided few: that strong members can get on without the help of their fellows, and other exceptions of like character. These objections have no more weight, and are no more imminent, in railroad interests than in others. The first attempt to concentrate and crystallize the efforts and views of railroad officers, we believe was in the West. The recently published Report of the Transactions of the Railway Association of America (No. 6) being the Third Annual meeting of the Society at Saint Louis, in March last, states at length the need of some union of efforts. From the published list of names of officers (Hon. Thos. Allen is President) we are disposed to look for further usefulness from it. The following is a list of papers submitted to the Association thus far:

1. The expediency of organizing a National Railway Telegraph Company.

2. A plan for abolishing or regulating the practice of paying commissions on the sale of tickets.

3. On the best means of bringing about the total abolishment of the pass system.

4. On the best method of securing the maintenance of agreed rates and contracts.

5. On regulations affecting the employment of persons discharged by other lines.

6. On the best method of guarding against accident.

7. On train despatching.

8. On the expediency of adopting a uniform system of national time for working time tables.

9. Sleeping car contracts and repairs of sleeping cars.

10. Rates and charges to govern interchange of freight cars and code of rules for a railway car clearing house.

11. An inquiry into the cost of transportation of mail and postal cars, and the justness of the compensation paid by the postoffice department.

12. On the expediency of adopting a uniform plan of locomotive reports.

13. On "compromise" gauge.

14. Responsibility of railroad companies for injury to employes.

15. The expediency of organizing a national railway bureau.

16. On the relations of the Brotherhood Locomotive Engineers to railroad companies.

Committees were also appointed to consider, but have not reported on—

1. The relations of railways to express freight lines.

2. The best methods of heating and lighting cars.

3. The expediency of adopting a uniform system of signals.

Surely some such conference and comparison of views cannot but result in the general benefit. Railroad operation and maintenance are, at present tentative and experimental, in part, and new devices and processes are continually being introduced. The public and the railroad owners have alike an interest in having railroads administered safely, and regularly, with the greatest degree of efficiency and economy which the present state of our knowledge and wealth will admit.

The Coal Trade.

The anthracite coal tonnage reported by the several coal carrying companies for the week ending on the 10th inst. is stated by the Philadelphia *Ledger* at 157,916 tons, and for the year to the same date 2,624,411 tons, against 3,579,129 to the same time last year, showing a decrease of 954,718 tons. The bituminous production reported for the week was 89,657 tons and for the year 671,156 tons, against 545,708 tons to corresponding date last year, an increase of 125,448 tons. The total production of both kinds of coal for the week was 247,573 tons, and for the year 3,295,567 tons, against 4,124,857 tons to corresponding time last year, showing a decrease in both kinds of 829,270 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for three days was 38,891 tons, and for the year 730,516 tons, of which 597,613 was coal and 132,903 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 17th instant there were receipts of 600 tons of coal, shipments of 400 tons, leaving but 2200 tons on hand. The *Ledger* adds:

The supply of soft coal from the western part of this State is considerably increased, and does much to mitigate the inconvenience of the shortened supply of hard coal. The trade from the Broad Top region and the Tyrone trade and other points have nearly doubled their production. The Delaware, Lackawanna and Western Company are also nearly doubling their shipments, and the increase of the other companies is no doubt quite large. At New York and in the East the coal companies from the Lackawanna region are fully supplying those markets, the product from that quarter being undisturbed by strike or suspension. We quote freight charges to New York at 85 cents, to Providence at $1 75 and to Boston at $2 per ton. The Delaware and Hudson Canal Company have reduced the rates of transportation on their canal 10 cents per ton, from 90 to 80 cents, during the shipping season.

Camden and Atlantic Railroad.

The earnings of this road for the year ending December 31, 1874, were:

From passengers		$314,062 51
" freight		136,419 58
" express		24,436 52
" ferry		45,444 51
" May's Landing Branch		3,601 18
" U. S. mail		3,000 00
" rent of real estate, etc.		2,922 50
		$529,886 80
Expenses, viz:		
Conducting transp	$61,472 07	
Motive power	57,609 57	
Maintenance of way	67,113 07	
Maintenance of cars	18,363 73	
General expenses	34,346 43	
Ferry	41,814 91	
May's Landing Branch	7,419 93	
	288,139 71	
Net earnings		$241,747 09
From which deduct—		
Interest on bonded debt	$69,090 00	
Interest on bonds and mortgages	6,073 73	
Interest, premium, etc.	8,551 82	
Dividend on preferred stock October 1, 1874, 7 per cent	58,660 00	
Dividend on common stock, October 1, 1874, 3½ per cent	13,209 00	
	155,584 55	
Balance		$86,162 54
Add balance from previous year		88,702 30
Total as in General Balance sheet		$174,864 84

For the year ending December 31, 1873, the earnings were $508,996 03, the expenses $298,408 72, and the net earnings $210,587 31. The payments in that year were: for interest, $74,525 50; dividends, (3½ per cent on preferred stock) $29,374 25; other payments, $27,418 97—a total of $131,269 09, and leaving a balance of $79,318 09; which added to the balance at the close of the year 1872, gives the total, as above, of $88,702 30. It will be seen that the gross earnings show an increase in the past over the previous year of $20,890 77, with a decrease in the expenses of $10,269 01, making an increase in the net earnings of $31,159 78. The president, in his report for the year 1874, says:

The Board take occasion to congratulate their stockholders upon the gratifying fact that, for the first time in the history of the Company, it has no floating debt. This has been accomplished without impairing the operations of the road, or in anywise neglecting or stinting the necessary repairs and equipments.

All defective rails have been replaced with new ones. Seven hundred tons of new iron, and about twenty thousand new cross ties—principally white oak, have been laid. The whole line of the road is in good repair; and our rolling stock, locomotives, passenger and freight cars, are in excellent condition. All bridges and culverts on the line were, in the months of May and June last, thoroughly repaired, by experienced bridge builders and other mechanics.

During the year we have increased the motive power by the addition of a first class locomotive, costing $10,000. It now consists of eleven first class engines—ten of which are suitable for passenger trains and heavy freight; the other is lighter, but suitable for the May's Landing Branch, on which it is employed. There has been no addition to the rolling stock, which has proved amply sufficient for the business of the road. But we have erected, at the depot in Camden, a commodious and convenient building, having two rooms for passengers, and rooms for ticket agent, telegraph operators, and conductors on the first floor. On the second floor, offices for Superintendent, General Freight Agent, and clerks.

The company have 11 locomotives, 27 first class and 25 second class passenger cars, 6 baggage, 2 mail, 2 smoking, and 121 freight, etc., cars. Miles run by engines, including May's Landing Branch, 228,609. Through passengers carried, 97,622; way, do., 332,532; excursion, 68,342. Tons of freight, 112,714.

The disbursements on capital account in 1874, were: for construction, $10,891 87; equipment, $11,495 43; real estate purchased, $2,860 47; express teams, $1,369 20—total, $26,616 97.

BALANCE SHEET DECEMBER 31st, 1874.

Railroad		$1,853,730 24

President.—ANDREW K. HAY.

Directors—Andrew K. Hay, Anthony J. Antelo, Samuel Richards, W. Dwight Bell, John Lucas, James B. Dayton, Charles Camblos, Jr., Enoch A. Doughty, John S. Newbold, Thomas H. Dudley, William Massey, Charles R. Colwell, Samuel C. Cooper.

Secretary and Treasurer.—D. M. ZIMMERMAN.

☞ The Chicago, Burlington and Quincy Railway Company is said to have decided to abolish the fast freight system after May 1,

Liability of Railroads for Injury to Passengers.

In the United States Circuit Court, Baltimore, on the 16th inst., before Judge Giles, the case of William H. Collen against the Baltimore and Ohio Railroad Company, to recover damages for disabling plaintiff's arm, was concluded by a verdict for plaintiff, damages $7,000. Messrs. Stirling & Maund for plaintiff, J. H. B. Latrobe and Gen. F. C. Latrobe for defendant.

The court instructed the jury on the law of the case as follows: First—If the jury shall find from the evidence in this case that the plaintiff was injured on the 7th of February, 1873, in the cars of the defendant, when coming from the city of Washington as a passenger, and when the cars were crossing the railroad bridge over Gwynn's falls, by being struck on his arm by a pillar of said bridge when his arm was resting on the sill of the window of the car, and was not outside of the line of said cars, then the jury will find their verdict for the plaintiff for such damages as they will find he has sustained from said injury. Second—But if the jury shall find that when the plaintiff's arm was struck by the bridge it was outside the line of the car, and would not and could not have been struck if it had not been so outside, then the plaintiff cannot recover, unless the jury shall find his arm was thrown out of said car window by a sudden lurch, or the swinging of said car caused by the rapid speed at which the train was run—if the jury shall further find that said speed was dangerous at this point of defendant's road. Third—That if the jury shall find for the plaintiff, then in estimating the rule of damages they are to consider his health and condition before the injuries complained of as compared with the present condition, in consequence of the said injuries, and whether they are in their nature permanent, and how far they are calculated to disable him from engaging in those business pursuits, for which, in the absence of such injuries, he would have been qualified, and also the physical and mental suffering to which he had been subjected by reason of the said injuries, and to allow such damages as in the opinion of the jury will be a fair compensation for the injuries he has suffered.

☞ The Pittsburg Chronicle of 16th inst. says: The Railway Mills in the Ninth and Twelfth wards resumed operations this morning, and those localities present an animated appearance. Nearly all the mills have started double turns, including Zug's Shoenberger & Co.'s, Brown & Co.'s, Reese, Graff & Woods, Carnegie & Co. and others. Shoenberger & Co.'s Nail Works will resume on Wednesday morning. The workingmen are in excellent spirits over the resumption, and hopeful expressions can be heard on every hand.

Columbus and Toledo Railroad.

At a meeting of the stockholders of this company held in Columbus, Ohio, on the 14th inst., the following board of directors was elected: M. M. Greene, B. E. Smith, William G. Deshler, Henry C. Noble, D. S. Gray, John Greenleaf and P. W. Huntington, of Columbus; Samuel M. Young, A. L. Backus and H. S. Walbridge, of Toledo; John D. Van Demen, of Delaware county; McD. M. Cary, of Wyandot county; and A. H. King, of Marion county. The Board organized by re electing President M. M. Greene, and General James A. Wilcox Secretary and Treasurer.

The following resolution was adopted:

Resolved, That a final effort be made to increase the capital stock to $1,000,000; that the stockholders hereby instruct the Directors to take the proper legal steps necessary for the entire abandonment of the enterprise unless said $1,000,000 of capital stock is subscribed on or before June 1, 1875, by responsible subscribers.

The responsible subscriptions to the road amount to about $850,000, leaving about $150,000 to be subscribed. It is understood that if the one million dollars mentioned in the resolution is subscribed by the 1st of June, the work will be immediately prosecuted.

Northern Central Railway.

We gave in our issue of March 17th the Report of the President of this Company for the year ending December 31, 1874, showing the receipts from operations of the road to have been $4,676,500 45, the operating expenses $3,383,553 95, and the net earnings $1,292,946 50. From the Treasurer's statements, which have since been received, we learn that the receipts and expenses were apportioned as follows:

RECEIPTS.

Main Line	$3,097,458 38
Shamokin Division	324,266 69
Elmira Division	623,003 87
Chemung Division	267,335 44
Canandaigua Division	355,964 44
Green Spring Branch	8,471 63
Total	$4,676,500 45
Dividends on stock, Elmira, Jefferson and Canandaigua Railroad Company	23,530 00
Dividends on stock, Shamokin Valley and Pottsville Railroad Company	86,102 00
One half losses, operating Elmira, Chemung and Canandaigua Divisions (from Pennsylvania Railroad Company)	109,880 61
Total	$4,846,013 06

EXPENDITURES.

Main Line	$2,081,381 59	
Shamokin Division	186,361 74	
Elmira Division	527,700 54	
Chemung Division	191,738 77	
Canandaigua Division	370,155 67	
Green Spring Branch	26,215 64	
Total expenses	$3,383,553 95	
Interest on funded debt	580,000 00	
Interest on Income bonds, Chemung and Canandaigua Division	210,000 00	
Interest and discounts	101,850 17	
Gold premium	25,694 93	
Pennsylvania State tax on capital stock and loans	15,575 71	
Rent, Shamokin Valley and Pottsville Railroad	52,167 00	
Rent, Elmira and Williamsport Railroad	165,000 00	
Rent Elmira, Jefferson and Canandaigua Railroad	25,000 00	
	4,558,841 76	
Net earnings	$287,171 30	
Dividend, No. 80, July 31, 1874, 3½ per cent	204,466 50	
Balance, credited profit and loss	$82,704 80	

The financial condition of the company, December 31, 1874, was as follows:

ASSETS.

Railway and appurtenances		$11,477,904 91
Real estate		960,481 53
Equipment		3,740,387 40
		$16,178,773 84
Stock of Chemung Railroad Co., and Elmira Jefferson and Canandaigua Railroad Co		3,048,680 82
Cash on hand and in bank	$292,080 02	
Due from agents	96,826 72	
Due from connecting roads, etc	302,090 74	
Bonds and stocks	652,376 34

President.—THOMAS A. SCOTT.

Vice President.—A. J. CASSATT.

Directors.—A. J. Cassatt, Wayne MacVeagh, J. C. Bullitt, J. N. Hutchinson, S. M. Felton, Wistar Morris, H. P. Borie, M. B. Sellers, M. B. Greensfelder, R. Oppenheimer, George Small, S. M. Shoemaker.

Secretary.—ROBERT L. HOLLINS.

Assistant Secretary.—STEPHEN W. WHITE.

Treasurer.—JOHN S. LEIB.

Auditor.—JOHN CROWE.

General Manager.—FRANK THOMSON.

☞ The Welland canal is expected to be opened early next week.

Allegheny Valley Railroad.

The annual meeting of the stockholders of this company was held in Pittsburg on the 13th inst. Mr. R. K. Wilson was chosen President, and Mr. W. P. Shinn Secretary. After the minutes had been read, the report of the directors to the stockholders, signed by Mr. John Scott, as President, was read by the Secretary. The following is an abstract of the report:

The illness of your late President, which terminated in his death on the morning of April 14, 1874, the day fixed for your last annual meeting, having prevented the preparation of a report upon the business of the company for the year 1873, your Board of Managers submit herewith a statement of the results of the traffic of the years 1873 and 1874, and of the financial condition of the company to December, 1874.

The earnings for the year 1874 have been:

From freight	$1,823,306 27
" passengers	508,100 26
" express	14,040 36
" mail	11,280 35
" rents	5,065 12
" miscellaneous	27,179 64
Total	$2,389,472 00

For 1873, receipts from the same sources were $2,697,238 24, showing a total decrease for 1874, of $307,766 24. The total expenses for the same years, were, in 1873, $765,325 30, in 1874, $918,687 27; being an increase of $153,361 97.

The accounts of the road have been kept separately, as the Main Line, Low Grade Division, and the Sligo Branch.

For the first named or Main Line gross earnings the following is the exhibit for 1873, $2,697,238 24, and for 1874, $2,107,446 12, a decrease of $589,792 12. The net earnings of this line, in the same time show an increase of $56,434 45.

The gross earnings by the Low grade and Sligo division for the two years mentioned show a total $282,025 58, and net earnings $96,927 52. The decreases are accounted for by the universal prostration of the coal, iron and oil interest. A corresponding decrease in working expenses has been accomplished within a recent period. The report then alludes to the resolution prohibiting employees from being concerned in contracts and afterward to the opening operations on the Low grade division, and the expenses in detail of working the main line as well as the Sligo branch.

The general account of the company to December 1, 1874, so far as it has been possible to get from the books, is as follows: Assets, main line, Pittsburg to Oil City, shows a total in equipment, material, cash on hand, balances, stock in O. C. & A. R. Co., in Brady's Bend bridge, &c., of $26,965,812 65. Liabilities of all kinds are given as an equal sum, including the "suspended debt" of $5,112,099 63. For some unexplained reason, the financial transactions pertaining to the construction of the low grade division (Bennett's Branch), including sales of nearly $10,000,000 of bonds, and negotiations of several hundred thousand dollars of bills payable, were not allowed by the late President to be entered on the books of the company, thus making it a work of great difficulty to procure the information necessary to make them appear properly in the accounts of the company.

The floating debt is found to be, on the 30th of April, 1874, about $9,743,600, including Bennett's Branch bonds outstanding, amounting to $85,000. The auditor here disclaims any accountability for the defect in the books alluded to, inasmuch as he could not gain access to the information desired. The report then alludes to the good fortune of the road in securing the efficient services of Mr. W. P. Shinn as Assistant President and Controller.

The cost of the Low Grade Division is next given as $11,210,691 30, or $101,915 37 per mile. The cost of the Sligo Branch, from Sligo Junction, mit Tunnel (1,951 feet in length,) was not completed when the road was opened for business, the cost on the Low Grade Division, to Sligo, is given at $265,932 34. The latter road, says the report, was built without any authority on the part of the managers, which led to the President's declining to recognize it as property of the Allegheny Valley Railroad, and the rolling stock was withdrawn on May 4, 1874. Subsequently Mr. J. P. Lyon was allowed to run an ore train by special contract. The loss on this branch is placed at $3,250 22.

On August 8, 1872, your late President made a contract with the Philadelphia and Erie Railroad Company for the purchase, from that company of 41,000 shares stock in the Oil Creek and Allegheny River Railroad at $37 50 per share, upon which purchase money your company was to pay eight per cent interest until July 1, 1875, and then to pay for it in cash or in this company's mortgage, bonds bearing eight per cent interest. This contract appears on the minute book of your Board of Managers, as having been reported and approved by the Board of Managers, on October 15, 1872, and it is stated briefly in the President's report, to the meeting of stockholders, held April 8, 1873, the report of which meeting shows the report to have been approved by the stockholders. There having been doubts expressed by some of the shareholders and creditors as to the legal authority vested in the Board of Managers, to purchase stock, the question was submitted to our counsel, and an exhaustive written opinion held the contract to be good, the authority to made it to be complete, and that no defense appeared to exist to the claim of the Pittsburg and Erie Railroad Company for payment. Under this advice the claim of the P. & E. R. R. was settled in March last, and income bonds were issued for the amount of purchase money due and unpaid up to October 1, 1874. On May 1, 1874, the Oil Creek and Allegheny River Railroad defaulted in payment of the interest due on that date upon the consolidated mortgage bonds, and in July, 1874, the trustees of the consolidated mortgage made application before Judge Lowry, of Crawford county, for a receiver, and Mr. David McCargo was appointed, on July 12, 1874. The receiver has continued to work the road in harmony with your line as was clearly for the best interests of both companies. Meanwhile proceedings in foreclosure were instituted by the Trustees, and an order of sale has been made under their mortgage, to take place May 15, 1875.

The committee representing the bondholders, shareholders and creditors, authorized to purchase the road at this sale, have entered into an agreement to re-organize the company and to issue new bonds, dollar for dollar, to the holders of the consolidated bonds; income bonds to the creditors, dollar for dollar, and common stock to the old shareholders, dollar for dollar, the shareholder to pay in small assessments sufficient to defray the expense of the proceedings. The company, besides being a large shareholder, is a creditor to the amount of $146,378 68.

The report then gives a detailed account of the purchase of the Buffalo and Corry road. The title to the same was taken in Colonel Phillip's name. The total cost of said road to December 31, 1873, was $482,517 84. During 1874 this road was successful, its net earnings being $17,610 09.

The report then alludes to the recent improvements along the line of the Bennett's Branch or Lower Grade Division in the following language: "Of the character and cost of the work done on this division it is at least unquestionable that much of the work was unnecessarily expensive. High abutments of superb masonry built for double track bridges were such structures as very few new roads would warrant and scarcely any could afford; and while the work of building the line on a low grade through such a rugged country was necessarily expensive, the cost of the line appears to be considerably above what it might have been built for with judicious and watchful care over the expenditures.

As it is the line is one of the best, if not the best, built new roads in this country. The Summit Tunnel (1,951 feet in length,) was not completed when the road was opened for business, the stone for arching it having to be brought from points west by trains.

The work of arching (which had been only fairly begun,) was resumed on October 5, 1874, and up to April 1st, instant, there had been 767 feet, or over one-third of the entire length of the arch completed, and 241 feet of additional side wall built.

The work of arching, which was necessary to prevent interruption to the traffic from the falling of the roof of the tunnel, will be completed this year, at a cost of about $100,000.

The following Board of Managers was re-elected without opposition: Thomas A. Scott, George B. Roberts, William M. Lyon, F. R. Brunot, J. Patton Lyon, B. F. Jones, W. K. Nimick, James Park, Jr., John Scott. The total number of shares represented was 30,645 out of a total of 43,330.

Illinois Central Railroad.

The receipts from operations of this road for the year ending December 31, 1874, were as follows:

From freight		$3,986,690 66
" passengers		1,212,912 02
" sleeping cars		27,649 43
" extra baggage		3,147 79

Surplus for year at credit of Income Account		$196,218 79

It will be seen that interest on the debt, and dividends of 8 per cent on the shares have been derived from the traffic. The net traffic was $2,775,362 78; balance of interest account, $413,610 20; dividends, $2,165,533 79—leaving to credit of income account $196,218 79.

The Land office in 1874 collected $408,670 89, its expenses were $40,814 42, leaving $367,856 47; and 34,523.40 acres of land were sold for $267,652 33. At the end of the year, 156,409.59 acres were under contract, with $1,007,509 78 due thereupon to the company, and 299,065.85 acres of the original grant were on hand for sale.

The working stock of supplies, including 5,000 tons of steel rails on hand December 31, 1874, was $1,117,892 91. The cash assets $1,940,574 53. Five thousand tons more of steel rails have been purchased, making 10,000 tons to be laid in the Spring.

A General Mortgage has been placed upon the road, limited to $15,000,000. It secures the $4,792,000 (£958,400) five per cent bonds, and also provides for the $5,000,000 six per cent bonds. For the additional $5,000,000, permitted under the mortgage, there is no immediate requirement. The payment of the Redemption bonds, due April 1, 1875, has been provided for by the sale of £500,000 of twenty year bonds bearing the same interest of six per cent. The debt of this company on the 1st of April, 1875, stood as follows: $2,500,000 six per cent currency bonds, due in 1890; £500,000 ($2,500,000) six per cent sterling bonds, due in 1895; and £958,400 ($4,792,000) five per cent bonds, due in 1903—and it holds $4,842,000 of New Orleans, St. Louis and Chicago Railroad bonds to offset the latter. The amount of share capital and six per cent debt is $34,000,000. At the close of 1864 the sum of the share capital and debt was $34,209,110—meanwhile $6,489,880 has been added to the property in outlays on the road and plant.

The company have 196 locomotives, 78 first-class passenger cars, 8 smokers' cars, 2 officers', 1 pay, 51 baggage, mail and express, 18 sleeping, 12 old passenger cars, not numbered, 2,791 grain and fruit, 21 grain and stock combined, 60 Continental and Blue Line, 850 stock, 269 flat, 1,188 coal, 2 oil tank cars, (Southern Line), 4 powder and 25 derrick, tool and tank cars, and large and small snow plows.

The total number of passengers carried was 1,586,637. Number carried one mile 51,115,268. Av. number of miles travelled by each passenger, 32.22. Av. fare of each passenger, $1 05.85. Revenue received per mile of road, $1,516 17.

Tons of freight transported 2,069,935. Tons carried one mile, 273,559,253. Tons carried one mile north, 108,125,887; do. south, 165,433,366. Tons of local freight carried one mile, 223,909,268; do., through do. 49,649,985. Av. distance each ton was carried 132.15 miles. Revenue per ton per mile, 2.08 cents. Av. revenue per ton, $2 75.39. Revenue per mile of road, $5,146 31.

The number of miles run by engines with passenger trains, was 1,383,895; with freight trains, 2,909,510; with construction trains, 47,096; switching, 823,392—total, 5,168,893. Pounds of waste used, 52,515. Gallons of oil, 43,006. Cords of wood, 3,604. Tons of coal and coke, 147,243. Total cost for repairs, including fuel, wages of engineers and firemen, waste, tallow, oil, and cleaning engines, $1,012,450 08. Total cost per mile, 19.57 cents.

General Balance Sheet.

President.—John M. Douglas.

Directors.—His Excellency, John L. Beveridge, Governor of Illinois, ex Officio; John M. Douglas, J. Pierpont Morgan, Louis A. Von Hoffmann, John Newall, until May, 1875; William Tracy, W. H. Osborn, L. V. F. Randolph, until May, 1876; Lucien Tilton, George Bliss, W. K. Ackerman, until May, 1877; W. H. Gebhard, Wilson G. Hunt, until May, 1878.

Gen'l Manager.—James C. Clarke.

Chief Engineer.—L. H. Clark.

Secretary.—L. A. Catlin.

Treasurer.—L. V. F. Randolph.

Gen'l Auditor.—Wm. K. Ackerman.

☞ The following gentlemen have been elected directors of the Columbus and Hocking Valley Railroad Company: M. M. Greene, William G. Deshler, Henry C. Noble, W. B. Brooks, Isaac Eberly, C. P. L. Butler, John L. Gill, John D. Martin, C. H. Rippey, S. W. Pickering, P. W. Huntington, H. W. Jaeger and B. S. Brown. The new Board organized by electing M. M. Greene President and J. J. Janney Secretary and Treasurer.

☞ At a meeting of the stockholders of the Shenandoah Valley Railroad Company, held at Front Royal, Va., on the 3d inst., William McClelland, of Chambersburg, Pa., was elected president, and Alexander R. Boteler, Wm. C. Travers, J. L. Horff, U. L. Boyce, M. B. Buck, John W. Ashby, Mann Spitler, Henry B. Harnsberger, John Kelly and J. J. Hubly directors.

☞ A special meeting of the stockholders of the Vermont and Canada Railroad Company will be held in Bellow's Falls, Vt., on the 29th of April, to take such action as they may deem expedient in regard to the sale of the property of said company to the Central Vermont Railroad Company, and for the transaction of any business arising out of or connected with such sale.

☞ The Board of Directors of the Springfield and New London Railroad organized in Springfield, Mass., on the 9th inst., electing Gordon Bell President, L. J. Powers Vice President, Daniel L. Harris Treas., and James Kirkham, Clerk. It is expected that the road will be built in the early summer.

☞ The Pittsburg Chronicle of April 16th says: The lock-out being ended, the streets of the South Side appear deserted by the absence of hundreds of puddlers and helpers. All the mills are in active operation, except those that were unable to start up on so short a notice. Ere the lapse of next week, however, the smoke will cloud all the manufacturing establishments in this vicinity.

☞ The Secretary of the Treasury has issued a call for five millions of 5 20 bonds, upon which interest will cease July 20. The bonds called in are coupon bonds and are included within the following numbers: Fifties from 15,401 to 17,100, 100's from 40,001 to 44,200, 500's from 20,001 to 22,400, 1000's from 66,001 to 70,950.

☞ The directors of the Long Island Railroad Company, recently elected are: Lawrence Waterbury, W. H. Macy, H. Havemeyer, J. C. Havemeyer, P. Cooper, G. W. Lane, S. L. Whitmore, A. S. Hewitt, William Dowd, R. L. Cutting, J. C. Parsons, William Kavans and C. Cambios. Henry Havemeyer was elected President.

☞ The Illinois and St. Louis bridge, crossing the Mississippi River at St. Louis, Mo., has been transferred to Morgan, Humphrey & Co. under the fourth mortgage bonds, and a change is to be made in its management. The transfer, it is said was an amicable one.

☞ The Assistant U. S. Treasurers throughout the country commenced on the 21st inst. the payment of the May interest without rebate.

☞ James W. Emery has been elected President of the Union (Mass.) Railway Company, vice Knowlton S. Chaffee, resigned.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, April 24, 1875.

Financial and Commercial Affairs.

Money has been in much better supply, in the local market, and has been unusually easy as to rates to all responsible borrowers; call loans having been quoted at 2¼@5, generally at 3@4, and best discounts at 4½@6½ per cent per annum. The demand for aid from mercantile sources has been fair, but not urgent. The inquiry for accommodation, for Stock and Gold Exchange purposes, has been comparatively moderate. Currency has been coming hither from the interior, and the City Banks have shown an increase of $730,500 in their net reserves, the legal tender item having been largely augmented. The Sub Treasury has gained handsomely in gold, while reporting a small loss of currency as the result of the week's business. The currency reserve of the Sub Treasury was reduced $412,088; and the specie balance, enlarged $2,781,951. The City banks last week increased their reserve of legal tender notes $1,870,100, and their deposit item $2,518,200 while reducing their specie average $511,300. They report a reduction of $298,700 in the loans and discounts, and a falling off of $174,000 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $41,967,888, against $42,379,471, the preceding week; and a coin hoard of $60,542,089, against $57,670,138, on the previous return. The City bank exchanges in currency during the week, were $462,114,852, or a daily average of $77,019,142. The customs revenue of the port, during the week, was $2,287,000. The City banks reported their average of gold last week at $14,013,200, and their greenback average at $50,290,000. Their deposits stood at $218,406,900. The loan item was $277,964,500. The circulation was $21,332,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,701,475.

The aggregate of the outstanding U. S. currency, of all denominations, April 1, was $427,495,676. The outstanding amount of legal tender notes is $379,226,900. The National bank circulation is now $349,682,411.

The U. S. Treasury balances on Tuesday were as follows: Currency, $3,251,207; special deposit of legal tenders for redemption of certificates of deposit, $48,645,000; coin, (including $23,187,300 in coin certificates,) $87,469,248.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $6,117,774.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 89¼ millions.

Secretary Bristow has issued another call for $5,000,000 5 20 coupon bonds, and under his instructions the prepayment of the May interest, without rebate, was begun on Wednesday April 21.

The specie shipments from San Francisco, Jan. 1, to April 8, were $14,920,811, against $5,107,380 same time last year.

Gold has been fairly active, and more uniform as to price, evincing firmness, in the general movement of the week. The speculative business has been fair in amount. The customs call has been up to a full average. The export drain has been somewhat heavier. The extremes of the week have been 114¾@115⅜, closing on Wednesday at 114⅞@115 as against 115 on Wednesday of the preceding week. The specie outflow last week was $849,075. The imports of specie at this port since Jan. 1, have been $5,264,927 against $1,188,066 same time last year. The customs demand for Gold last week averaged $381,167 a day. Foreign Exchange has been in more confident demand, and quoted strong as to price. Bankers' sixty day bills on London closed on Wednesday at $4 86½@$4 87½; sight bills on London at $4 90@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,618,840.

Government Securities have been in good demand, for investment purposes, and have advanced sharply, especially the Currency Sixes, which closed nearly three per cent higher than the preceding week. In State and Railway bonds, business has been on a more liberal scale, with values quoted strong and buoyant. And in the line of Railway and Miscellaneous share prop-

erty, business has been much brisker, on a generally advancing market.

U. S sixes of 1881 closed on Wednesday of this week at 122⅞@123; U. S. Five-Twenties of 1862, at 118¾@119; U. S. Five-Twenties of 1864 at 120½@120¾; U. S. Five-Twenties of 1865 122½@122¾; U. S. Five-Twenties of 1865 consolidated, 121@121¼; U. S. Five Twenties of 1867, 122@122¼; U. S. Five-Twenties of 1868, 121⅞@122; U. S. Ten-forties at 116½@117; U. S. Fives of 1881, (Funding Loan) 116½@117; Six per cent. currency Sixes from 124@124¼.

In some lines, general business has been somewhat brisker, but with values quoted easier and irregular. Cotton, and Breadstuffs, more active, closing lower. Provisions quite freely dealt in, especially Pork and Lard, on speculative account, at improved prices, closing unsettled. A moderate movement has been noted in Groceries, Hardware, Hides, Leather, Wool, Tobacco, Naval Stores Oils, and Petroleum, but at variable rates. Metals have been dull and heavy, as a rule. Eglinton Pig Iron quoted from yard at $32@$33; Glengarnock, $36@$38; No. 1 American Pig at $28; No. 2 do. at $25 50@$26 50; Forge, $23@$25; English Rails at $48@$50, gold; American Rails at works, $48@$53; Old Rails, $30@$35. Wrought Scrap, $34 50@$36. Ingot Copper has advanced to 22¢. Ocean freights have been fairly active, but at easier rates. Grain, Provisions, Cotton, Petroleum, and Resin room in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—North Missouri 1st mort., 87¼; Louisville and Nashville R.R., 36½; do. 7s, consol. 1898, 89; Delaware and Hudson Canal reg. 7s, 1884, 108; Central Pacific 1st mort., San Joaquin Branch, 90; do. Resumption of Operations at the Pittsburg Iron Works.

At a meeting of the Iron Association of Pittsburg on the 14th inst., after a preamble setting forth the facts that notwithstanding there has been no visible improvement in the price of manufactured iron and the representations which were made to the puddlers at the commencement of the difficulty apply with equal force at the present time, several firms whose co operation had been depended upon had for certain reasons started their furnaces at $5 50 per ton, it was resolved "that in view of this action and the fact that Western mills are running and taking trade which largely belongs to Pittsburg, we deem it inexpedient to longer continue the suspension of our mills, and that we will, or as many of us as desire, resume work at $5 50 per ton." In accordance with this action a number of the principal firms resumed active operations at once, while others were preparing to start up, so that within a week or ten days it was thought all would be actively at work.

☞ The Philadelphia, Wilmington and Baltimore Railroad Company, lessees of the New Castle and Wilmington Railroad, give notice that the lessee will now purchase the stock of the New Castle and Wilmington Company at par, with interest added from January 1, 1875, to May 1, 1875, after which no interest or dividends will accrue to the present stockholders. The stockholders can deliver their certificates and receive their purchase money either at the office of the Philadelphia, Wilmington and Baltimore Railroad Company, in Philadelphia, or at the Farmers' Bank, in New Castle, Delaware.

☞ The gross earnings of the Philadelphia and Erie Railroad in March, 1875, were $252,285 71, the expenses $168,143 02, and the net earnings $84,142 69. In March, 1874, the earnings were $247,625 81, the expenses $182,400 08, and the net earnings $65,225 73—showing an increase in earnings of $4,659 90, a decrease in expenses of $14,257 06, and an increase in the net earnings of $18,916 96.

☞ The newly organized Boston and Woburn Railroad Co. have selected the following gentlemen to serve as Directors until the company is incorporated: A. D. Puffer and Henry Hastings of Medford; J. F. Stone, Alexis Cutting and Sumner Richardson of Winchester; Lewis Shaw, Gawin R. Gage and Stephen Nichols of Woburn, and Horace Sheldon of Wilmington. The preliminary matters of survey, soliciting stock, etc., was left to the Directors.

☞ The contract for building the Nevada County Narrow Gauge Railroad from Grass Valley to Nevada has been let to W. J. Organ. The contract calls for the entire work, such as grading, culverts, trestle works, etc., and in fact everything to be done by the contractor, ready for the laying of the ties.

☞ The Mississippi Valley and Western Railroad was sold at auction in St. Louis on the 14th inst. by order of the U. S. Circuit Court—A. B. Stone, of Cleveland, Ohio, being the purchaser at $600,000. The road is projected from Keokuk to St. Louis, and is completed from Keokuk to Hannibal, sixty miles.

Consequential Damages.

The Supreme Court of Pennsylvania, at its recent session, reversed the decision of the Pike County Court of Common Pleas, in the case of Deeker vs. the Erie Railway Company, in which the plaintiff had received a verdict in his favor of $4000 for the burning of his hotel at Shohola. This question of consequential damages needed this check, for it had been allowed to take quite too wide a range. The burning of a barn on the side of a railway, from the spark of a passing locomotive, may naturally involve responsibility on the part of the railway company, but whether the company should be held responsible for the burning of a hotel five or six squares distant, by a spark from the burning barn, is a question that admits of some argument. The decision of the Supreme Court above noted thinks not.

☞ A meeting was held on the 20th inst. at Ironton, Ohio, in the interests of a proposed railroad along the Ohio Valley from Cincinnati to Huntington, W. Va. It is claimed that the carrying out of this project would promote the interests of Cincinnati by making an important addition to facilities for through communication with the seaboard, as well as opening up a connection with valuable coal deposits, and extending transportation facilities to a rich and populous section of country which is now chiefly dependent upon the Ohio River, upon which navigation is restricted during a considerable portion of the year.

☞ The suit of the Union Pacific Railroad Company against the United States for the recovery of $500,000 is now before the United States Court of Claims. It involves the question whether the company is liable to the Government for immediate repayment of the interest advanced on their subsidy bonds, or whether the requirements of their charters are fulfilled by their being credited with only 50 per cent of the amounts earned for Government transportation, leaving the remainder to be liquidated when the subsidy bonds mature.

☞ W. W. Wheaton, Treasurer and General Manager of the rolling mill furnace of Marquette, sold in Chicago, on the 10th inst. 5,000 tons of pig iron for delivery after the opening of navigation for $30 per ton, the sale amounting to $150,000. He has also sold the entire product for this season, about 40,000 tons of hematite iron ore of the rolling mill mine at Negaunee. The ore from this mine is used in making iron suitable for the manufacture of Bessemer steel.

☞ Capt. J. B. Eads closed a contract with Col. James Andrews of Allegheny City, Pa., for the construction of 350,000 cubic yards of fascine work and 100,000 cubic yards of stone work at South Pass, together with large lumber work for piles, etc., constituting the necessary jetties and dikes for improving the month of the Mississippi river. The cost will be $2,500,000.

☞ The Mississippi, Ouachita and Red River and the Pine Bluff and Chicot railroads have been placed in the hands of a receiver, who was selected by the Boston bondholders. The same parties own the Little Rock and Fort Smith Railroad, and have recently completed an extension of twenty miles, leaving less than fifty to be built.

Brown, Brothers & Co.,

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.
EXECUTE ORDERS AT STOCK EXCHANGE.
INTEREST ALLOWED ON DEPOSITS.

☞ The Philadelphia Ledger says that Col. Thos. A. Scott, President of the Pennsylvania Railroad Co., at present absent at the South, "will probably reach home about the last of this month, until which time the question of the May dividend of the Pennsylvania Railroad Company will be held in abeyance by his Board of Directors. The earnings of the company, we are reliably informed, are, up to the present time, good, and as fully warrant as ever heretofore the payment of the usual dividend. If a reduced dividend is made at the coming semi annual period, which is not now deemed probable, it will be from a change of policy in that respect, in which all our leading railway companies paying 10 per cent will participate, rather than from a necessity arising from any falling off of revenue."

☞ The gross earnings of the Denver and Rio Grande Railroad for the month of February last were $22,659, against $19,123 in corresponding month in 1874, being an increase of $4536, or about 23¾ per cent. The net earnings for the month were $10,381, against $7034 in February last year, an increase of $3347, or 47⅔ per cent. This favorable exhibit is under the adverse circumstances of a suspended coal trade, by reason of a strike there.

☞ A dispatch from Ottawa dated April 17, says: The chief engineer of the Inter-colonial Railway and his assistants will leave Ottawa in a few days to organize a railway survey across the Island of Newfoundland, which the Government of that Colony intend constructing.

☞ At the end of last year Italy had about 7,483 kils. of completed railway line, against 6,920 kils. at the end of 1873, showing an increase during the year of 513 kils. Of this, some 315 kils. were constructed by the State, and about 48 kils. by the Roman Railways Company.

☞ The earnings of the Union Pacific Railroad Company for the first fifteen days in April amounted to $544,652, an increase of about sixty per cent over the earnings in the same period last year.

☞ Mr. F. Broughton, for several years manager of the Mid Wales Railway has accepted the position of general manager of the Great Western Railway of Canada.

Northern Pacific Railroad.

On the 16th inst. Judge Shipman, holding the equity branch of the U. S. Circuit Court in this city, issued an order appointing Gen. George W. Cass, Receiver of the Northern Pacific Railroad. Under this order authority is given the Receiver to retain in employ all such agents, clerks, servants, and assistants, counsel and attorneys as he may judge neccessary to carry the order into effect with economy and prudence; and, to the same end, to appropriate the property and effects of the road, and its earnings, so far as they may be necessary. The Receiver shall, in the corporate name of the Northern Pacific Railroad Company, make and enter into all contracts for the obtaining of the necessary supplies, and for the completion of all shops or structures now in process of construction, and for keeping the road in thorough repair. He shall, also, continue the contracts with connecting roads, and make new contracts with them, as he may think for the best interests of the company and other parties in interest, until further ordered by the court; and he shall carry out all contracts relating to the business of the road heretofore entered into by the company in good faith, and all such contracts entered into by the Receiver shall have precedency of and be entitled to priority over any and all claimants in this suit or otherwise. Upon entering on his duties the Receiver shall, without unnecessary delay, make a schedule of all items of property, real, personal, and mixed, which shall come into his hands, and of all choses in action and evidences of debt due to the company from third parties, and of all moneys on hand at the time he shall take possession under the order.

The order provides that the Receiver shall keep full and accurate accounts of all receipts and disbursements, and he shall not be held answerable individually or as such receiver for any breach of contract entered into by him, or for any injury to persons or property of third parties by accident in the prosecution of said business or by the negligence of others employed by him in that behalf.

The Receiver is, in addition, empowered, in his discretion, to remove any of the employes of the road; and it is provided that the net proceeds of the business of the road, as the same shall accrue shall be applied to the following purposes, and in such order as the Receiver shall deem expedient:

To the payment of the necessary expenses incidental to the execution and preservation of the trust created in behalf of the said Jay Cooke and the said John Edgar Thomson, and their successors, of which they are or were trustees, including a reasonable compensation for their own services; all legal costs and compensation to the solicitor and counsel of the complainants for their professional services in this cause, and reasonable compensation to such solicitors and attorneys as such Receiver may have properly employed in any matter connected with the discharge of his duties as such Receiver, and a reasonable compensation to said Receiver for his services.

To pay all legal and necessary expenses heretofore properly and lawfully incurred under authority of any court in relation to said property now remaining unpaid, and all other attorneys' and counsels' fees of any of the parties in this suit, in his discretion.

To the payment of all balances due for services rendered, or for labor performed, or materials and supplies furnished to said company in the prosecution of its business at any time within twelve months next preceding the date of entering this order, and for balances which may be due by connecting or other roads.

To the payment of all legal taxes, assessed or to be assessed against said company, remaining unpaid and to accrue.

To the payment of balances due for right of way or other necessary grounds for the use of said company, with power to said Receiver, subject to confirmation by this court, in cases where the amount due for such right of way or other neces sary grounds has not been ascertained heretofore, to compromise and settle the same.

To the payment of all sums due for moneys borrowed to pay interest upon the mortgage debt or to pay for labor or materials for the repayment of which any former or present officers of the company, or any other person, at his or their instance, is security.

To the payment of all sums advanced or loaned for like objects, by any former or present Director of the company, and which have in good faith been so supplied.

To the payment of all liabilities of persons who have, at the instance of said company, or any officers or Directors thereof, become sureties for said company in the prosecution or defense of suits, whether upon appeal bonds, second trial bonds, replevin bonds, injunction bonds, or other obligations or undertakings, the object of which was to protect the property of the company against claims asserted by third parties to the injury or prejudice of the company, or others as creditors thereof.

To pay such other sums as may be directed bythe future order of this court.

Mr. Cass entered upon the duties of his office on the 17th inst., taking possession of the road from the Pacific coast as well as in Minnesota and Dakota. Mr. Cass is President of the Northern Pacific Railroad as well as of the Pittsburg, Fort Wayne, and Chicago Railroad, and is regarded as one of the most experienced railroad men in the United States. His appointment has met with the approval of all parties interested in the working of the line. The object for which he has been appointed is to take care of the funds until the construction of the road shall be resumed.

Canadian Pacific Railway.

The great enterprise of connecting the Atlantic and Pacific Oceans by railroad, in which the Dominion is now actively engaged, should excite the interest of every Canadian who has anything at stake in the country. The work is a gigantic one for less than four millions of people to under take, but when the effect which its prosecution will have in populating and developing our rich Western prairies is considered, there is reason to hope that the burden will not press too heavily on the Dominion and its resources. The time for the completion of the road has been extended to 1890. This will give eighteen years from the period when the surveys were begun, and that length of time ought to suffice to complete the magnificent enterprise, although possibly, not without some increase of the present rate of taxation.

It is well known that the policy of the existing Government is to make such portions of the railway as will, in conjunction with the long stretches of water between Ontario and the Northwest, speedily give us easy access through our own territory to that land of promise. The legislation necessary to carry out this portion of the scheme has already been obtained, and the work may now be said to be under way. The present position of this portion of the work can best be understood by a brief reference to the engagements which the Government has entered into.

The Eastern terminus of the railway has been fixed near Burnt Lake, a point about 30 miles south of Lake Nipissing. To connect this end of the road with our existing system, Parliament has voted a subsidy of $12,000 per mile to the Canada Central Co., to enable it to extend its road to wherever the junction may be, near Burnt Lake. This extension will be about 120 miles, and we understand the work is to be immediately proceeded with. From Burnt Lake to the mouth of French River—a stretch of 85 miles—we have what is known at present as the Georgian Bay branch, although we have been informed on high authority that it may yet be a part of the main Pacific line. Others however, believe this to be geographically impossible. The contract for this section has been let to Senator Foster (since resigned) the price being $10,000 per mile in cash, interest at 4 per cent. for twenty five years on the sum of $7,500 per mile, and 20,000 acres of land per mile; the railway to be retained by the contractor, who is bound to run it under such regulations as the Governor-in-Council may order. Whether any individual can long be compelled to run a railway at a loss, if loss there should be, is doubtful.

Montreal and Quebec are to be put in connection with the Georgian Bay branch by the extension of the Northern Colonization railway, and Toronto, Hamilton, and the West, by means of the continuance of the northern extension or some other railway—a distance of about 65 miles. The Governments of Ontario and Quebec are expected to assist existing railway companies in making these connections, and when completed, there will be continuous railway communication both from the east and west with the mouth of French River on the Georgian Bay.

From the mouth of French River there is uninterrupted water communication (unless the Sault Ste. Marie canal may be considered an exception), with Thunder Bay, the western extremity of Lake Superior. From Thunder Bay to Lake Shebandowan is a distance of 45 miles, and Parliament has just approved of the contract entered into with Messrs. Sifton & Ward to construct a railway between these points. The contract price is $406,194, but this does not, of course, include rails. This piece of road, as also the Georgian Bay branch and Canada Central extension, has to be completed by the 1st of January, 1879.

From Lake Shebandowan to Rat Portage at the northwest corner of the Lake of the Woods, we have another long water stretch. By an improvement to be made at Fort Francis, the number of portages are to be reduced, but there will still remain several between Shebandowan and Lake of the Woods. Some of them are quite short, but they must continue to be a great drawback to the Dawson route, and will prevent its being very attractive even after the railway sections are completed. With the exception of these portages, however, there is safe and pleasant sailing, all the way to Rat Portage, the scenery in some parts being very striking and beautiful.

From Rat Portage to Winnipeg, or we should more properly say to the Red River, is a distance of about 114 miles. There is a narrow, shallow neck at one part of Lake Manitoba, about 900 feet wide. It has been decided that the railway shall cross there, instead of going down to Winnipeg, as the bend necessary to reach that town would, it is estsmated, cost $1,100,000 additional. The first 37 miles westwards from Rat Portage is a very hilly, rocky country, the termination of which is near Cross Lake. The tenders sent in to the Government for the construction of this section were so high, in some cases, and the amounts so different, that it is proposed to make further surveys, and possibly ask new tenders. The work will not be much delayed, however, as Parliament gave the Government power to let the contract without waiting for its ratification. From Cross Lake to Red River, 77 miles, the contract has been awarded to Messrs. Sifton & Ward, the price being a lump sum of $402,950, exclusive of rails. This is $5,233 per mile.

It is confidently expected that this mixed rail and water route will be completed for the season's business of 1877. It now takes about two weeks to get from Ontario or Quebec to Manitoba through our own territory, and it is expected that the improvements now placed under contract, will reduce the time from Montreal or Toronto to four

or five days. If passengers or shippers prefer an all rail route, they can use the American railways, and reach Manitoba via Pembina, for that branch of the Pacific road was put under contract to Mr. Joseph Whitehead last fall, and we believe the grading of a considerable portion of it has already been completed. It is expected to be finished this fall. As it is generally understood that the section of the Pacific Railway north of Lake Superior will be left to the last, the country being very rough and barren, we suppose our business with the Northwest will have to be done by the Dawson route, or partly by American railways, for many years to come. It remains to be seen whether this will prove satisfactory.

So far as the western sections of the Pacific road are concerned, it is not clear what course the Government propose to take. From Manitoba westwards to the Rocky Mountains, it is rumored that a large company will be formed to make the road, and at the same time endeavor to colonize the country; but no definite scheme has yet been promulgated, although the Premier intimated to Parliament that the subject had been under his consideration. The action of the Senate on the Esquimaux and Nanaimo Railway we have commented upon in a previous issue. As the work of crossing the Cascade and Rocky Mountains is very difficult, it is impossible to foretell how many years it will take to connect Columbia by rail with the rest of the Dominion.

We understand that the letting of the contracts for the whole railway, unless it be the Lake Superior section, will not be very long delayed. They may possibly be sufficiently advanced to be laid before the next session of Parliament.—*Monetary Times.*

☞ The strike of the Pittsburg puddlers has been ended, after five months' continuance, by the Iron Association consenting to yield entirely to the demands of the workmen. This action of the proprietors was based on the fact that Western mills were running and taking the trade which largely belongs to Pittsburg. The result is a complete victory for the puddlers. The Pittsburg Chronicle, in noting the above fact, says that the business men are greatly elated, as this action unlocks at least $1,000,000 local circulation per week.

☞ The managers of the Cleveland and Pittsburgh Railroad annually give a first and second premium to the engineers who run their engines at the least expense to the Company. John Simmons and John Taylor have just taken these premiums—Simmons, seventy five dollars, Taylor, twenty five dollars.

☞ Such has been the increase of business by the change of gauge on the Richmond and Atlanta Air-Line Railroad that it has been found necessary to immediately add one hundred freight cars to the rolling stock. The Tredegar Works, at Richmond, Va., is now filling an order for forty of these cars.

Commerce of New York.

The foreign imports at New York for the month of March, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$18,498,458	$15,821,051
Do. for warehousing	11,761,814	11,468,257
Free goods	12,188,280	8,248,598
Specie and bullion	150,894	2,761,677
Total entered at port	$42,599,446	$38,289,583
Withdrawn fr. wareh'use	10,252,756	8,714,383

The foreign imports at New York for the three months from January 1, were:

	1874.	1875.
Entered for consumpt'n.	$48,551,161	$46,826,873
Do. for warehousing	28,812,432	25,309,723
Free goods	29,913,486	23,729,786
Specie and bullion	1,072,692	4,177,861
Total entered at port	$108,349,771	$100,044,193
Withdrawn fr. wareh'se.	30,864,010	24,928,304

The foreign imports at New York for nine months of the fiscal year, were:

	1874.	1875.
Six months ending January 1	$177,517,854	$175,106,815
January	30,310,679	24,831,260
February	35,439,646	36 923,360
March	42,599,446	38,289,583
Total for 9 months	$285,867,645	$275,151,008
Deduct specie	16,886,598	8,217,141
Total mdse.	$268,981,047	$266,933,867

The duties received at New York for nine months ending with March, were:

	1874.	1875.
Six months ending Jan. 1	$53,585 419 05	$54,213,434 16
January	10,042,084 06	8,072,846 12
February	10,186,365 08	11,810,911 55
March	10,793,792 81	10,313,619 78
Nine months	$84,557,661 00	$84,410,811 61

The exports from New York to foreign ports in the month of March, were:

	1874.	1875.
Domestic produce	$22,099,528	$18,669,717
Foreign free goods	191,435	351,906
Do. dutiable	618,255	560,539
Specie and bullion	2,537,822	3,142,066
Total exports	$25,447,040	$22,724,228
Do. exclusive of specie.	22,909,218	19,582,162

The exports from New York to foreign ports for three months from January 1, were:

	1874.	1875.
Domestic produce	$64,835,662	$55,069 153
Foreign free goods	508,713	776,647
Do. dutiable	1,746,092	1,139,750

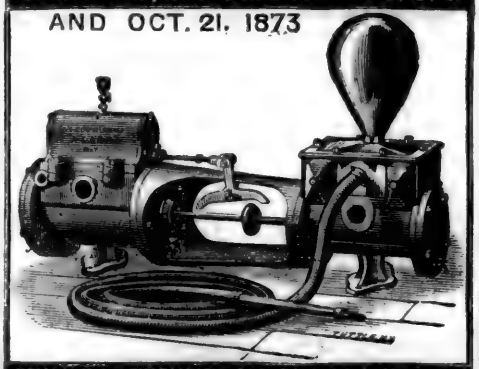
The exports (exclusive of specie) from New York to foreign ports for nine months ending with March, were:

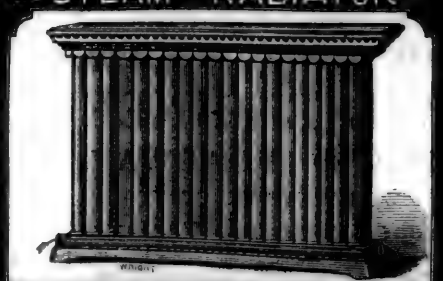
	1874.	1875.
Six months ending January 1	$160,757,524	$140,508,524
January	23,455,638	19,291,403
February	20,725 611	18,111,985
March	22,909,218	19 582,162
Total produce	$227,847,991	$197,494,074
Add specie	29,019,569	48,905,477
Total exports	$256,867,560	$246,399,551



☞ The Bank Street Railway Company, of Cleveland, Ohio, has been incorporated with a capital of $50,000.

☞ The stockholders of the Portland and Oxford Central Railroad met in Portland, Me., on the 19th inst., and voted, as the corporation is hopelessly in debt and unable to redeem its mortgaged property, to release to the trustees in trust, for the benefit of the bondholders, all the mortgaged premises, the same to be held by the bondholders as absolutely as the corporation would have owned them if no mortgages had existed. Another meeting will be held May 3 to learn the decision of the bondholders.

☞ The Russian Government proposes to establish a new net work of 8,125 versts of line. The cost of construction is estimated at 370,000,000 roubles, and the works are to be completed in 4½ years. The necessary capital will be obtained by means of an issue of consolidated railway obligations.



☞ The aggregate extent of line in operation in France at the close of 1874 was 11,948¾ miles. The corresponding length in operation at the close of 1873 was 11,606½ miles. It follows that 341¼ miles of line were opened in France last year.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

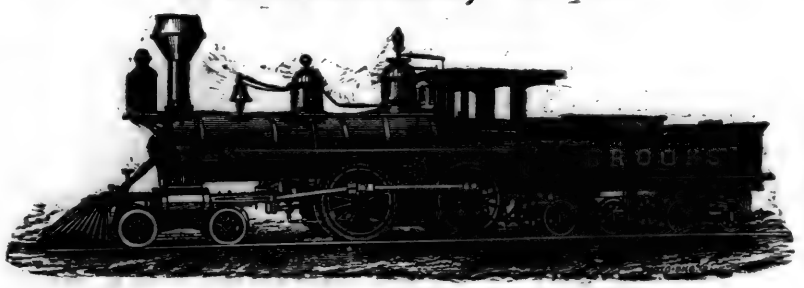
The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between **50,000,000** people in the United States and Canada, and **40,000,000** in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship**, *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.



HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

☞ At the monthly meeting of the dir tor of the Baltimore and Ohio Railroad Company in Baltimore on the 14th inst., the usual semi-annual cash dividends of five per cent on the main stem and Washington Branch were declared payable the former on the 1st of May and the latter on the 17th of April. The President stated that the month of March showed an increase in the gross earnings of the Baltimore and Ohio Company over the same month in 1874 of $103,774. Notwithstanding the diminished rates for passengers, the revenue of the main stem from this source shows an increase of 45 per cent. The earnings of the Chicago division were $100,625, an increase of more than 50 per cent. on the preceding month.

☞ We learn from Cleveland that no contracts have yet been made with mining companies for Lake Superior ore for present or future use, and no ore is expected there except that which comes to furnaces direct, or to parties interested in mines and furnaces, and which, if not consumed by the parties themselves will be subject to spot sales. The mining companies have curtailed their product all they can, without absolutely abandoning their work, and do not intend to forward any ore until it is sold.

☞ The Pittsburg, Virginia and Charleston Railroad have commenced running through trains to the Union depot in Pittsburg. The prospects of the extension to Brownsville at an early day are very flattering. The completed portion, between Monongahela City and Pittsburgh, is self sustaining, and if the road were finished to Brownsville it would, while increasing the expenses not more than ten per cent., double the receipts.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

New York, Saturday, May 1, 1875.

The Centennial Anniversary of Progress.

It is settled, beyond controversy, that we are to have a National Celebration of the Centennial Anniversary of the Nation's birth. To what extent it shall be an intef-national celebration of the Acts of Peace, is not yet determinable. There was at first among ourselves a little difference, if not positive jealousy, in regard to the locality where the celebration should be held; but that is rapidly dying out, or dead; and the whole country, so far as it acts at all, will now second the efforts of Philadelphia as readily as if it had been held at any other point. Of course, there are good political reasons for the choice of Philadelphia; but there are also good geographical and industrial reasons. True, New York is the commercial and financial metropolis of the country; and besides being the largest city and the busiest seaport, has many qualifications for receiving and entertaining a concourse of strangers which the former has not. Had the manner of observing the Centennial been merely national and political, Boston might have been selected as the place for oratory, poetry and general exhibition of the national jubilation. Wisely, we think, the sentiment of the people has crystallized in an exhibition of physical achievements, a department of human activity in which Americans do excel, and have some things which may with satisfaction be submitted to the eyes of the coming generation, and to such foreigners as choose to come and look at them.

Our political institutions, though on the most approved model, have not been working quite so smoothly of late as might be wished; but our educational, industrial, mechanical and agricultural efforts are acknowledged successes, and may win the admiration of the world. If we bear in mind that the significance of the occasion is to present such a sight to the eye as shall convey to the mind the measure of our progress, a series of very effective contrasts may be presented in Philadelphia. It is a matter of regret that the City in itself does not present more examples of the higher achievements of architecture of the close of the century, although it presents a fine assortment of those belonging to the beginning of it. The Centennial Exhibition building itself, however, will be a fine tribute to architectural skill. In the field of locomotion our greatest triumphs will be won. Contrasting the rude log-cabin of 1776 with the lofty structures now to be seen on every hand will not be half so effective as the contrast between the new Pacific Mail Iron Steamers, building on the banks of the Delaware, with the little sloops which ascended the same river a hundred years ago. Nothing better than a stage-coach was then in use for land transportation; and for lengthened journeys, horseback was the common mode. Placed side by side with the modern steam locomotive and the elegant Pullman Parlor and Sleeping Cars (two appliances in which we are ahead of the world) the lesson of the occasion will be palpable.

In locomotive engines and cars, in telegraphy, agricultural implements, scales, sewing machines, pianos, watches, iron working tools, and machinery, wheels, axles, springs, etc., etc., and in processes for manipulating ores and fuel, we ought to have very creditable displays. Pennsylvania is the home of great iron industries; and as our modern progress is so bound up with the use of iron, it is to be hoped that the iron and coal interests will be well represented. By July, 1876, we shall have fully 76,000 miles of railroad lines in the United States, besides about 4,000 miles in Canada, Mexico and Central America, in which we have a large interest. This is the result of 40 years' effort of a young nation; and has been brought about at the same time that the energies of the people were expended in enclosing, ditching and draining millions of acres of land, erecting bridges, houses, barns and other improvements, which in Europe have been building and improving for two thousand years. Our products of the garden, orchard, field and forest, particularly from California, ought to make a fine and tempting array.

There are one or two minor considerations of detail connected with the handling and providing for the persons who may be gathered to witness the Exhibition which deserve attention. Unless the crowds can be comfortably fed, lodged and moved about, there will be dissatisfaction. Philadelphia has no steam-transit through her streets; and although she has an abundance of horse railroads, is in no better condition than New York in this respect. The facilities for getting into, out of, and around Philadelphia are perhaps sufficient; not so, however, the housing accommodations. Philadelphians do not themselves use hotels, nor care about them. The multitude of priv-

ate houses will doubtless open their doors, rent out their spare rooms, and board their inmates. This practice will suit the English and Continental visitors well enough, for they understand it; but for Americans, they believe in the huge American hotel; and it is to be regretted that public spirit has fallen so far behind the needs of the occasion, as to neglect the erection of a creditable and colossal specimen of this great American Institution. By the opening of the Exhibition we shall have a second line of double-track railroad between Philadelphia and New York; and if the managers of both lines will adopt an excursion fare of, say $2, during the season, a great number of visitors may be induced to come to this city in the evening, to sleep, eat and be amused, and return next day. There will inevitably be a great movement between the two cities. From five to fifty thousand passengers, daily, may be carried back and forth. This would be no improper detraction from the Centennial itself; and may become a necessity, if Philadelphia does not decide to erect sufficient hotel accommodation for say a hundred thousand strangers, per day, for three months.

European Investments in American Bonds.

According to the London Investors' Manual, the sum of £1,747,750 ($8,500,000) was to have been paid up in April on account of London and Continental subscriptions to American loans, viz: Pennsylvania Railroad Co., £930,000; Real Estate (New York) 1st mortgage bonds, £220 000; Utica, Ithaca and Elmira Railroad Co., £60 000; Western Union Telegraph Co., £437,750; Delaware and Hudson Canal Co., £100 000. This shows a decrease of only £172,150 as compared with the same month last year; while the amounts paid up for the first four months of the year (£6,501,500) exceed slightly those for the same period last year. These operations have furnished a resource for the drawing of $31,600,000 of exchange; showing that we are borrowing abroad at the rate of about $95,000,000 in gold per annum. The panic has apparently had little effect in dimishing the amount of our borrowing in Europe, except that the negotiations are now chiefly confined to loans to our oldest and best approved corporations.

Shelburne Falls and Northampton Railroad.

A meeting of the friends of the proposed Shelburne Falls and Northampton Railroad was held in Northampton, Mass., on the 24th ult. T. F. Wurts, Division Engineer of the Massachusetts Central Railroad, with which this projected line will connect, presented topographical maps showing the feasibility of the line, and is now making preparations for a preliminary survey. The line will leave Northampton at the depot grounds of the Massachusetts Central Railroad, and be laid through Deerfield, Whately and Conway, an almost direct line, to Shelburne Falls. John Sprague, Surveyor of the Deerfield Valley Narrow Gauge Railroad, gave a statement of the prospects of that line. Subscriptions to the capital stock are being received from the towns on the route, and it is believed that work on the line will be commenced this summer. It will be a feeder to the Massachusetts Central Railroad, via the projected Shelburne Falls and Northampton Railroad, bringing lumber from Northern Vermont and Canada, and is an argument in favor of the latter line.

Chicago, Burlington and Quincy Railroad.

TWENTY FIRST ANNUAL REPORT.

To the Stockholders of the Chicago, Burlington and Quincy Railroad Company:

The stockholders will understand, in considering this report, that the length of the road operated during the year, is the same as that covered by the report for 1873—680.29 miles of main track and 583.52 miles of branch roads, in all 1,263.81 miles.

The capital stock of the Chicago, Burlington and Quincy Railroad Company has been increased during the year by $1,900. Certificates for this amount were issued to parties entitled to the same under dividend No. 25, and which had not been previously called for.

The capital stock of the Burlington and Missouri River Railroad Company has been increased by $207,550.

Fifty dollars of it for fractional rights, to which the parties were entitled under a previous dividend, and $207,500 by conversion of Burlington and Missouri River Railroad bonds as subsequently stated, making the combined capital stock of the two companies on the 31st of December, 1874, $26,639,012 76.

The entire gross receipts and expenditures of the company, for the year ending December 31, 1874, have been as follows:

From freight		$8 445,909 52
" passengers		2,608,054 29
" mail and miscellaneous		392,650 58
" Burlington Bridge tolls		198,708 18
Total earnings		$11,645,317 52
Operating expenses, exclusive of taxes	$6,219,283 41	
Taxes paid, in all	294,228 98	
		6,513,512 39
Leaving net earnings for the year		$5,131,805 13
Interest accrued and paid on bonds during the year		1,958,892 10
Leaving a balance of		$3,172,913 03
Out of which has been paid—		
Dividend No. 27	$1,327,134 00	
Dividend No. 28	1,333,955 25	
Rent of tracks & depot	50,885 35	
Transfer office exps	9,000 00	
Interest and exchange	23 544 68	
Sinking fund	3,000 00	
		2,747,519 28
Leaving net surplus earnings for the year over dividends and every current liability		$425,393 75
To which add surplus at commencement of the year		3,520,599 00
And there stands to credit of income account		$3,945,992 75
The amount credited to sinking fund taken from earnings of previous year is		1,182,744 88
And this, added to income credits, make the amount of surplus earnings		$5,128,737 63

From this statement it will be seen that the gross earnings for 1874, were $11,645,317 52; against $11,405,225 52 for 1873, an increase in gross earnings of $240,091 50.

Operating expenses were $6,219 283 41, exclusive of taxes, and $6,513,512 39 including taxes.

In the previous year the operating expenses were $6,181,514 18, without taxes, and $6,434,767 82 with taxes. Being less in percentage in 1874, though larger in amount by $37,769 23 in the former case, and $78,744 57 in the latter; showing a gain in the net earnings of the year over that of the previous one of $161,347 03.

A comparative statement of operating expenses, for 1873 and 1874, gives the following result. In 1874 they were 53.41 per cent exclusive of taxes, and including taxes 55.93 per cent of the gross earnings.

In 1873 they were 54.19 per cent without taxes, and 56.41 per cent with taxes; showing a reduction in operating expenses in 1874 over those of 1873 of 0.78 of one per cent in the one case and 0.48 of one per cent in the other.

The earnings distributed upon the main line have been at the rate of $17,125 46 per mile, and over main line and branches, at the rate of $9,213 07.

The preceding statements show that the net earnings of the road for the year, above operating expenses, taxes, interest on the bonds of the two companies, and on all bonds of the branch roads of the two companies, in Iowa and Illinois, and every other expense, have been $11 22 per share on the combined capital stock of the two companies, as it stood on the 31st of December 1874, as against $10 28 per share on the stock as it was on the 31st of December, 1873.

The amount of taxes assessed against and paid by the company during the year was $294,228 98, an excess over those of 1873 of $40,975 84.

In addition to these there was assessed against the company, for the year 1873, and payable in 1874, about $227,000, mainly under a recent law of the State of Illinois, purporting to authorize the taxation of the capital stock, including the franchises of the company.

The legality of this tax was disputed by the company, and its collection enjoined for that year. That suit is still pending.

A similar tax, and amounting to about $200,000, as near as can now be ascertained, was in like manner assessed against the company for the year 1874.

The collection of this tax has also been enjoined by a recent suit in the Federal Court. It is confidently believed that the law purporting to authorize this tax, and the proceedings of the authorities under it, will in the pending suits, be held to be void, and the collection of these taxes perpetually enjoined.

Some changes have taken place in the funded debt of the company during the year.

It will be recollected that under the date of July 1, 1873, in order to consolidate into one class of bonds of like character, the entire bonded and other indebtedness of the company, and to provide for its future necessities, the company executed a Trust Mortgage (a copy of which will be found at the end of this report) upon its railroad property and franchises in Illinois, and its Keokuk Branch in Iowa, securing its bonds, to be issued as therein provided, to the amount of $30,000,000.

Of this amount, twenty millions by the terms of the Trust Mortgage were set aside and appropriated exclusively to the funding of the then outstanding bonded and other indebtedness of the company, and the remaining ten millions to be appropriated and used only as the proceeds thereof should be required to pay for new construction and equipment demanded by the increase of business.

Under the provisions of this mortgage there have been issued during the year $6,081,000 of these bonds.

Of these there have been exchanged at par, with an adjustment of interest, for the plain seven per cent bonds of the company payable in 1896, $3,382,500; and for the Branch bonds, so-called, $42,500; making the amount of bonds exchanged, $3,425,000.

The remaining $2,606,000 have been sold and the proceeds applied in accordance with the provisions of the mortgage. That is to say, $256,206 95 toward the payment of the balance due on the purchase of the Northern Cross Road, and $236,500 in the purchase of various Branch bonds—proposals for purchase of a large amount of these Branch bonds were published, but in response to which, aside from the amounts above named, none were offered for sale within the terms of the contract—$1,313,293 05 toward the payment of the

floating debt especially provided for in the mortgage, and $800,000 toward the cost of new construction and equipment upon the road covered by the mortgage since the date thereof.

The funded debt of the Chicago, Burlington and Quincy Railroad Company proper, including its Branch bonds, at the date of the last report was $18,494,881 95.

On the 31st of December, 1874, it stood at $20,606,925, showing an increase during the year of $2,112,093 05, which amount has been applied toward payment of floating debt and new construction as above stated.

At the commencement of the year the funded debt of the Burlington and Missouri River Rail road Company was $7,358,950.

During the year there have been purchased and taken up of the bonds of the company $372,300, and $207,500 have been converted into the Stock of that Company, leaving outstanding of the Bonded Indebtedness on the 31st of December, $6,774,-150, and the combined funded debt of the two companies $27,381,075 00, an increase during the year of $1,582,293 05.

From the following statement, taken from the Treasurer's Report, it will appear that the entire property of the company of every kind, and its liabilities, on the 31st of December, 1874, in both States, were as follows:

Permanent investments, bills and accounts receivable, cash and material on hand for future use....		$60,884,873 70
Capital stock.....	$26,639,012 76	
Bonded liability, bearing interest, including Branch bonds	27,315,825 00	
Scrip issued to pay for Northern Cross Road, not bearing interest....	65,250 00	
Monthly accounts..	535,844 21	
		54,555,931 97
Leaving a surplus of.....		$5,828,941 73

SURPLUS ACCOUNTS.

Sinking fund.....	$1,182,744 88
Income account	3,945,992 75
	$5,128,737 63
Sinking fund B. & M. R. Land Grant	359,863 49
Profit and loss....	340,340 61
Total.....	$5,828,941 73

Special reference is called to the Treasurer's Report for details and additional information in relation to the character of the assets and liabilities of the company, and the receipts and disbursements during the year.

By reference to the statements of the Treasurer and General Superintendent, herewith published, the stockholders will be advised of the character and details of the new construction and equipment on the road during the year.

By these expenditures— $665,149 34 of which were in Illinois and $421,660 79 in Iowa—the construction account has been increased $1,096,-810 13.

The principal items of these expenditures have been:

For new track side track, including cost of steel rail over iron.....	$607,483 00
Land and right of way....	105,419 00
New buildings	61,966 00
Excess of cost of new iron bridges over wooden ones	35,419 00
Locomotives and cars, machinery and tools....	243,379 02

Aside from expenditures at various points upon the line, the cost of steel rail over iron, and the purchase of some new equipment, rendered necessary by the increase of business, it is expected that some progress will be made, during the ensuing year, in providing suitable accommodation for the passenger traffic of the road in the city of Chicago.

The whole number of tons of freight moved during the year, exclusive of Illinois Central, Chicago, Dubuque and Minnesota and Company freight, was 2,420,628, an excess over that of the previous year of 198,884 tons.

Of this gross tonnage there were 187,941 tons Westward, and 423,251 tons Eastward, of through freight, leaving the amount of local freight, Eastward and Westward, 1,809,436 tons. The gross tonnage on the business transported in connection with the Illinois Central Railroad, under their contract with this company, amounted to 329 232 tons. And the whole number of tons received and delivered to the Chicago, Dubuque and Minnesota and Chicago, Clinton and Dubuque Roads amounted to 8,270.

The rates on the freight business of the year have been substantially maintained. The average earnings on the same have been at the rate of 1.90 cents per ton per mile, against 1.92 cents per ton per mile in the last year, a difference of only 0.02 of one cent per ton per mile.

The total number of passengers carried during the year was:

Eastward	896,503
Westward	933,950
Total.....	1,830,453

The average rate per mile, exclusive of mileage and season tickets, was 3.009 cents, as against 3.022 cents in 1873.

The development of business on the Burlington and Missouri River Road and its branches and connections, is shown by the fact that, commencing with the year ending April 30, 1870, the whole amount of tonnage was 77,448 tons, upon which there has been a steady increase to the present time, reaching, in the year ending December 31, 1874, 504,561 tons.

TRACK AND EQUIPMENT.

For several years there has been a steady improvement in the character of the track and equipment.

Regarding these as of prime importance, it has been the policy of the company not to hesitate to incur any reasonable expenditure which might seem necessary to have these, at all times, in as good condition as circumstances would admit.

The wisdom of this policy is made quite apparent by the comparatively small percentage of gross earnings at which the road has been operated.

During the year 1874, very considerable amount of work was done upon the track, and the improvement during the year has been greater and more marked, perhaps, than in any former one. The commencement of 1875 found both the track and equipment in unusually good order and condition.

The superintendents of both track and equipment are deserving of special mention for the economical and efficient manner in which they have respectively discharged their several duties in this regard.

There have been put into the track, during the year, of steel rails, in Illinois 52.10, and in Iowa 29.66 miles—in all 81.76 miles; making the total number of miles of steel rails now in the track 286.46.

As before stated, the whole number of miles of main track is 1,263.813. There have been constructed, in the year, 19.15 miles of side track, making the whole number of miles of side track now on the road 252 69.

The second track remains the same as at the close of last year—61.50 miles.

There have been added to the equipment of the road, since the last report, 14 locomotives, 2 passenger cars, 28 box and freight cars, 17 platform and coal cars, 13 conductor's and way cars, and 2 wrecking and tool cars.

The present equipment of the company is as follows: Engines, 302; Passenger cars 112, Baggage, mail and express cars 59, Freight cars 4,160, Platform and coal cars 1,714, Way and conductor's cars 128, Office cars 2, Pay car 1, Refrigerator car 1, Dump cars 26, Wrecking and Tool cars 6, Pile driver 1, Hand cars 407, Rubble cars 357.

Some additional freight cars are required to accommodate the business. In other respects the equipment is adequate for present necessities.

LAND DEPARTMENT OF THE B. AND M.

There have been sold, during the year, 78,232.64 acres, for the gross sum of $926,880 75, or at the rate of $12 64 per acre; and at a cost of 92 cents per acre, a considerable reduction on the cost of selling in the previous years.

Contracts for 19,506.15 acres, made in previous years, and amounting to $250,041 74 have been canceled; so that the amount of unsold lands at the commencement of the year has been reduced by 58,726.69 acres.

At the date of the last report, it was estimated that the company had, of unsold lands, 157,006.73 acres. From which deduct lands sold during the year, and there remains 103,280 04 acres; while the books now show that there are 103,621.26 acres.

This discrepancy arises from the difficulty of determining, at any time, the exact number of acres covered by the grant.

In each year, additional lands have been certified to the company, while at the same time some tracts supposed to be within are discovered not to be covered by the grant.

The result of the grant in acres may now be stated approximately as follows:

Whole number of acres certified up to Jan. 1, 1874, title to which is undisputed	339,108 45
Certified in 1874	1,010.99
Giving whole amount not disputed.....	340,119.44
Number of acres, title to which is disputed, but which, nevertheless, is thought to be in the company	20,600.00
Making a total of....	360,719.44
From which deduct amount of sales up to December 31, 1874.....	257,098.18
Leaves a balance unsold....	103,621.26

Should these lands sell as rapidly in the future as they have done in the past year, we should expect at the end of a couple of years they will be substantially closed out.

The receipts of this department for the year have been.....		$364,340 50
Disbursements—		
For taxes....	$22,256 85	
For ordinary expenses of the department....	49,952 53	
		72,208 88
Leaves a balance of		$292,131 62

A general financial statement of this department is as follows:

Due from principal on subsisting contracts for sale of land....	$2,597,099 43
For interest on subsisting contracts.	679,498 11
Due on contracts for town lots, bills receivable, and other sources....	25,047 03
Cash paid Treasurer C. B. & Q. R.R. Co. for sinking fund....	532,847 21
103,621.26 acres, estimated at.....	725,347 00
Giving a total of....	$4,559,838 78

which may be reasonably accepted as the result of this grant.

This estimated result is larger than the one given in the former report. The difference is occasioned by including in this statement the items of interest on subsisting contracts, and placing a less value on the unsold lands.

Some of the scattered lands have been reduced in price during the year. This became necessary in order to effect sales.

The unsold lands in the above statement have been estimated at seven dollars per acre above the cost of selling, which, in view of the prices at which lands have hitherto sold, will not be considered as an over-estimate.

The monies received from this grant are, by the terms of the mortgage securing the so called Bur-

lington and Missouri River Railroad Land Grant, and Road Mortgage bonds, pledged for the payment of the principal and interest of those bonds, of which there were issued $5,058,350.

The $532,847 21 mentioned in the above account, was received by the Treasurer of the Chicago, Burlington and Quincy Railroad Company, to be paid over to the trustees in that mortgage, and by them to be invested in bonds for the sinking fund created by the provisions of the mortgage.

On the 31st of December, 1874, the treasurer had paid over to the trustees $359,863 49, and with this bonds for the sinking fund had been purchased by them to the amount of $363,300, and canceled.

The balance remains in the treasury of the Chicago, Burlington and Quincy Railroad Company.

The recent legislation in Iowa and Illinois, in hostility to the railroad interests of those States, has not been repealed or modified by legislative action, nor is it likely to be at the session of the Legislature the present winter.

These laws, by their terms, cover both domestic and inter-State commerce, and it was early seen that their enforcement, if possible of enforcement at all, would result in injury to all interests, agricultural as well as every other. Hence, by general acquiescence, their provisions have not to any great extent been observed. If a strict compliance with their provisions were now possible, it would not be demanded by the general public, nor by those immediately connected with the business of your road.

This kind of class legislation has not met public expectation, nor commanded general approval, and it is now apparent that at an early day these laws must be altogether repealed, or modified into such form and character as shall bring them within the sphere of that kind of legislative supervision and control, the limits of which seem to have been reasonably well defined by the courts.

Upon the enactment of these laws, it was the purpose of your directors to cause their constitutional validity to be tested at the earliest opportunity. Suits were brought in both States for that purpose. Two of them have been submitted to the court of last resort in Illinois, and now await, as it is confidently believed, a decision which will be favorable to the protection of the large interests represented by your directors.

We have been at pains to obtain such statistics and information as could be had, bearing on the business of the ensuing year, and we think it may safely be assumed that it will at least equal that of 1874. The wheat crop, which ordinarily should have found a market in the autumn of that year, in consequence of continued low prices, is largely in the country, and its transportation will fall within the business of the present year.

The amount of corn and other cereals to come forward is large, and an increase in the amount of live stock may reasonably be expected. The business of the present month will equal that of January of last year, and we know of no reason why we should not expect as large returns from the business in 1875 as was realized from that of the year now closed.

All of which is respectfully submitted.

By order of the board.

J. M. WALKER, President.

CHICAGO, JANUARY 1, 1875.

Boston, Revere Beach and Lynn Railroad.

The work upon the new route to Lynn, known as the Boston, Revere Beach and Lynn Railroad, has been pushed forward so rapidly that it is hoped it will be ready for the laying of the track, with the exception of the tunnel at East Boston, in twenty days. The tunnel is to be 400 feet in length, with a finished width of ten feet and hight of fifteen feet, and the contractors have made a long open cut on the harbor front, and have got their tunnel started and in some fifteen feet at Webster street. On the east end, on Everett street, there is now an open cut of some fifty feet in length, and twenty feet more of this cutting will bring the men up to the work of tunneling. When both faces are started, and gangs working night and day, it is estimated that a progress of ten feet on each face, or twenty feet a day, can be made with certainty if no solid rock is encountered.

Car Locks.

The difficulty of perfectly securing the sliding doors with which all sorts of box, stock and grain cars are provided, is very great, and has given on all railroads in the country a great deal of trouble. The fact that valuable freight is left exposed in cars which are secured only by a lock is a great temptation to that part of the community with easy morals; and, beside, as detection of petty pilfering is nearly impossible, it becomes pretty certain that cars left alone will have their fastenings tested. Ordinary staples and bolts, when put into wood only three or four inches thick, and securing a lock which has to be attached to a door of a couple of inches in thickness, do not prove very secure fastenings. Neither the door nor the door post offer resistance enough to prevent a determined man from going in, and if the breakage can be made to appear as the ordinary result of accident so much the better. If the lock is of the poorer kinds the efforts to pick it are probably successful, while with the better classes it is wrenched off and the door slid back without difficulty. Perhaps the whole trouble may be indicated by the slang phrase we have nothing which "it will do to tie to." Really no parts to which the ordinary lock can be easily secured.

This need of a secure and reliable fastening for car doors has long been felt by railroad men. Its importance will be seen by any one who reflects that the value of the contents of these cars aggregate something near fifty million dollars. The losses entailed by depredations, the amounts expended for watchmen to guard cars, for broken, lost or stolen padlocks, chains, hasps, etc., are very large. Seal locks are not proof against violence, and so these with the others swell the list of damages. We may sum up the losses to railroads by quoting from a recent article upon the insecurity of our ordinary methods of car transportation.

1st. The actual direct loss of goods stolen from freight cars.

2d. The wages of night and day watchmen employed to watch cars in freight houses, yards and sidings.

3d. The amounts expended in purchase of new locks, chains, hasps and staples, to replace those broken and stolen, and the amounts expended in repairs of locks, etc., and of cars damaged by breakage of locks and fastenings.

4th. The expense, direct and indirect, and the annoyance of correspondence and litigation, arising from claims of shippers for indemnification for losses, including the vexed question of "shortages."

Some months ago, while at the rooms of the Master Car Builders' Association, we saw a novel car lock, the success of which we have watched with considerable interest, and which we now feel justified in mentioning. The Dotterer car lock, manufactured by the Yale Lock Mfg. Co., of Stamford, Conn., to which we refer, is what is called a self-locking dead-lock. That is, it has a spring bolt which locks without the use of the key whenever the door is closed, at the same time the bolt can, at will, be locked open so as to be inoperative and will remain so until released by the key.

To explain the method in which this lock works, and the way in which it makes the door more secure than is possible with an ordinary lock, it is necessary to explain somewhat in regard to car construction. The almost universal practice is to use a sliding door, so hung as to slide upon a rail of iron attached to the side of the car. The top of the door is confined by a rail or guard attached to the side of the car just under the eaves. These rails, top and bottom, are secured to the timbers of the car, and may be considered fast, as there are a considerable number of bolts used. Castings or bearings on the bottom of the door slide on the bottom rail.

Fig. 1 illustrates the construction of the doorway of a car, and shows that part of the side of the car against which the rail, on which the door slides, is fastened. The door itself is opened a few inches, and locked in that position. As many articles require ventilation, and can obtain it only by opening the door, it is important to have the door capable of being fastened in position as shown in the drawing.

One of the novel points of this lock is that the lock is put upon the rear corner of the door, at the bottom, and when locked is fast upon the rail, so that if the door is to be opened by force it must override the lock. In other words it does not hold the door shut, but is locked fast in such a position that the lock must be moved out of its position to allow the door to slide back, and this would be true even if the lock were not attached to the door. Three or more notches are cut in the top of the rail on which the door slides, and when the bolt is locked into one of these notches the door cannot be moved past it. In each of the notches the lock is rigidly secured to the rail, and cannot be forced in either direction until unlocked. If the lock is not fastened to the door it is still secure in its position, because the outside steel plate completely clasps the rail, and hence when the bolt engages a notch the lock becomes practically a portion of the rail itself. Even when the lock is placed in the middle of the door it cannot be opened after the lock has been sawn off it, because being still fast to the rail the door cannot be moved unless it is taken off bodily from the side of the car, a job not very easy to accomplish, it may be judged.

Our engraving Fig. 2 represents a lock of this kind, with the steel front plate removed, the parts being half of the actual size. In the center is a bolt which is hung on a heavy steel pin on the right hand side. The bolt is prevented from rising when locked, first, by a cam which is pivoted on the key post, and, second, by the tumblers in which the stump on the outer end of the bolt is engaged. The cam, which is as strong as the bolt itself, holds the bolt in its locked position, and at the same time relieves the tumblers from the strain which might otherwise be thrown upon them when the car is in motion. When the key is used in unlocking, the cam is first disengaged from the bolt, then it "sets" the tumblers so that

the stump outer end of the bolt can enter their "gatings" when the bolt is free and can be raised out of the notch in the rail. When unlocked the bolt is securely held up and is then inoperative. A slight turn of the key to the left will then throw the bolt down so as to rest upon the rail, ready to drop into the notches on the rail automatically, when the door is closed.

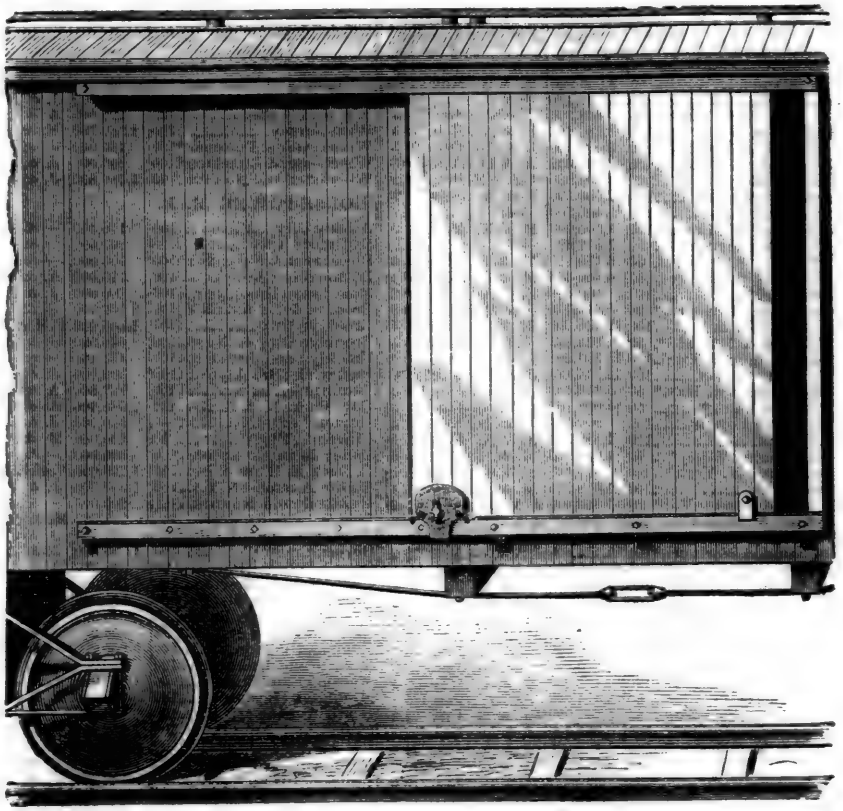

Fig. 1.—IMPROVED CAR LOCK APPLIED TO SLIDING DOOR.

At each side of the lock is a roller, resting on the top edge of the rail. The front plate of the lock is of steel, made very strong, and secured with countersunk bolts. It extends downward and embraces the lower edge of the rail, and prevents the separation of the lock from the rail in case of an attempt to force open the door. This clasping of the rail by the lock affords one of the chief elements of security; for if the rail be well secured it makes the opening of the door without unlocking very nearly if not quite impossible, until the lock and rail are separated. This cannot be accomplished except by cutting the lock to pieces. The difficulty of doing this was well illustrated some time since by a consignee who found a car load of his goods secured by one of these locks, and no key at hand. After a considerable time spent in trying to break the lock, he was obliged to give up the job. The lock, which was afterward shown us, showed that the force used had been very great, but the damage done consisted in bending the steel front plate and jamming it fast upon the rail. The lock was disabled for the time, but they were no nearer to getting the door open at the end of their labors than the beginning.

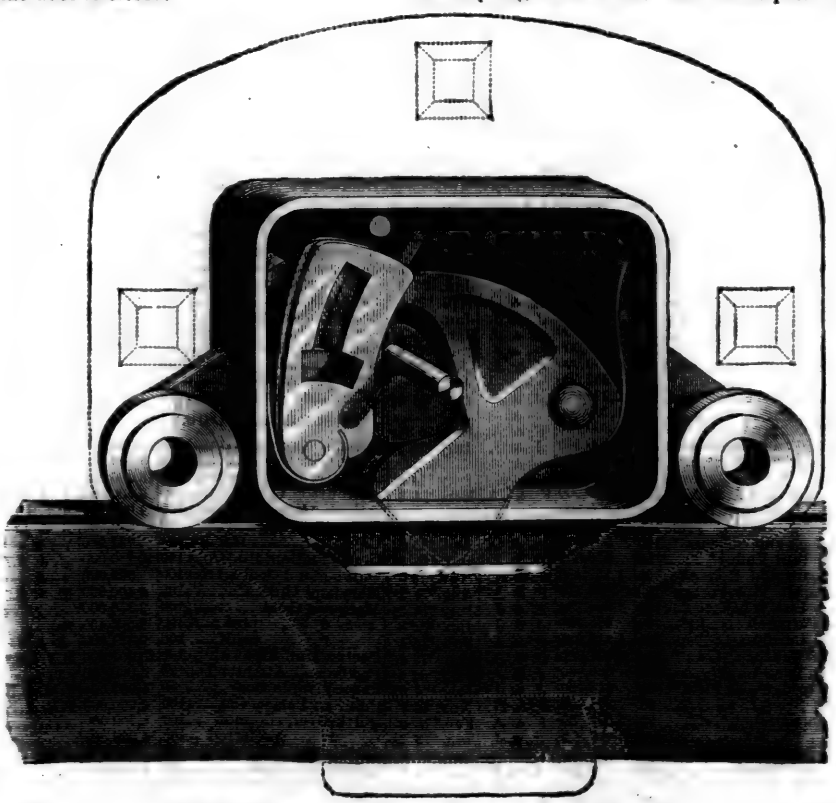

Fig. 2.—VIEW OF LOCK WITH FACE PLATE REMOVED.

There is another kind of sliding door used on cars, and in many other situations, which is known as the "overhung" door, that is, the upper and not the lower rail supports the door. To confine the bottom of such doors to the side of the car, it is customary to use several cast iron brackets, bolted to the side of the car at intervals. One of these is replaced by a casting which serves a three fold purpose—confining the door, providing the notches for the bolt to lock into, and forming a rail which the front plate of the lock embraces, as in the other styles, preventing a separation of the lock and rail in case of an attempt to force the door.

Pneumatic Railway Signals.

The Philadelphia, Wilmington and Baltimore Railroad Company has recently put down, on trial, at Wilmington, Del., a new railway signal and gate system. Along or between the tracks, or under the road, a pipe is laid, two inches in diameter, in which compressed air, 85 lbs. to the inch pressure, is carried. When the train moves out of the depot, the locomotive strikes a lever, and at the first street which the track crosses a gong or bell is set ringing to warn persons that a train is approaching, and a gate extending across the street descends to within two feet of the ground. The gate remains closed until the train has passed. The locomotive then strikes another lever, when another bell is rung, and another gate, a square ahead, is closed; the gate behind the train is caused to rise to its place, and that crossing is left free. In this manner every train that passes through a city is made automatically to fence itself in, as it were, by closing and opening gates over each street, one or two squares in advance as may be desired. When the train starts, by its striking the lever already described, a danger signal is instantly thrown around at right angles to the track behind the train, and another a mile ahead of it. When this one is reached another lever is struck, and the last mentioned signals are thrown back to their former positions, showing the first mile to be clear; and the two other signals, one behind and one a mile ahead of the train, are exposed, and so from mile to mile along the whole road. At every point of its progress a train is thus between two signals, one to warn trains coming toward it, the other to warn trains following it.
